

U.S. ELECTION ASSISTANCE COMMISSION

2016 Election Administration & Voting Survey

Statutory Overview

In order to better understand state laws governing Federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help EAC to better understand the quantitative data relating to the 2016 general election that we are collecting from all U.S. states and territories.

EAC understands that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.

DIRECTIONS AND EXAMPLE

As appropriate, please provide your state's legal citation for the responses to the questions beginning on the following page.

Please answer each question to the best of your ability. If a term or concept is ambiguous, please explain why. If a question is not applicable to your state, please explain why. If a definition or term lacks statutory reference in your state but is widely used in practice, please explain. If election procedures vary at the local level within your state, please explain these variations to the best of your ability.

The Statutory Overview data collection document has two columns below each question.

- On the left, we have provided you with the answer your state provided for the 2014 Statutory Overview. If there has not been a change in your state's laws or legal citation in the response to a question, please mark the box labeled **No Change since 2014** at the top of the left column.
- If the response has changed since 2014 – or your state has not answered this question previously for some reason— please mark the box labeled **Changed since 2014** at the top of the right column and then provide the new answer in the text box provided. If your response is too long to fit in the box, please make a note in the text box and place your response in the “Notes” page at the end of the document. Additionally, if a law was repealed in full, please answer “repealed in full” in the box.

If any of your state laws are currently enjoined or otherwise blocked from enforcement by a state or federal court or by executive decision, please specify.

Example:

A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.

a) Over-vote

☒ **No Change since 2014**

☐ **Changed since 2014**

State code 1.11 - An attempt to vote for a larger number of candidates than is allowed.

b) Under-vote

☐ **No Change since 2014**

☒ **Changed since 2014**

This term has no legal definition.

State code 1.12 - An attempt to vote for a smaller number of candidates than is allowed.

SECTION A: GENERAL

A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.

a) Over-vote

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

State law provides the definition below for vote counting systems, which in practice is the same as how overvotes are determined when they are counted by hand.
13-15-206. Counting votes -- uniformity -- rulemaking -- definitions. . . .
(9) For purposes of this section, "overvote" means an elector's vote that has been interpreted by the voting system as an elector casting more votes than allowable for a particular office or ballot issue.

2016 Response:

b) Under-vote

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

State law does not specifically define under-votes, but they are generally understood as follows: undervote means an elector's vote that has been interpreted by a voting system or a counting board as a nonvote.

2016 Response:

c) Blank ballot

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

State law does not specifically define blank ballots, but in a hand count they are generally understood to be ballots without any discernible votes cast and in a voting system count they are subject to the provision below. Unvoted blank ballots processed by a voting system are reviewed manually. "13-15-206(3)(b) If the voting system cannot process the ballot because of the ballot's condition or if the voting system registers an unvoted ballot or an overvote, which must be considered a questionable vote, the entire ballot must be set aside and the votes on the ballot must be counted as provided in subsection (4)."

2016 Response:

d) Void/Spoiled ballot

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

State law does not specifically define spoiled ballots, but by law, 13-13-117(b), "An elector who spoils the elector's ballot must be provided with another ballot in place of the spoiled ballot." If an elector determines that the elector has spoiled the elector's ballot, the elector is provided with a new one.

2016 Response:

e) Provisional/Challenged ballot

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

(26) "Provisional ballot" means a ballot cast by an elector whose identity or eligibility to vote has not been verified as provided by law.

2016 Response:

f) Absentee

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

The law is not specific on the definition of an absentee ballot, but in general an absentee ballot is one that is cast by an elector who is not voting at the elector's assigned polling place and/or that is processed as an absentee ballot rather than as a polling place ballot.
In some cases, if an election office is also a polling place, all electors voting there prior to election day would be voting absentee, and if the elector is voting on election day, the elector would be voting absentee if the elector does not vote using normal polling place procedures but is instead issued absentee voting materials.

2016 Response:

g) Early voting

☐ No Change since 2014

☒ Changed since 2014

2014 Response:

Montana does not have early voting as it is often defined – casting a ballot that is counted before election day or that is cast at a satellite voting location. However, the law below provides for voting a ballot in the election administrator's office as soon as ballots are available.

"13-13-222. Marking ballot before election day. (1) As soon as the official ballots are available pursuant to 13-13-205, the election administrator shall permit an elector to apply for, receive, and mark an absentee ballot before election day by appearing in person at the office of the election administrator and marking the ballot in a voting station area designated by the election administrator.

(2) The provisions of this chapter apply to voting under this section.

2016 Response:

Montana does not have early voting as it is often defined – casting a ballot that is counted before election day. However, certain counties in Montana do have satellite voting locations, each of which are available before and on election day, and the law below provides for voting a ballot in the election administrator's office as soon as ballots are available.

"13-13-222. Marking ballot before election day. (1) As soon as the official ballots are available pursuant to 13-13-205, the election administrator shall permit an elector to apply for, receive, and mark an absentee ballot before election day by appearing in person at the office of the election administrator and marking the ballot in a voting station area designated by the election administrator.

(2) The provisions of this chapter apply to voting under this section.

h) Active Voter

☒ No Change since 2014

☐ Changed since 2014

2014 Response:

The law below is understood to mean that an active elector is one who has not been inactivated; i.e., the elector retains the status under which they originally registered and has not been inactivated for failure to respond to certain confirmation mailings.

(1) "Active elector" means an elector whose name has not been placed on the inactive list due to failure to respond to confirmation notices pursuant to 13-2-220 or 13-19-313.

2016 Response:

i) Inactive Voter

☐ Changed since 2014

2014 Response:

The law below is understood to mean that an inactive elector is one who has been inactivated; i.e., the elector's active status under which they originally registered has been changed to inactive due to failure to respond to certain confirmation mailings.

(14) "Inactive elector" means an individual who failed to respond to confirmation notices and whose name was placed on the inactive list pursuant to 13-2-220 or 13-19-313.

13-1-101. Definitions. As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(1) "Active elector" means an elector whose name has not been placed on the inactive list due to failure to respond to confirmation notices pursuant to 13-2-220 or 13-19-313.

(2) "Active list" means a list of active electors maintained pursuant to 13-2-220.

(3) "Anything of value" means any goods that have a certain utility to the recipient that is real and that is ordinarily not given away free but is purchased.

(4) "Application for voter registration" means a voter registration form prescribed by the secretary of state that is completed and signed by an elector, is submitted to the election administrator, and contains voter registration information subject to verification as provided by law.

(5) "Ballot" means a paper ballot counted manually or a paper ballot counted by a machine, such as an optical scan system or other technology that automatically tabulates votes cast by processing the paper ballots.

(6) (a) "Ballot issue" or "issue" means a proposal submitted to the people at an election for their approval or rejection, including but not limited to an initiative, referendum, proposed constitutional amendment, recall question, school levy question, bond issue

A2. Please provide the legal citation for any *significant* changes to election laws or procedures that have been enacted or adopted since the previous Federal election. “Significant” does not include routine or technical changes (such as changes to election district boundaries or polling place changes). However, EAC would like to learn about any new identification requirements for voters or registrants; changes in eligibility for voting or registering; adoption of alternative voting methods; and other changes that you believe represent a significant change in the way your state runs its elections.

2016 Response:

Legislation passed in 2015:

HB 209 allows for agents, designated by people with disabilities, to provide any assistance to the elector throughout the registration and voting process, and specifies that allowance of the use of such an agent by a person with a disability is a reasonable accommodation.

HB 400 allows the use of an electronic ballot for voters with disabilities.

SECTION B: VOTER REGISTRATION

B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)

☒ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

Our system is probably best described as a hybrid, since the county election administrators upload information into it and the information is available immediately, in real time. The servers are housed at the state level and county election officials access the system through an Internet-based Citrix portal.

2016 Response:

We believe that our system is best described as top down, since the information in it is not uploaded from information retained at the local level and compiled at regular intervals.

If your state uses a bottom-up or hybrid system, how often do local jurisdictions transmit registration information to the state list?

☐ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

Immediately, in real time.

2016 Response:

Not applicable.

B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

Normally, counties send out notices to people who have not voted in the last federal general election and if those notices are not returned completed by the electors or are returned undeliverable, the electors are put on the inactive list. This is also true if they do not vote in mail ballot elections and do not respond to a confirmation mailing sent after the mail ballot election. They can reactivate under the procedures of 13-2-222, MCA (see below). UOCAVA voters are not subject to initiation of inactivation procedures until the completion of the process of receiving ballots automatically.

2016 Response:

B3. Please describe your state's process for removing voters from the voter registration rolls (not merely moving them from active to inactive). Please include information regarding notices and confirmations. Are these procedures the same for UOCAVA voters?

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

Our cancellation procedures, including but not limited to those for failing to respond to confirmation mailings and then failing to vote in two consecutive federal general elections after the mailings, are below. For UOCAVA voters, see above under B2. Otherwise, the procedures below apply to them.

13-2-402. Reasons for cancellation. The election administrator shall cancel the registration of an elector if:

- (1) the elector submits a written request for cancellation;
- (2) a certificate of the death of the elector is filed or if the elector is reported to the election administrator as deceased by the department of public health and human services in the department's reports submitted to the county under 50-15-409 or through a newspaper obituary;
- (3) the elector is of unsound mind as established by a court;
- (4) the incarceration of the elector in a penal institution for a felony conviction is legally established;
- (5) a certified copy of a court order directing the cancellation is filed with the election administrator;
- (6) a notice is received from the secretary of state or from another county or state that the elector has registered in

2016 Response:

B4. Can your state's voter registration database (or equivalent) share information electronically with your state's driver's license agency (for example, to match records or trace changes in address)? Can your voter registration database be similarly linked with databases in any other state or Federal agencies? Please describe these links, including any use of database matching to verify voter registration applications.

☐ No Change since 2014

☒ Changed since 2014

2014 Response:

Yes, the state voter registration database shares information electronically with the state driver's license agency. We also have a link to the SSA database. Election officials can verify a person's driver's license number through a link with the Motor Vehicle Division and can verify the person's Social Security number through a portal that is outside the database but which is easily accessed. We also have links to the Department of Public Health and Human Services and to the Department of Corrections.

B5. Please describe how your state uses National Change of Address (NCOA). What has been your state's experience with NCOA?

☐ No Change since 2014

☒ Changed since 2014

2014 Response:

County election officials are wary about the use of the NCOA due to the high mobility of the state's population. Often, people move out of state or into the state in the summer and then return to their place of residence in the fall, so their address on file with the USPS may not be the same as their residence address within a period of a few weeks. A county official who checks the NCOA on September 1 and finds an elector apparently absent from the state may find that by September 15 the same elector is now residing in the state according to updated NCOA files or information supplied by the elector. Counties who consider use of the NCOA are cautioned to follow up with a confirmation mailing to the elector.

B6. Please describe your state's voting eligibility requirements as they relate to individuals with a felony conviction. (For example, are convicted felons allowed to vote while in prison or while on parole or probation? Are voting rights automatically restored or does the individual have to apply for a pardon, certificate of eligibility or other similar certificate? Does an individual whose voting rights have been restored have to produce documentation of his/her status when registering to vote?)

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

Convicted felons are not allowed to vote while incarcerated in a penal institution. Our state Department of Corrections has determined that pre-release centers are not penal institutions. Voting rights are restored once the elector is no longer incarcerated, but such an individual needs to re-register. An individual who is no longer incarcerated would just need to provide identifying information in order to register but an election official might need to resolve the incarceration issue if the elector registers by mail.

2016 Response:

B7. Does your state currently use the Internet in any way to facilitate voter registration? If yes, please describe how your state allows voters to use the Internet in the registration process (e.g., entire registration completed online; completed online but then must be printed, signed, and mailed by voter, etc.).

☐ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

Montana is implementing online pre-voter registration, whereby applicants for voter registration may enter and their registration information online, and the information will upload to the statewide voter registration system. The applicant still must sign a paper copy of the application before they are legally registered. Additionally, Montana has a fillable PDF registration card available online for completing, printing and sending. The state has also increased the functionality of the My Voter Page (MVP) service; people can use the service to find out if they are registered to vote, where they are registered to vote, the location and directions to their polling place, the status of their absentee ballot, and to view a sample ballot. The service is now available as a mobile application. For UOCAVA voters, counties are allowed to accept voter registration applications electronically over the Internet. SECTION C: ELECTION ADMINISTRATION

C1. Please describe how all votes cast at a place other than the voter's precinct of registration are tabulated (for example, please include descriptions of such votes as absentee ballots, mail-in ballots, votes cast at vote centers, provisional ballots, early voting locations, etc.).

a. Are the votes counted centrally or at the precincts?

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

The procedures vary between counties. In some counties, county election officials provide these ballots to the polling place precincts, and in other counties they count such ballots centrally.

2016 Response:

b. If centrally tabulated, are the votes redirected to the appropriate precinct for reporting in the canvass?

☐ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

The ballots that are centrally tabulated are not redirected to the precinct if they are centrally tabulated, since the counties can track and report the totals centrally.

2016 Response:

Ballots that are centrally tabulated are not physically brought back to the precinct if they are centrally tabulated, since the counties can track and report the totals centrally. However, even when ballots are centrally tabulated, the votes are reported by precinct in the canvass.

c. Are the absentee, mail, etc., votes reported separately for each precinct, or are they added to the in-precinct results and reported as just a single number?

☐ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

This varies. Counties are not required to separate out their absentee totals although in practice they often do. Also, not all counties separate out their absentee and other ballots' totals by precinct.

2016 Response:

Although on election night many counties report their absentee totals first, counties, absentee votes are not reported on the canvass separately by precinct -- they are added to the in-precinct canvass results and reported as a single number.

d. How are UOCAVA ballots counted and reported?

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

We are not aware of any counties that count and report their UOCAVA ballots separately. They are added in with other absentee ballots (see above counting and reporting procedures for absentee ballots). This helps to ensure the secrecy of their ballots since in many counties there are few UOCAVA voters.

2016 Response:

C2. Does your state require a reason for voting absentee, or does your state allow no-excuse absentee voting? (If a reason is required, please provide the legal citation.)

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

Montana does not require a reason for voting absentee – we statutorily allow no excuse absentee voting.

2016 Response:

C3. Does your state provide for in-person early voting? If so, how is early voting defined? When early voting is used, are the ballots counted at the precinct or at a central location? How are these votes reported?

☐ **No Change since 2014**

☒ **Changed since 2014**

2014 Response:

Montana does not have early voting as it is often defined. In Montana, in-person absentee ballots submitted before election day are not counted until election day. In Montana, as soon as the ballots are available, an elector can come in and vote an absentee ballot in the county election office. However, the ballot is not counted until election day.

C4. Do any jurisdictions in your state use a vote-by-mail system to replace (and not merely supplement) at-the-precinct voting in any elections?

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

We do not have any jurisdictions that are permitted to use a vote-by-mail system to replace at-the-precinct voting in federal primary or federal general elections, but counties and schools can and often do choose to hold their municipal, special district (such as water and sewer and fire, etc.) and school elections by all mail ballot.

2016 Response:

C6. Does your state count provisional ballots of voters who are registered in different precincts, or are those ballots automatically rejected? Please describe the process used by local election officials in determining whether to count a provisional ballot.

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

HAVA indicates that an "... individual shall be permitted to cast a provisional ballot at that polling place upon the execution of a written affirmation by the individual before an election official at the polling place stating that the individual is-- (A) a registered voter in the jurisdiction in which the individual desires to vote; and (B) eligible to vote in that election."

If an individual casting a provisional ballot (in a jurisdiction in which the elector is apparently not registered) is determined not to be a registered voter in the jurisdiction in which the individual desires to vote, the elector's provisional ballot is not counted unless the reason why the individual is not registered in the jurisdiction is due to administrative error.

The statutory process for handling provisional ballots is below.

13-15-107. Handling and counting provisional and challenged ballots.

(1) To verify eligibility to vote, a provisionally registered elector who casts a provisional ballot has until 5 p.m. on the day after the election to provide valid identification or eligibility information either in person, by facsimile, by electronic means, or by mail postmarked no later than the day after the election.

(2) (a) If a legally registered elector casts a provisional ballot because the elector failed to provide sufficient identification as required pursuant to 13-13-114(1)(a), the election administrator shall compare the signature of the elector or the elector's agent designated pursuant to 13-1-116 on the affirmation required under 13-13-601 to the signature on the elector's voter registration card or the agent's designation form.

(b) If the signatures match, the election administrator shall handle the ballot as provided in subsection (5).

(c) If the signatures do not match and the elector or the elector's agent fails to provide valid identification information by the deadline, the ballot must be rejected and handled as provided in 13-15-108.

(3) A provisional ballot must be counted if the election administrator verifies the elector's identity or eligibility pursuant to rules adopted under 13-13-603. However, if the election administrator cannot verify the elector's identity or eligibility under the rules, the elector's provisional ballot must be rejected and handled as provided in 13-15-108. If the ballot is provisional because of a challenge and the challenge was made on the grounds that the elector is of unsound mind or serving a felony sentence in a penal institution, the elector's provisional ballot must be counted unless the challenger provides documentation by 5 p.m. on the day after

C7. Please describe your state’s laws regarding post-election audits, if any. A post-election audit refers to hand-counting votes on paper records and comparing those counts to the corresponding vote counts originally reported, as a check on the accuracy of election results, and resolving discrepancies using accurate hand counts of the paper records as the benchmark.

If your state has post-election auditing, consider including in your response information such as the unit being audited (e.g., precincts, machines); the sampling method (e.g., fixed percentages); whether there is a specific trigger for the audit; the location of the random selection (e.g., state, county); and the races that can be audited.

☒ **No Change since 2014**

☐ **Changed since 2014**

2014 Response:

Starting with the 2010 primary election, MT counties conduct post election audits of one federal office, one statewide office, one legislative office, and one ballot issue, if applicable to the election. The precincts and contests involved are chosen at the state level after the election, and county audit boards manually count. If a discrepancy results in an expanded audit, additional precincts are audited. The results of the hand audit are definitive for the purposes of the canvass.

C8. Please describe any state requirements for poll worker training.

☐ No Change since 2014

☒ Changed since 2014

2014 Response:

The applicable law is below.

13-4-203. Instruction of judges -- training materials. (1) Before each election, all election judges who do not possess a current certificate of instruction obtained pursuant to 13-1-203(3) must be instructed by the election administrator. In precincts where voting systems are used, instructions must cover both how to operate the voting system and how to manually process any paper ballots.

(2) Chief election judges may be required to attend the training session before each election, as well as a special session that may be held for chief election judges only, even if they possess a current certificate of instruction.

(3) Any individual willing to be appointed as an election judge may attend an instruction session by registering with the election administrator. However, the individual may not be paid for attendance unless the individual is appointed as an election judge.

(4) Each election judge completing a training session under this section must be given a certificate of completion. An individual may not serve as an election judge without a valid certificate obtained under 13-1-203(3) or this section. However, this requirement does not apply to individuals filling vacancies in emergencies.

(5) All election judges shall obtain a certificate of instruction or be recertified before the primary election in even-numbered years.

(6) Notice of the place and time of instruction must be given by the election administrator to the presiding officers of the political parties in the county. State-produced poll working training materials were sent to each county and each county was required, at a minimum, to use the state-produced training or to incorporate the information into their own training.

The election judges shall permit one poll watcher from each political party to be stationed close to the poll lists in a location that does not interfere with the election procedures. At the time when each elector signs the elector's name, one of the election judges shall pronounce the name loud enough to be heard by the poll watchers. A poll watcher who does not understand the pronunciation has the right to request that the judge repeat the name. Poll watchers must also be permitted to observe all of the vote counting procedures of the judges after the closing of the polls and all entries of the results of the elections.

13-13-121. Additional poll watchers. A candidate, a group of candidates, or any group having an interest in the election may request the election administrator to allow additional poll watchers at any precinct. The election administrator shall grant such requests if the number of poll watchers at the polling place will not interfere with the election procedures.
