

U.S. ELECTION ASSISTANCE COMMISSION

2014 Election Administration & Voting Survey

Minnesota

Statutory Overview

In order to better understand state laws governing federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help EAC to better understand the quantitative data relating to the 2014 general election that we are collecting from all U.S. states and territories.

EAC understands that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.

Please provide your state's legal citation for the responses to these questions (where applicable). Prior to beginning the Statutory Overview, please ensure that "track changes" is turned on; this will provide a record of all changes that are made including insertions, deletions, and formatting changes. To turn on track changes hold down "Control" and "Shift" and "E" at the same time. For additional assistance in working with "track changes" please contact your Technical Assistance point of contact at ICF International.

Please answer each question to the best of your ability. If terms are ambiguous or not relevant, please explain why. If a question is not applicable to your state, please explain why. If a definition or term lacks statutory reference but is widely understood in practice, please explain. If election procedures vary at the local level within your state, please explain to the best of your ability.

We have provided you with your answers to the 2012 Statutory Overview. If there has not been a change in your State's laws or legal citation in the response to a question, please mark No Change Since 2012 with an "X" as shown below:

X No Change Since 2012

If the response has changed since 2012, please mark Changed Since 2012 with an "X" and modify the answer as needed using track changes. If you need to replace the entire answer, please delete the 2012 response and record your 2012 response between the red bracketed text lines, as described below.

X Changed Since 2012

Please answer each question to the best of your ability. If terms are ambiguous or not relevant, please explain why. If a question is not applicable to your state, please explain why. If a definition or term lacks statutory reference but is widely understood in practice, please explain. If election procedures vary at the local level within your state, please explain to the best of your ability.

If state laws are currently enjoined or otherwise blocked from enforcement by a state or federal court, or executive decision, please specify.

Please put your responses between the red, bracketed text lines. This will help us extract your answers into our central database.

SECTION A: GENERAL

A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.

a. Over-vote

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin definition (a) below this line.]

M.R. 8220.0250 Subp. 21. Overvote. "Overvote" means a condition of a voted ballot in which more votes have been cast for an issue or office than the number of votes that the voter is lawfully entitled to cast.

[End definition (a) above this line.]

b. Under-vote

h. Active Voter

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin definition (h) below this line.]

The voter record of an individual who completed a voter registration application which has been input into the statewide registration system. An “active” voter record is printed on the polling place rosters and public information lists. An “active” record may be “challenged” in which case the election judge must ask the challenged individual sufficient questions to test that individual’s residence and right to vote. An “active” record may be an “incomplete registration” of a 1st time voter in the state who registered by mail and the county auditor is unable to verify the number provided on the application and for which the roster challenge notes the voter must “Show ID” before being allowed to vote. (Chapter 201; 204C.12)

[End definition (h) above this line.]

i. Inactive Voter

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin definition (i) below this line.]

M.S. 201.171 “Inactive” registrants must register before voting in any election.

A voter record may be made “Inactive” if:

- a. after the close of the calendar year, the secretary of state shall determine if any registrants have not voted during the preceding four years. (M.S. 201.171)
- b. If a notice mailed at least 60 days after the return of the first nonforwardable mailing is also returned by the postal service, the county auditor shall change the registrant's status to "inactive" in the statewide registration system. (M.S. 201.12)
- c. If a voter makes a written request for removal of the voter's record (M.S. 201.13 Sub. 4)

Inactive also includes any found duplicate records, with one of the records remaining "active" and the duplicate made inactive.

SECTION B: VOTER REGISTRATION

B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)

[End response to above clarification question to B1 above this line.]

B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above question (B2) below this line.]

M.S. 201.171 After the close of the calendar year, the secretary of state shall determine if any registrants have not voted during the preceding four years and change the status of those registrants to "inactive". Although not counted in an election, late or rejected absentee or mail ballots must be considered a vote for the purpose of continuing registration under this section, but is not considered voting history for the purpose of public information lists available under section 201.091, subdivision 4.

M.S. 201.171 “Inactive” registrants must register by completing a voter registration application before voting in any election.

An FPCA or FWAB submitted by UOCAVA voters that are eligible to be registered (i.e. not permanently/indefinitely overseas) is used to register the individual in the statewide registration system. Voter history is posted to UOCAVA voters if they are also an active registered voter, so a UOCAVA voter would not be made “inactive” if they’ve voted during the preceding four years.

[End response to above question (B2) above this line.]

B3. Please describe your state’s process for removing voters from the voter registration rolls (not merely moving them from active to inactive). Please include information regarding notices and confirmations. Are these procedures the same for UOCAVA voters?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B3) below this line.]

What is your definition of “removed”? No records are ever deleted. For Minnesota, making them inactive does remove them from the “rolls” as far as being on the polling place rosters or public information lists.

As a non-NVRA state, MN changes voters from active to inactive as noted in answer B2.

[End response to above question (B3) above this line.]

B4. Can your state’s voter registration database (or equivalent) share information electronically with your state’s driver’s license agency (for example, to match records or trace changes in address)? Can your voter registration database be similarly linked with databases in any other state or federal agencies? Please describe these links, including any use of database matching to verify voter registration applications.

 No Change Since 2012 X Changed Since 2012

2012 Response:

[Begin response to above question (B4) below this line.]

Yes. Information is shared electronically between VR and Driver’s License on a nightly basis.

- VR data of the day’s activity is sent to Driver Vehicle Services (DVS). DVS compares with DL data and returns a file to OSS containing exact matches and potential*

matches. Exact matches are updated as verified, potential matches are queued for review by county auditors to determine if a match.

- Online VR data of individual submitting online application containing a driver's license number that could not be matched in the statewide registration system is sent to Driver Vehicle Services (DVS). DVS compares with Name, DOB and DL/State ID # and returns a file to OSS with matches that passed or failed. Online VR applications for passed matches are queued for review by county auditors. Individuals with online VR applications where a match failed receive an email notification.*
- Records of individuals completing a DL application who also indicate they wish to be registered to vote are forwarded by DVS to OSS and queued to counties for their review and processing.*
- Unverified records containing a SSN are forwarded through DVS to SSA. Returned matches are updated as verified, unmatched records are queued for county auditor review.*
- Data for individual's submitting an online VR applications containing only the last 4 SSN is sent to SSA. SSA compares Name, DOB and SNN # and returns a file to OSS with matches that passed or failed. Online VR applications for passed matches are queued for review by county auditors. Individuals with online VR applications where a match failed receive an email notification.*
- Court information is shared electronically on a daily basis. Court events are compared to voter database and returned matches are queued for review by county auditors to add or removed challenges to the voter record.*
- MN Dept of Health death records are share electronically on a monthly basis. Death records are compared to voter database and returned matches are queued for review by county auditors to mark voter records as deceased.*

B5. Please describe how your state uses National Change of Address (NCOA). What has been your state's experience with NCOA?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B5) below this line.]

OSS compares NCOA data with voter database monthly. If NCOA indicates a move within the state, the voter's address is updated and notice given allowing a 21-day reversal period. If NCOA indicates a move out of the state, the voter record is flagged to be inactivated following a notice and 21-day period for voter to reply to retain registration status.

If any nonforwardable mailing from an election official is returned as undeliverable but with no forwarding address, a challenge is applied to the voter record. Upon return of a second mailing at least 60 days after the return of the first mailing, the registrant's status is made inactive.

[End response to above question (B5) above this line.]

B6. Please describe your state's voting eligibility requirements as they relate to individuals with a felony conviction. (For example, are convicted felons allowed to vote while in prison or while on parole or probation? Are voting rights automatically restored or does the individual have to apply for a pardon, certificate of eligibility or other similar certificate? Does an individual whose voting rights have been restored have to produce documentation of his/her status when registering to vote?)

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B6) below this line.]

To be eligible to vote if convicted of a felony, the individual's sentence must have expired (been completed) or have been discharged from their sentence. Voting rights are automatically restored upon the expiration of the sentence. They simply register and vote.

[End response to above question (B6) above this line.]

B7. Does your state currently use the Internet in any way to facilitate voter registration? If yes, please describe how your state allows voters to use the Internet in the registration process (e.g., entire registration completed online; completed online but then must be printed, signed, and mailed by voter, etc.).

 No Change Since 2012 X Changed Since 2012

2012 Response:

[Begin response to above question (B7) below this line.]

Voter registration application form is available online. Information can be input into the form online, but it must be printed, signed and returned by the individual to county auditor or secretary of state.

Individuals may submit an online application if they provide an email address and provide either a MN-issued driver's license number, MN-issued state identification card number, or the last 4 digits of their social security number. Name, DOB and DL/State ID # must match existing information in a government database associated with the applicant's driver's license, state identification card number, or Social Security number before the application may be transmitted electronically to the county auditor for processing.

counts to the corresponding vote counts originally reported, as a check on the accuracy of election results, and resolving discrepancies using accurate hand counts of the paper records as the benchmark.

If your state has post-election auditing, consider including in your response information such as the unit being audited (e.g., precincts, machines); the sampling method (e.g., fixed percentages); whether there is a specific trigger for the audit; the location of the random selection (e.g., state, county); and the races that can be audited.

 No Change Since 2012 X Changed Since 2012

2012 Response:

[Begin response to above question (C7) below this line.]

A post election review of voting systems will take place for specific precincts after every state general election. At the canvass of the state primary, the county canvassing board in each county must set the date, time, and place for the post election review of the state general election. The county auditor must notify the OSS when these selections have been made. The votes cast for President or Governor; United States Senator and United States Representative must be reviewed for the precincts selected by lot by the county canvassing board. A review of an office is not required if it is subject to a recount. The county auditor is the post election review official unless the auditor designates the municipal clerk as the review official within 24 hours after the canvass of the state general election. The post election review official may conduct post election review of the votes cast for additional offices.

Number of precincts to be selected:

- *The county canvassing board of a county with fewer than 50,000 registered voters must conduct a review of a total of at least two precincts.*
- *The county canvassing board of a county with between 50,000 and 100,000 registered voters must conduct a review of at least three precincts.*
- *The county canvassing board of a county with more than 100,000 registered voters must conduct a review of at least four precincts or 3% of total number of precincts in the county, whichever is greater.*
- *One precinct selected in each county must have had more than 150 votes cast at the general election.*
- *The county auditor must notify the OSS of the precincts that have been chosen for review, the time and place of the review as soon as the decision is made.*
- *If the selection of precincts has not resulted in the selection of at least four precincts in each congressional district, the OSS may require counties to select additional precincts by lot.*

The review is a comparison of a hand tally of the voted ballots cast by eligible voters in the precinct with the reported results certified by the county canvassing board. The comparison of the results from the voting system and the hand count must be accurate to within one-half

of one percent or two votes in a precinct where 400 or fewer voters cast ballots. This does not include votes marked outside the vote targets on the ballot or votes marked by an unreadable manual marking device. The review of additional precincts is required if one of the reviewed precincts reveals a difference greater than one-half of one percent, or greater than two votes in a precinct where 400 or fewer voters cast ballots.

2012 Response:

[Begin response to above question (c) below this line.]

The absentee application contains a MN Driver's License or state ID #, or the last 4 digits of the voter's social security number, or indication they have none of these numbers. The back of the absentee return envelope contains space for the same number. If the identification number on the envelope does not match that on the application, the election judges must compare the signature on both to determine that the ballots were returned by the same person to whom they were transmitted.

Election Day Registrants have multiple methods of documentation they can provide to prove residence.

d. casting a ballot under UOCAVA;

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (d) below this line.]

The FPCA to obtain a ballot contains passport #, MN Driver's License or state ID #, or the last 4 digits of the voter's social security number or oath attesting to truthfulness of application. The back of the UOCAVA return envelope contains space for same number as was placed on the FPCA or oath attesting to truthfulness of contents of certificate. Election judges examine FPCA and certificate on returned ballot envelope. If the identification number on the envelope does not match that on the application, election judges must make reasonable effort to satisfy themselves through other information that the ballots were returned by the same person to whom the ballots were transmitted.

D3. Please describe your state's laws regarding access to the polling place for election observers. Election observers are people allowed inside the polling place who are not poll workers, election officials or voters. If decisions on access to observers are left to local jurisdictions, please explain.

204C.06 CONDUCT IN AND NEAR POLLING PLACES.

*Subd. 8. **Access for news media.** A news media representative may enter a polling place during voting hours only to observe the voting process. A media representative must present photo identification to the head election judge upon arrival at the polling place, along with either a recognized media credential or written statement from a local election official attesting to the media representative's credentials. A media representative must not:*

- (1) approach within six feet of a voter;*
- (2) converse with a voter while in the polling place;*
- (3) make a list of persons voting or not voting; or*
- (4) interfere with the voting process.*

204C.07 CHALLENGERS.

*Subdivision 1. **Partisan elections.** At an election to fill partisan offices, the chair of an authorized committee of each major political party may appoint by written certificate voters from that political party to act as challengers of voters at the polling place for each precinct. Only one challenger from each major political party for each precinct shall be allowed to remain in the polling place at one time.*

*Subd. 2. **Nonpartisan elections.** At an election to fill nonpartisan offices, each nonpartisan candidate may appoint by written certificate voters to act as challengers of voters at the polling place for each precinct. Only one challenger for each candidate shall be allowed to remain in the polling place for each precinct at one time.*

*Subd. 3. **Elections on a question.** At an election where a question is to be voted upon, the mayor of a city, or the school board of a school district, or the board of supervisors*

of a town, upon receiving a written petition signed by at least 25 eligible voters, shall appoint by written certificate one voter for each precinct in the municipality, or school district if applicable, to act as a challenger of voters in the polling place for that precinct.

*Subd. 3a. **Residence requirement.** A challenger must be a resident of this state.*

*Subd. 4. **Restrictions on conduct.** An election judge may not be appointed as a challenger. The election judges shall permit challengers appointed pursuant to this section to be present in the polling place during the hours of voting and to remain there until the votes are counted and the results declared. No challenger shall handle or inspect registration cards, files, or lists. Challengers shall not prepare in any manner any list of individuals who have or have not voted. They shall not attempt to influence voting in any manner. They shall not converse with a voter except to determine, in the presence of an election judge, whether the voter is eligible to vote in the precinct.*

*Subd. 5. **Prohibited challenges.** Challengers and the political parties that appointed them must not compile lists of voters to challenge on the basis of mail sent by a political party that was returned as undeliverable or if receipt by the intended recipient was not acknowledged in the case of registered mail. This subdivision applies to any local, state, or national affiliate of a political party that has appointed challengers, as well as any subcontractors, vendors, or other individuals acting as agents on behalf of a political party.*

A violation of this subdivision is a gross misdemeanor.

* The information collection associated with the Election Administration and Voting Survey is required for the EAC to meet its statutory requirements under the Help America Vote Act (HAVA) of 2002 (42 U.S.C. 15301), the National Voter Registration Act (NVRA) (42 U.S.C. 1973gg-1 et seq.), and the Uniformed and Overseas Citizens Absentee Voters Act (UOCAVA) (42 U.S.C. 1973ff-1). Respondent's obligation to reply to this information collection is mandatory as required under NVRA (42 U.S.C. 1973gg-1 et seq.) and UOCAVA (42 U.S.C. 1973ff-1). This part of the information collection is being requested to help the EAC to better understand state laws governing federal elections. Respondents include the fifty states, the District of Columbia, and the U.S. Territories. This information will be made publicly available on the EAC website (www.eac.gov). According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is OMB Control No. 3265-0006 (expires 04/30/2017). The time required to complete this information collection is estimated to average 59 hours per state response. This estimate includes the time for reviewing the instructions, gathering information, and completing the form. Comments regarding this burden estimate should be sent the U.S. Election Assistance Commission – 2014 Election Administration and Voting Survey, 1335 East West Highway, Suite 4300, Silver Spring MD, 20910.
