Subject Must haves for fair voting

History:

 This message has been replied to.

Here are my comments for the fairness of voting rights.

1. Photo ID to Vote.
2. Citizenship verification.
3. Aggressive enforcement of voting AND registration fraud.
4. Aggressive enforcement for the Intimidation of voters at the polls
5. Absentee ballots for overseas Military should be sent 90 days before election day by priority mail And Airmail to distribution points. ALL Military Commanders be mandated to disburse these ballots, and police them BACK in 30 days. This gives 30 days for them to be AIR MAILED and Priority mailed back to the polling area. It's an outrage that we still have not made absentee voting simple and timely for our Soldiers overseas!
6. HEAVY jail time and fines for Poll employee that "find" uncounted ballots behind machines, in car trunks, or other questionable areas. They may have to be counted, but the ineptness that puts them there in the first place should be heavily punished to discourage such tactics or mistakes.

These suggestions will go a long way in getting the confidence back from the American people. Voting rights and One Person, One Vote are VERY important to the American People. And we have seen this right erode over the last few election cycles. No More!

Thank you

Robert Courtney
