**U.S. ELECTION ASSISTANCE COMMISSION**

*2008 Election Administration & Voting Survey*

***Statutory Overview***

**In order to better understand state laws governing federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help us to better understand the quantitative data relating to the 2008 general election that we are collecting from all U.S. states and territories.**

**We understand that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.**

## SECTION A: GENERAL

A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.

a. Over-vote

[Begin definition (a) below this line.]

State law provides the definition below for vote counting systems, which in practice is the same as how overvotes are determined when they are counted by hand.

**13-15-206. Counting votes -- uniformity -- rulemaking -- definitions. . . .**

(9) For purposes of this section, "overvote" means an elector's vote that has been interpreted by the voting system as an elector casting more votes than allowable for a particular office or ballot issue.

[End definition (a) above this line.]

b. Under-vote

[Begin definition (b) below this line.]

State law does not specifically define under-votes, but they are generally understood as follows: undervote means an elector's vote that has been interpreted by a voting system or a counting board as a nonvote.

[End definition (b) above this line.]

c. Blank ballot

[Begin definition (c) below this line.]

State law does not specifically define blank ballots, but in a hand count they are generally understood to be ballots without any discernible votes cast and in a voting system count they are subject to the provision below. Unvoted blank ballots processed by a voting system are reviewed manually.

"13-15-206(3)(b) If the voting system cannot process the ballot because of the ballot's condition or if the voting system registers an unvoted ballot or an overvote, which must be considered a questionable vote, the entire ballot must be set aside and the votes on the ballot must be counted as provided in subsection (4)."

[End definition (c) above this line.]

d. Void/Spoiled ballot

[Begin definition (d) below this line.]

State law does not specifically define spoiled ballots, but by law, 13-13-117(b), "An elector who spoils the elector's ballot must be provided with another ballot in place of the spoiled ballot." If an elector determines that the elector has spoiled the elector's ballot, the elector is provided with a new one.

[End definition (d) above this line.]

e. Provisional/Challenged ballot

[Begin definition (e) below this line.]

13-1-101(23), MCA: "Provisional ballot" means a ballot cast by an elector whose identity and eligibility to vote have not been verified as provided by law.

[End definition (e) above this line.]

f. Absentee

[Begin definition (f) below this line.]

The law is not specific on the definition of an absentee ballot, but in general an absentee ballot is one that is cast by an elector who is not voting at the elector's assigned polling place and/or that is processed as an absentee ballot rather than as a polling place ballot.

In some cases, if an election office is also a polling place, all electors voting there prior to election day would be voting absentee, and if the elector is voting on election day, the elector would be voting absentee if the elector does not vote using normal polling place procedures but is instead issued absentee voting materials.

[End definition (f) above this line.]

g. Early voting

[Begin definition (g) below this line.]

Montana does not have early voting as it is often defined – casting a ballot that is counted before election day or that is cast at a satellite voting location. However, the law below provides for voting a ballot in the election administrator's office as soon as ballots are available.

"13-13-222. Marking ballot before election day. (1) As soon as the official ballots are available pursuant to 13-13-205, the election administrator shall permit an elector to apply for, receive, and mark an absentee ballot before election day by appearing in person at the office of the election administrator and marking the ballot in a voting station area designated by the election administrator.

(2) The provisions of this chapter apply to voting under this section.

(3) If the ballot is marked before the election administrator, the election administrator shall deal with it as provided in 13-13-231."

[End definition (g) above this line.]

**h. Active Voter**

[Begin definition (h) below this line.]

The law below is understood to mean that an active elector is one who has not been inactivated; i.e., the elector retains the status under which they originally registered and has not been inactivated for failure to respond to certain confirmation mailings.

13-1-101. Definitions. As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Active elector" means an elector . . . whose name is on the active list.

[End definition (h) above this line.]

**i. Inactive Voter**

[Begin definition (i) below this line.]

The law below is understood to mean that an inactive elector is one who has been inactivated; i.e., the elector's active status under which they originally registered has been changed to inactive due to failure to respond to certain confirmation mailings.

13-1-101(14) "Inactive elector" means an individual . . . whose name was placed on an inactive list pursuant to 13-2-220.

[End definition (i) above this line.]

[End TERM(s) and definition(s) above this line.]

A2. Please provide the legal citation for any **significant** changes to election laws or procedures that have been enacted or adopted since the previous Federal election. By "significant," we do not mean routine or technical changes (such as changes to election district boundaries or polling place changes). However, we would like to learn about any new identification requirements for voters or registrants; changes in eligibility for voting or registering; adoption of alternative voting methods; and other changes that you believe represent a significant change in the way your state runs its elections.

[Begin response to above question (A2) below this line.]

Our legislature provided the option below for a person holding a power of attorney to apply for an absentee ballot and expanded the use of the Federal Write-in Absentee Ballot to be used in any election and to allow the use of the Federal Write-In Ballot addendum.

**13-13-212. Application for absentee ballot -- special provisions. . . .**

"(b) A person who holds a power of attorney from an absent uniformed services elector may apply for an absentee ballot for that election on behalf of the uniformed services elector. The applicant shall provide a copy of the power of attorney authorizing the request for an absentee ballot along with the application."

**13-21-205. Federal write-in absentee ballot.** "(1) A United States elector may register, if not already registered, and vote in any election by completing, signing, and returning a federal write-in absentee ballot and meeting the requirements in 13-21-206.

(2) (a) A United States elector voting a federal write-in absentee ballot for a federal general election may designate a candidate by writing in the name of the candidate or by writing in the name of the political party for which the elector is voting. A written designation of the political party must be counted as a vote for the candidate of that party.

(b) (i) Except as provided in subsection (2)(b)(ii), a United States elector may vote in any election for a public office other than for a federal office by using the addendum provided in the federal write-in absentee ballot and writing in the title of the office and the name of the candidate for whom the elector is voting.

(ii) If the elector is voting in a primary election, the elector shall identify the elector's political party affiliation as provided for in the appropriate section of the ballot. A vote cast by writing in the name of a candidate who is not

affiliated with the elector's identified party is void and may not be counted.

(3) A vote may not be voided for reasons of misspellings, abbreviations, or other minor variations of the candidate's name.

(4) If the elector receives the regular absentee ballot after the elector has voted and mailed a federal write-in absentee ballot, the elector may vote and return the regular absentee ballot."

## SECTION B: VOTER REGISTRATION

B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)

[Begin response to above question (B1) below this line.]

Our system is probably best described as a hybrid, since the county election administrators upload information into it and the information is available immediately, in real time. The servers are housed at the state level and county election officials access the system through an Internet-based Citrix portal.

[End response to above question (B1) above this line.]

If your state has a bottom-up or hybrid system, how often do local jurisdictions transmit registration information to the state list?

[Begin response to above clarification question to B1 below this line.]

Immediately, in real time.

[End response to above clarification question to B1 above this line.]

B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?

[Begin response to above question (B2) below this line.]

The procedures for inactivation and reactivation are below. Normally, counties send out notices to people who have not voted in the last federal general election and if those notices are not returned completed by the electors or are returned undeliverable, the electors are put on the inactive list. This is also true if they do not vote in mail ballot elections and do not respond to a confirmation mailing sent after the mail ballot election. They can reactivate under the procedures of 13-2-222, MCA (*see below*).

UOCAVA voters are not inactivated until the completion of the process of receiving ballots automatically. They receive ballots in the calendar year in which they sent in an application and for the next two federal general elections held in years after that year, even if they do not vote in those elections.

The applicable laws are below.

13-2-220. Maintenance of active and inactive voter registration lists for elections -- rules by secretary of state. (1) The rules adopted by the secretary of state under 13-2-108 must include the following procedures, which an election administrator shall follow in every odd-numbered year:

(a) compare the entire list of registered electors against the national change of address files and provide appropriate confirmation notice to those individuals whose addresses have apparently changed;

(b) mail a nonforwardable, first-class, "return if undeliverable--address correction requested" notice to all registered electors of each jurisdiction to confirm their addresses and provide the appropriate confirmation notice to those individuals who return the notices;

(c) mail a targeted mailing to electors who failed to vote in the preceding federal general election by:

(i) sending the list of nonvoters a nonforwardable notice, followed by the appropriate forwardable confirmation notice to those electors who appear to have moved from their addresses of record;

(ii) comparing the list of nonvoters against the national change of address files, followed by the appropriate confirmation notices to those electors who appear to have moved from their addresses of record;

(iii) sending forwardable confirmation notices; or

(iv) making a door-to-door canvass.

(2) Any notices returned to the election administrator after using the procedures provided in subsection (1) must be followed by an appropriate confirmation notice that is a forwardable, first-class, postage-paid, self-addressed, return notice. If the elector fails to respond within 30 days of the confirmation notice, the election administrator shall move the elector to the inactive list.

(3) A procedure used by an election administrator pursuant to this section must be completed at least 90 days before a primary or general election for federal office.

13-2-222. Reactivation of elector. (1) The name of an elector must be moved by an election administrator from the inactive list to the active list of a county if an elector meets the requirements for registration provided in this chapter and:

(a) appears in order to vote or votes by absentee ballot in any election;

(b) notifies the county election administrator in writing of the elector's current residence, which must be in that county; or

(c) completes a reactivation form provided by the county election administrator that provides current address information in that county.

(2) After an elector has complied with subsection (1)(a), (1)(b), or (1)(c), the county election administrator shall place the elector's name on the active voting list for that county.

(3) An elector reactivated pursuant to subsection (1)(a) is a legally registered elector for purposes of the election in which the elector voted.

**13-21-210. Application for absentee ballots.** (1) (a) A United States elector may apply for a regular absentee ballot as follows:

(i) by making a written request, which must include the elector's birth date and signature; or

(ii) by properly completing, signing, and returning to the election administrator the federal post card application.

(b) A person who holds a power of attorney from an absent uniformed services elector may apply for an absentee ballot for that election on behalf of the uniformed services elector. The applicant shall provide a copy of the power of attorney authorizing the request for an absentee ballot along with the application.

(2) An application for a regular absentee ballot must be received by the appropriate county election administrator not less than 30 days before the date of an election. An application for a regular absentee ballot that is received less than 30 days before the date of an election must be processed for the next election.

(3) An application under this section is valid for all state and local elections in the calendar year in which the application is made and the next two regularly scheduled federal general elections.

(4) The elector's county election administrator shall provide the elector with a regular absentee ballot for the elections described in subsection (3) as soon as the ballots are printed.

[End response to above question (B2) above this line.]

**B3.** Please describe your state's process for removing voters from the voter registration rolls (not merely moving them from active to inactive). Please include information regarding notices and confirmations. Are these procedures the same for UOCAVA voters?

[Begin response to above question (B3) below this line.]

Our cancellation procedures, including but not limited to those for failing to respond to confirmation mailings and then failing to vote in two consecutive federal general elections after the mailings, are below. For UOCAVA voters, see above under B2. Otherwise, the procedures below apply to them.

**13-2-402. Reasons for cancellation.** The election administrator shall cancel the registration of an elector if:

(1) the elector submits a written request for cancellation;

(2) a certificate of the death of the elector is filed or if the elector is reported to the election administrator as deceased by the department of public health and human services in the department's reports submitted to the county under 50-15-409 or through a newspaper obituary;

(3) the elector is of unsound mind as established by a court;

(4) the incarceration of the elector in a penal institution for a felony

conviction is legally established;

(5) a certified copy of a court order directing the cancellation is filed with the election administrator;

(6) a notice is received from the secretary of state or from another county or state that the elector has registered in another county or state;

(7) the elector fails to respond to certain confirmation mailings and fails to vote in two consecutive federal general elections; or

(8) the elector fails to meet any voter qualification that is listed in 13-1-111.

[End response to above question (B3) above this line.]

B4. Can your state's voter registration database (or equivalent) share information electronically with your state's drivers license agency (for example, to match records or trace changes in address)? Can your voter registration database be similarly linked with databases in any other state or federal agencies? Please describe these links, including any use of database matching to verify voter registration applications.

[Begin response to above question (B4) below this line.]

Yes, the state voter registration database shares information electronically with the state driver's license agency. We also have a link to the SSA database. Election officials can verify a person's driver's license number through a link with the Motor Vehicle Division and can verify the person's Social Security number through a portal that is outside the database but which is easily accessed. We also have links to the Department of Public Health and Human Services and to the Department of Corrections.

[End response to above question (B4) above this line.]

B5. Please describe how your state uses National Change of Address (NCOA). What has been your state's experience with using NCOA?

[Begin response to above question (B5) below this line.]

County election officials are wary about the use of the NCOA due to the high mobility of the state's population. Often, people move out of state or into the state in the summer and then return to their place of residence in the fall, so their address on file with the USPS may not be the same as their residence address within a period of a few weeks. A county official who checks the NCOA on September 1 and finds an elector apparently absent from the state may find that by September 15 the same elector is now residing in the state according to updated NCOA files or information supplied by the elector. Counties who consider use of the NCOA are cautioned to follow up with a confirmation mailing to the elector.

[End response to above question (B5) above this line.]

B6. Please describe your state's voting eligibility requirements as they relate to individuals with a felony conviction. (For example, are convicted felons allowed to vote while in prison or while on parole or probation? Are voting rights automatically restored or does the individual have to apply for a pardon, certificate of eligibility or other similar certificate? Does an individual whose voting rights have been restored have to produce documentation of his/her status when registering to vote?)

[Begin response to above question (B6) below this line.]

Convicted felons are not allowed to vote while incarcerated in a penal institution. Our state Department of Corrections has determined that pre-release centers are not penal institutions. Voting rights are restored once the

elector is no longer incarcerated, but such an individual needs to re-register. An individual who is no longer incarcerated would just need to provide identifying information in order to register but an election official might need to resolve the incarceration issue if the elector registers by mail.

[End response to above question (B6) above this line.]

B7. Does your state currently use the Internet in any way to facilitate voter registration? If yes, please describe how your state allows voters to use the Internet in the registration process (e.g., entire registration completed online; completed online but then must be printed, signed, and mailed by voter, etc.).

[Begin response to above question (B7) below this line.]

Yes, we have our registration card available online for printing and sending and have links to the Federal Post Card Application. The card cannot be filled out online. More significantly, we plan to use the Internet, starting October 6, to provide polling place locations to registered electors.

For UOCAVA voters, counties are allowed to accept voter registration applications electronically over the Internet and certain counties have signed up for a federal program under FVAP for transmission of certain voting materials through the Internet.

[End response to above question (B7) above this line.]

## SECTION C: ELECTION ADMINISTRATION

C1. Please describe how all votes cast at a place other than the voter's precinct of registration are tabulated (for example, please include descriptions of such votes as absentee ballots, mail-in ballots, votes cast at vote centers, provisional ballots, early voting locations, etc.).

- a. Are the votes counted centrally or at the precincts?

[Begin response to above question (a) below this line.]

The procedures vary between counties. In some counties, county election officials provide these ballots to the polling place precincts, and in other counties they count such ballots centrally.

[End response to above question (a) above this line.]

- b. If centrally tabulated, are the votes redirected to the appropriate precinct for reporting in the canvass?

[Begin response to above question (b) below this line.]

The ballots that are centrally tabulated are not redirected to the precinct if they are centrally tabulated, since the counties can track and report the totals centrally.

[End response to above question (b) above this line.]

- c. Are the absentee, mail, etc., votes reported separately for each precinct, or are they added to the in-precinct results and reported as just a single number?

[Begin response to above question (c) below this line.]

This varies. Counties are not required to separate out their absentee totals although in practice they often do. Also, not all counties separate out their absentee and other ballots' totals by precinct.

[End response to above question (c) above this line.]

- d. How are UOCAVA ballots counted and reported?

[Begin response to above question (d) below this line.]

We are not aware of any counties that count and report their UOCAVA ballots separately. They are added in with other absentee ballots (see above counting and reporting procedures for absentee ballots). This helps to ensure the secrecy of their ballots since in many counties there are few UOCAVA voters.

C2. Does your state require a reason for voting absentee, or does your state allow no-excuse absentee voting? (If a reason is required, please provide the legal citation.)

[Begin response to above question (C2) below this line.]

Montana does not require a reason for voting absentee – we statutorily allow no-excuse absentee voting.

[End response to above question (C2) above this line.]

C3. Does your state provide for in-person early voting? If so, how is early voting defined? When early voting is used, are the ballots counted at the precinct or at a central location? How are these votes reported?

[Begin response to above question (C3) below this line.]

In Montana, as soon as the ballots are available, an elector can come in and vote an absentee ballot in the county election office. The ballot is not counted until election day, and there are no satellite voting places that are separate from the county election office.

When this type of early voting is used, some counties send the ballots to the polls to be counted and some count them centrally.

These ballots are reported with other absentee ballots (*see above counting and reporting procedures for absentee ballots*).

[End response to above question (C3) above this line.]

C4. Do any jurisdictions in your state use a vote-by-mail system to replace (and not merely supplement) at-the-precinct voting in any elections?

[Begin response to above question (C4) below this line.]

We do not have any jurisdictions that are permitted to use a vote-by-mail system to replace at-the-precinct voting in federal primary or federal general elections, but counties and schools can and often do choose to hold their municipal, special district (such as water and sewer and fire, etc.) and school elections by all mail ballot.

[End response to above question (C4) above this line.]

C5. Please list each of the situations that require a provisional ballot in your state. Please provide the relevant legal citation for each situation.

### **Elector's right to vote was challenged**

13-13-301. Challenges. (1) An elector's right to vote may be challenged at any time by any registered elector by the challenger filling out and signing an affidavit stating the grounds of the challenge and providing any evidence supporting the challenge to the election administrator or, on election day, to an election judge.

(2) A challenge may be made on the grounds that the elector:

(a) is of unsound mind, as determined by a court;

(b) has voted before in that election;

(c) has been convicted of a felony and is serving a sentence in a penal institution;

(d) is not registered as required by law;

(e) is not 18 years of age or older;

(3) When a challenge has been made under this section:

(a) prior to the close of registration under 13-2-301, the election administrator shall question the challenger and the challenged elector and may question other persons to determine whether the challenge is sufficient or insufficient to cancel the elector's registration under 13-2-402; or

(b) after the close of registration or on election day, the election administrator or, on election day, the election judge shall allow the challenged elector to cast a provisional paper ballot, which must be handled as provided in 13-15-107.

If the challenge is made more than 5 days before an election, "as soon as possible", as used in this subsection (4)(b), means no later than 5 days after the challenge.

(5) The secretary of state shall adopt rules to implement the provisions of this section and shall provide standardized affidavit forms for challengers and challenged electors.

### **County-to-County late registration in election office**

After the registers are printed, these late registrants are made provisional in order to ensure that they do not vote more than once. Their eligibility to vote has not yet been verified, but is verified when the county they were registered in before confirms that the person did not vote in the old county in the same election. This is completed as soon as possible after election day.

**13-1-101. Definitions.** As used in this title, unless the context clearly indicates otherwise, the following definitions apply: . . .

(23) "Provisional ballot" means a ballot cast by an elector whose identity and eligibility to vote have not been verified as provided by law. . . .

### **Precinct-to-precinct late registration in election office**

Again, after the registers are printed, these registrants are provisional in order to ensure that they do not vote more than once. Their eligibility to

vote has not yet been verified, but is verified when the county election administrator confirms that the person did not vote at the polls in their old precinct in the same election. This is completed as soon as possible after election day.

**13-1-101. Definitions.** As used in this title, unless the context clearly indicates otherwise, the following definitions apply: . . .

(23) "Provisional ballot" means a ballot cast by an elector whose identity and eligibility to vote have not been verified as provided by law. . . .

[End response to above question (C5) above this line.]

C6. Does your state count provisional ballots of voters who are registered in different precincts, or are those ballots automatically rejected? Please describe the process used by local election officials in determining whether to count a provisional ballot.

[Begin response to above question (C6) below this line.]

HAVA indicates that an ". . . individual shall be permitted to cast a provisional ballot at that polling place upon the execution of a written affirmation by the individual before an election official at the polling place stating that the individual is-- (A) a registered voter in the jurisdiction in which the individual desires to vote; and (B) eligible to vote in that election."

If an individual casting a provisional ballot (*in a jurisdiction in which the elector is apparently not registered*) is determined not to be a registered voter in the jurisdiction in which the individual desires to vote, the elector's provisional ballot is not counted unless the reason why the individual is not registered in the jurisdiction is due to administrative error.

The statutory process for handling provisional ballots is below.

**13-15-107. Handling and counting provisional and challenged ballots.**

(1) To verify eligibility to vote, a provisionally registered elector who casts a provisional ballot has until 5 p.m. on the day after the election to provide valid identification information either in person, by facsimile, by electronic mail, or by mail postmarked no later than the day after the election.

(2) (a) If a legally registered elector casts a provisional ballot because the elector failed to provide sufficient identification as required pursuant to 13-13-114(1)(a), the election administrator shall compare the elector's signature on the affirmation required under 13-13-601 to the elector's signature on the elector's voter registration card.

(b) If the signatures match, the election administrator shall handle the

ballot as provided in subsection (6).

(c) If the signatures do not match, the ballot must be rejected and handled as provided in 13-15-108.

(3) A provisional ballot must be counted if the election administrator verifies the elector's eligibility pursuant to rules adopted under 13-13-603. However, if the election administrator cannot verify the elector's eligibility under the rules, the elector's provisional ballot must be rejected and handled as provided in 13-15-108. If the ballot is provisional because of a challenge and the challenge was made on the grounds that the elector is of unsound mind or serving a felony sentence in a penal institution, the elector's provisional ballot must be counted unless the challenger provides documentation by 5 p.m. on the day after the election that a court has established that the elector is of unsound mind or that the elector has been convicted and sentenced and is still serving a felony sentence in a penal institution.

(4) The election administrator shall provide an elector who cast a provisional ballot but whose ballot was not counted with the reasons why the ballot was not counted.

(5) A provisional ballot cast by an elector whose voter information is verified before 5 p.m. on the day after the election must be removed from its provisional envelope, grouped with other ballots in a manner that allows for the secrecy of the ballot to the greatest extent possible, and counted as any other ballot.

C7. Please describe your state's laws regarding post-election audits, if any.

[Begin response to above question (C7) below this line.]

We do not have any laws regarding post-election audits.

[End response to above question (C7) above this line.]

C8. Please describe any state requirements for poll worker training.

[Begin response to above question (C8) below this line.]

The applicable law is below.

13-4-203. Instruction of judges -- training materials. (1) Before each election, all election judges who do not possess a current certificate of instruction obtained pursuant to 13-1-203(3) must be instructed by the election administrator. In precincts where voting systems are used, instructions must cover both how to operate the voting system and how to manually process any paper ballots.

(2) Chief judges may be required to attend the training session before each election, as well as a special session that may be held for chief judges only, even if they possess a current certificate of instruction.

(3) Any individual willing to be appointed as an election judge may attend an instruction session by registering with the election administrator. However, the individual may not be paid for attendance unless the individual is appointed as an election judge.

(4) Each election judge completing a training session under this section must be given a certificate of completion. An individual may not serve as an election judge without a valid certificate obtained under 13-1-203(3) or this section. However, this does not apply to individuals filling vacancies in emergencies.

(5) All certificates of completion expire 30 days before the primary election in even-numbered years.

(6) Notice of place and time of instruction must be given by the election administrator to the presiding officers of the political parties in the county.

## SECTION D: ELECTION DAY ACTIVITIES

D1. Please describe your state's process for capturing "over-vote" and "under-vote" counts.

[Begin response to above question (D1) below this line.]

The state and counties do not have a special process for capturing these counts. Counties' election management software often captures these numbers, however.

[End response to above question (D1) above this line.]

D2. What identification does your state require from voters in the following situations:

- a. registering to vote;

[Begin response to above question (a) below this line.]

We do not require identification of applicants when they register to vote, but under 13-2-110, MCA, the applicant needs to provide the applicant's driver's license number; or if the applicant does not have a driver's license, the applicant shall provide the last four digits of the applicant's social security number.

If an applicant does not have a driver's license or social security number: an applicant appearing in person before the election administrator shall provide: current and valid photo identification, including but not limited to a school district or postsecondary education photo identification or a tribal photo identification, with the individual's name; or a current utility bill, bank statement, paycheck, government check, or other government document that shows the individual's name and current address.

An applicant who does not have a driver's license number or Social Security number who is applying by mail to register shall also enclose a copy of: a current and valid photo identification, including but not limited to a school district or postsecondary education photo identification or a tribal photo identification, with the individual's name; or a current utility bill, bank statement, paycheck, government check, or other government document that shows the individual's name and current address.

[End response to above question (a) above this line.]

- b. casting an in-person ballot;

[Begin response to above question (b) below this line.]

Section 13-13-114(1)(a), MCA provides that "Before an elector is permitted to receive a ballot or vote, the elector shall present to an election judge a current photo identification showing the elector's name.

If the elector does not present photo identification, including but not limited to a valid driver's license, a school district or postsecondary education photo identification, or a tribal photo identification, the elector shall present a current utility bill, bank statement, paycheck, notice of confirmation of voter registration issued pursuant to 13-2-207, government check, or other government document that shows the elector's name and current address."

[End response to above question (b) above this line.]

c. casting a mail-in or absentee vote;

[Begin response to above question (c) below this line.]

In Montana, the county election administrator sends to mail-ballot and absentee electors a government document to the elector with the elector's name and current address on it. The elector confirms in writing the information on the document and sends the government document back to the county election administrator.

Next, under 13-13-241(1)(a), MCA, "After an absentee ballot is received, an election administrator shall compare the signature of the elector on the absentee ballot request with the signature on the absentee ballot return envelope.

(b) If the elector is legally registered and the signature on the return envelope matches the signature on the absentee ballot application, the election administrator or an election judge shall handle the ballot as a regular ballot.

(c) (i) If the elector is provisionally registered and the signature on the return envelope matches the signature on the absentee ballot application, the election administrator or an election judge shall open the outer return envelope and determine whether the elector's voter identification information, if enclosed pursuant to 13-13-201, is sufficient pursuant to rules adopted under 13-2-109 to legally register the elector.

(ii) If the voter identification information is sufficient to legally register the elector, the ballot must be handled as a regular ballot.

(iii) If voter identification information was not enclosed or the information enclosed is insufficient to legally register the elector, the ballot must be handled as a provisional ballot under 13-15-107."

[End response to above question (c) above this line.]

d. casting a ballot under UOCAVA;

[Begin response to above question (d) below this line.]

In Montana, the county election administrator sends to UOCAVA electors a government document with the elector's name and current address on it. The elector confirms in writing the information on the document and sends the government document back to the county election administrator.

Additionally, under 13-21-202(1), "Upon receipt by the election administrator of an application by a United States elector for a regular absentee ballot pursuant to 13-13-212 or 13-21-210, the election administrator shall: . . .

(b) immediately enter all information in the registration records of the office and either file the federal post card application with regular registration forms or file a photocopy attached to a regular registration form on which the information has been entered. This information is sufficient to meet any identification requirements provided by law for an elector. . . ."

[End response to above question (d) above this line.]

- e. any other stage in registration or voting process in which identification is required (please specify).

[Begin response to above question (e) below this line.]

This is not applicable in Montana.

[End response to above question (e) above this line.]

D3. Please describe your state's laws regarding access to the polling place for election observers. Election observers are people allowed inside the polling place who are not poll workers, election officials or voters. If decisions on access to observers are left to local jurisdictions, please explain.

[Begin response to above question (D3) below this line.]

Our laws are below. They allow for one poll watcher from each political party and for other poll watchers if the number of poll watchers at the polling place will not interfere with the election procedures.

13-13-120. Poll watchers -- announcement of elector's name. The election judges shall permit one poll watcher from each political party to station himself close to the poll lists in a location that does not interfere with the election procedures. At the time when each elector signs his name, one of the election judges shall pronounce the name loud enough to be heard by the poll watchers. A poll watcher who does not understand the pronunciation has the right to request that the judge repeat the name. Poll watchers shall also be permitted to observe all of the vote counting procedures of the judges after the closing of the polls and all entries of the results of the elections.

13-13-121. Additional poll watchers. A candidate, a group of candidates, or any group having an interest in the election may request the election administrator to allow additional poll watchers at any precinct. The election administrator shall grant such requests if the number of poll watchers at the polling place will not interfere with the election procedures.

13-13-122. Preventing obstructions. An election officer, sheriff, constable, or other peace officer may clear the passageway, prevent any obstruction, or arrest any individual obstructing the passageway to a polling place.

## SECTION E: OTHER

E1. Under HAVA, Section 402, states are required to have in place administrative complaint procedures to remedy grievances. Has your state revised its administrative complaint procedures since they were first implemented? If so, how?

[Begin response to above question (E1) below this line.]

Our administrative complaint procedures are in Administrative Rules and are below. We have made minor revisions to clarify that the presiding officer is not required to be the secretary of state and to expand the areas of law that are covered by the complaint process while removing a requirement for a special review panel.

### 44.3.2601 ADMINISTRATIVE COMPLAINT PROCEDURES

- (1) The procedures in this rule shall be uniform and nondiscriminatory.
- (2) Under this rule, any individual who believes that there is a violation of any provision of Title III of the Help America Vote Act of 2002 (hereinafter referred to as Title III) , or 13-13-601 , 13-13-602 , or 13-13-114 , MCA, including a violation which has occurred, is occurring, or is about to occur, may file a complaint.
- (3) Any complaint filed under this rule shall be in writing and notarized, and signed and sworn by the individual filing the complaint, and include the full name, telephone number, and mailing address of the complainant.
- (4) The Secretary of State may consolidate complaints filed under this rule.
- (5) The Secretary of State shall designate a presiding officer for any complaint under this rule. The Secretary of State may, upon agreement of all the parties, resolve the complaint informally, and issue a final determination without a formal proceeding.
- (6) At the request of the complaint, there shall be a hearing on the record. If a hearing shall be held at a date and time and place determined by the presiding officer and at the officer's discretion, the hearing may be conducted by telephone or upon written documentation. If the hearing is on consolidated complaints, then the complainants shall designate a single representative party to advocate for the consolidated complaint. If the presiding officer permits witnesses to testify, then they must be sworn in prior to their testimony being given. If a complainant fails to pursue a complaint, then the complaint shall be dismissed with prejudice.
- (7) If, under this rule, the presiding officer determines that there is a violation of any provision of Title III or 13-13-601 , 13-13-602 , or 13-13-114 , MCA, the Secretary of State shall provide an informal opinion.

(8) If, under this rule, the Secretary of State determines that there is no violation, or that the complainant did not follow the above procedures in filing the complaint, or the complaint does not on its face allege a violation of Title III with regard to a federal election, or a violation of 13-13-601 , 13-13-602 , or 13-13-114, MCA, with regard to a federal or state election, the Secretary of State shall dismiss the complaint and publish the results of the procedures.

(9) The Secretary of State shall make a final determination with respect to a complaint prior to the expiration of the 90-day period that begins on the date the complaint is filed, unless the complainant consents to a longer period for making such a determination.

(10) If the Secretary of State fails to meet the deadline applicable under this rule, the complaint shall be resolved within 60 days under alternative dispute resolution procedures established for purposes of this rule. The record and other materials from any proceedings conducted under the complaint procedures established under this rule shall be made available for use under the alternative dispute resolution procedures.

(11) At any time before, during or prior to this process the complainant retains the right to file an action in any court of appropriate jurisdiction or to withdraw the complaint. No exhaustion of this administrative remedy is required.
