Except as provided in COMAR 21.05.02.10, Proposals received after the due date and time listed in this section will not be considered.

Proposals may be modified or withdrawn by written notice received by the Procurement Officer before the time and date set forth in this section for receipt of Proposals.

Proposals may not be submitted by e-mail or facsimile. Proposals will not be opened publicly.

Vendors not responding to this solicitation are requested to submit the “Notice to Vendors” form, which includes company information and the reason for not responding (e.g., too busy, cannot meet mandatory requirements). This form is located in the RFP immediately following the Title Page (page ii).

1.12 Multiple or Alternate Proposals

Multiple and/or alternate Proposals will not be accepted.

1.13 Economy of Preparation

Proposals should be prepared simply and economically and provide a straightforward and concise description of the Offeror’s Proposal to meet the requirements of this RFP.

1.14 Public Information Act Notice

An Offeror should give specific attention to the clear identification of those portions of its Proposal that it considers confidential and/or proprietary commercial information or trade secrets, and provide justification why such materials, upon request, should not be disclosed by the State under the Public Information Act, Md. Code Ann., State
Government Article, Title 10, Subtitle 6 (see RFP Section 4.4.2.2). This confidential and/or proprietary information should be identified by page and section number and placed after the Title Page and before the Table of Contents in the Technical Proposal and if applicable, separately in the Financial Proposal.

Offerors are advised that, upon request for this information from a third party, the Procurement Officer is required to make an independent determination whether the information must be disclosed.

1.15 Award Basis

The Contract shall be awarded to the responsible Offeror submitting the Proposal that has been determined to be the most advantageous to the State, considering price and evaluation factors set forth in this RFP (see COMAR 21.05.03.03F), for providing the goods and services as specified in this RFP. See RFP Section 5 for further award information.

1.16 Oral Presentation

Offerors may be required to make oral presentations to State representatives. Offerors must confirm in writing any substantive oral clarification of, or change in, their Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror’s Proposal and are binding if the Contract is awarded. The Procurement Officer will notify Offerors of the time and place of oral presentations.

1.17 Duration of Proposal

Proposals submitted in response to this RFP are irrevocable for 180 days following the later of the closing date for submission of proposals, the closing date for best and final offers (BAFOs) if requested, or the date any protest concerning this RFP is finally resolved. This period may be extended at the Procurement Officer’s request only with the Offeror’s written agreement.

1.18 Revisions to the RFP

If it becomes necessary to revise this RFP before the due date for Proposals, the Agency shall endeavor to provide addenda to all prospective Offerors that were sent this RFP or which are otherwise known by the Procurement Officer to have obtained this RFP. In addition, addenda to the RFP will be posted on eMM. It remains the responsibility of all prospective Offerors to check all applicable websites for any addenda issued prior to the submission of Proposals. Addenda made after the due date for Proposals will be sent only to those Offerors that submitted a timely Proposal and that remain under award consideration as of the issuance date of the addenda.

Acknowledgment of the receipt of all addenda to this RFP issued before the Proposal due date shall be included in the Transmittal Letter accompanying the Offeror’s Technical Proposal. Acknowledgement of the receipt of addenda to the RFP issued after the Proposal due date shall be in the manner specified in the addendum notice. Failure to acknowledge receipt of an addendum does not relieve the Offeror from complying with the terms, additions, deletions, or corrections set forth in the addendum.

1.19 Cancellations

The State reserves the right to cancel this RFP, accept or reject any and all Proposals, in whole or in part, received in response to this RFP, to waive or permit the cure of minor irregularities, and to conduct discussions with all qualified or potentially qualified Offerors in any manner necessary to serve the best interests of the State. The State also reserves the right, in its sole discretion, to award a Contract based upon the written Proposals received without discussions or negotiations.

1.20 Incurred Expenses

The State will not be responsible for any costs incurred by any Offeror in preparing and submitting a Proposal, in making an oral presentation, in providing a demonstration, or in performing any other activities related to submitting a Proposal in response to this solicitation.
1.21 Protest/Disputes

Any protest or dispute related, respectively, to this solicitation or the resulting Contract shall be subject to the provisions of COMAR 21.10 (Administrative and Civil Remedies).

1.22 Offeror Responsibilities

The selected Offeror shall be responsible for all products and services required by this RFP. All subcontractors must be identified and a complete description of their role relative to the Proposal must be included in the Offeror’s Proposal. If applicable, subcontractors utilized in meeting the established MBE or VSBE participation goal(s) for this solicitation shall be identified as provided in the appropriate Attachment(s) of this RFP (see RFP Section 1.33 and Section 1.41).

If an Offeror that seeks to perform or provide the services required by this RFP is the subsidiary of another entity, all information submitted by the Offeror, including but not limited to references, financial reports, or experience and documentation (e.g. insurance policies, bonds, letters of credit) used to meet minimum qualifications, if any, shall pertain exclusively to the Offeror, unless the parent organization will guarantee the performance of the subsidiary. If applicable, the Offeror’s Proposal shall contain an explicit statement that the parent organization will guarantee the performance of the subsidiary.

A parental guarantee of the performance of the Offeror under this section will not automatically result in crediting the Offeror with the experience and/or qualifications of the parent under any evaluation criteria pertaining to the Offeror’s experience and qualifications. Instead, the Offeror will be evaluated on the extent to which the State determines that the experience and qualification of the parent are transferred to and shared with the Offeror, the parent is directly involved in the performance of the Contract, and the value of the parent’s participation as determined by the State.

1.23 Substitution of Personnel

A. Continuous Performance of Key Personnel

Unless substitution is approved per paragraphs 1.23 B-D, key personnel shall be the same personnel proposed in the Contractor’s Technical Proposal, which will be incorporated into the Contract by reference. Such identified key personnel shall perform continuously for the duration of the Contract, or such lesser duration as specified in the Technical Proposal. Key personnel may not be removed by the Contractor from working under this Contract, as described in the RFP or the Contractor’s Technical Proposal, without the prior written approval of the Contract Manager.

B. Definitions

For the purposes of this section, the following definitions apply:

Extraordinary Personal Circumstance – means any circumstance in an individual’s personal life that reasonably requires immediate and continuous attention for more than fifteen (15) days and that precludes the individual from performing his/her job duties under this Contract. Examples of such circumstances may include, but are not limited to: a sudden leave of absence to care for a family member who is injured, sick, or incapacitated; the death of a family member, including the need to attend to the estate or other affairs of the deceased or his/her dependents; substantial damage to, or destruction of, the individual’s home that causes a major disruption in the individual’s normal living circumstances; criminal or civil proceedings against the individual or a family member; jury duty; and military service call-up.

Incapacitating – means any health circumstance that substantially impairs the ability of an individual to perform the job duties described for that individual’s position in the RFP or the Contractor’s Technical Proposal.

Sudden – means when the Contractor has less than thirty (30) days prior notice of a circumstance beyond its control that will require the replacement of any key personnel working under the Contract.

C. Key Personnel General Substitution Provisions
The following provisions apply to all of the circumstances of staff substitution described in paragraph 1.23 D.

1. The Contractor shall demonstrate to the Contract Manager’s satisfaction that the proposed substitute key personnel have qualifications at least equal to those of the key personnel for whom the replacement is requested.

2. The Contractor shall provide the Contract Manager with a substitution request that shall include:
   - A detailed explanation of the reason(s) for the substitution request;
   - The resume of the proposed substitute personnel, signed by the substituting individual and his/her formal supervisor;
   - The official resume of the current personnel for comparison purposes; and
   - Any evidence of any required credentials.

3. The Contract Manager may request additional information concerning the proposed substitution. In addition, the Contract Manager and/or other appropriate State personnel involved with the Contract may interview the proposed substitute personnel prior to deciding whether to approve the substitution request.

4. The Contract Manager will notify the Contractor in writing of: (i) the acceptance or denial, or (ii) contingent or temporary approval for a specified time limit, of the requested substitution. The Contract Manager will not unreasonably withhold approval of a requested key personnel replacement.

D. Replacement Circumstances

1. Voluntary Key Personnel Replacement

   To voluntarily replace any key personnel, the Contractor shall submit a substitution request as described in paragraph C of this section to the Contract Manager at least fifteen (15) days prior to the intended date of change. Except in a circumstance described in paragraph 1.23 D.2, a substitution may not occur unless and until the Contract Manager approves the substitution in writing.

2. Key Personnel Replacement Due to Vacancy

   The Contractor shall replace key personnel whenever a vacancy occurs due to the sudden termination, resignation, leave of absence due to an Extraordinary Personal Circumstance, incapacitating injury, illness or physical condition, or death of such personnel (a termination or resignation with thirty (30) days or more advance notice shall be treated as a Voluntary Key Personnel Replacement as per Section D.1 of this section).

   Under any of the circumstances set forth in this paragraph (1.23 D.2), the Contractor shall identify a suitable replacement and provide the same information or items required under paragraph 1.23 C within fifteen (15) days of the actual vacancy occurrence or from when the Contractor first knew or should have known that the vacancy would be occurring, whichever is earlier.

3. Key Personnel Replacement Due to an Indeterminate Absence

   If any key personnel has been absent from his/her job for a period of ten (10) days due to injury, illness, or other physical condition, leave of absence under a family medical leave, or an Extraordinary Personal Circumstance and it is not known or reasonably anticipated that the individual will be returning to work within the next twenty (20) days to fully resume all job duties, before the 25th day of continuous absence, the Contractor shall identify a suitable replacement and provide the same information or items to the Contract Manager as required under paragraph 1.23 C.

   However, if this person is available to return to work and fully perform all job duties before a replacement has been authorized by the Contract Manager, at the option and sole discretion of the Contract Manager, the original personnel may continue to work under the Contract, or the replacement personnel will be authorized to replace the original personnel, notwithstanding the original personnel’s ability to return.
4. Directed Personnel Replacement

a. The Contract Manager may direct the Contractor to replace any personnel who are perceived as being unqualified, non-productive, unable to fully perform the job duties due to full or partial Incapacity or Extraordinary Personal Circumstance, disruptive, or known, or reasonably believed, to have committed a major infraction(s) of law, agency, or Contract requirements. Normally, a directed personnel replacement will occur only after prior notification of problems with requested remediation, as described in paragraph 4.b. If after such remediation the Contract Manager determines that the personnel performance has not improved to the level necessary to continue under the Contract, if at all possible at least fifteen (15) days notification of a directed replacement will be provided. However, if the Contract Manager deems it necessary and in the State’s best interests to remove the personnel with less than fifteen (15) days’ notice, the Contract Manager can direct the removal in a timeframe of less than fifteen (15) days, including immediate removal.

In circumstances of directed removal, the Contractor shall, in accordance with paragraph 1.23 C, provide a suitable replacement for approval within fifteen (15) days of the notification of the need for removal, or the actual removal, whichever occurs first.

b. If deemed appropriate in the discretion of the Contract Manager, the Contract Manager shall give written notice of any personnel performance issues to the Contractor, describing the problem and delineating the remediation requirement(s). The Contractor shall provide a written Remediation Plan within ten (10) days of the date of the notice and shall implement the Remediation Plan immediately upon written acceptance by the Contract Manager. If the Contract Manager rejects the Remediation Plan, the Contractor shall revise and resubmit the plan to the Contract Manager within five (5) days, or in the timeframe set forth by the Contract Manager in writing.

Should performance issues persist despite the approved Remediation Plan, the Contract Manager will give written notice of the continuing performance issues and either request a new Remediation Plan within a specified time limit or direct the substitution of personnel whose performance is at issue with a qualified substitute, including requiring the immediate removal of the key personnel at issue.

Replacement or substitution of personnel under this section shall be in addition to, and not in lieu of, the State’s remedies under the Contract or which otherwise may be available at law or in equity.

1.24 Mandatory Contractual Terms

By submitting a Proposal in response to this RFP, an Offeror, if selected for award, shall be deemed to have accepted the terms and conditions of this RFP and the Contract, attached herein as Attachment A. Any exceptions to this RFP or the Contract shall be clearly identified in the Executive Summary (See RFP Section 4.4.2.4) of the Technical Proposal. A Proposal that takes exception to any of these terms may be rejected.

1.25 Proposal Affidavit

A Proposal submitted by an Offeror must be accompanied by a completed Proposal Affidavit. A copy of this Affidavit is included as Attachment B of this RFP.

1.26 Contract Affidavit

All Offerors are advised that if a Contract is awarded as a result of this solicitation, the successful Offeror will be required to complete a Contract Affidavit. A copy of this Affidavit is included as Attachment C of this RFP. This Affidavit must be provided within five (5) Business Days of notification of proposed Contract award. This Contract Affidavit will also be required to be completed by the Contractor prior to any Contract renewals, including the exercise of any options or modifications that may extend the Contract term.
### 1.27 Compliance with Laws/Arrearages

By submitting a Proposal in response to this RFP, the Offeror, if selected for award, agrees that it will comply with all Federal, State, and local laws applicable to its activities and obligations under the Contract.

By submitting a response to this solicitation, each Offeror represents that it is not in arrears in the payment of any obligations due and owing the State, including the payment of taxes and employee benefits, and that it shall not become so in arrears during the term of the Contract if selected for Contract award.

### 1.28 Verification of Registration and Tax Payment

Before a business entity can do business in the State it must be registered with the State Department of Assessments and Taxation (SDAT). SDAT is located at State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. The SDAT website is [http://www.dat.state.md.us/sdatweb/](http://www.dat.state.md.us/sdatweb/).

It is strongly recommended that any potential Offeror complete registration prior to the due date for receipt of Proposals. An Offeror’s failure to complete registration with SDAT may disqualify an otherwise successful Offeror from final consideration and recommendation for Contract award.

### 1.29 False Statements

Offerors are advised that Md. Code Ann., State Finance and Procurement Article, § 11-205.1 provides as follows:

1.29.1 In connection with a procurement contract a person may not willfully:

- (a) Falsify, conceal, or suppress a material fact by any scheme or device;
- (b) Make a false or fraudulent statement or representation of a material fact; or
- (c) Use a false writing or document that contains a false or fraudulent statement or entry of a material fact.

1.29.2. A person may not aid or conspire with another person to commit an act under subsection (1) of this section.

1.29.3 A person who violates any provision of this section is guilty of a felony and on conviction is subject to a fine not exceeding $20,000 or imprisonment not exceeding five years or both.

### 1.30 Payments by Electronic Funds Transfer

By submitting a response to this solicitation, the Offeror agrees to accept payments by electronic funds transfer (EFT) unless the State Comptroller’s Office grants an exemption. Payment by EFT is mandatory for contracts exceeding $100,000. The selected Offeror shall register using the COT/GAD X-10 Vendor Electronic Funds (EFT) Registration Request Form at: [http://comptroller.marylandtaxes.com/Government_Services/State_Accounting_Information/Static_Files/APM/gadx-10.pdf](http://comptroller.marylandtaxes.com/Government_Services/State_Accounting_Information/Static_Files/APM/gadx-10.pdf). Any request for exemption must be submitted to the State Comptroller’s Office for approval at the address specified on the COT/GAD X-10 form, must include the business identification information as stated on the form, and must include the reason for the exemption.

### 1.31 Prompt Payment Policy

This procurement and the Contract to be awarded pursuant to this solicitation are subject to the Prompt Payment Policy Directive issued by the Governor’s Office of Minority Affairs (GOMA) and dated August 1, 2008. Promulgated pursuant to Md. Code Ann., State Finance and Procurement Article, §§ 11-201, 13-205(a), and Title 14, Subtitle 3, and COMAR 21.01.01.03 and 21.11.03.01, the Directive seeks to ensure the prompt payment of all subcontractors on non-construction procurement contracts. The Contractor must comply with the prompt payment requirements outlined in the Contract, Section 31 “Prompt Payment” (see Attachment A). Additional information is available on GOMA’s website at: [http://goma.maryland.gov/Legislation%20Docs/PROMPTPAYMENTFAQs_000.pdf](http://goma.maryland.gov/Legislation%20Docs/PROMPTPAYMENTFAQs_000.pdf).
1.32 Electronic Procurements Authorized

A. Under COMAR 21.03.05, unless otherwise prohibited by law, the Agency may conduct procurement transactions by electronic means, including the solicitation, bidding, award, execution, and administration of a contract, as provided in Md. Code Ann., Maryland Uniform Electronic Transactions Act, Commercial Law Article, Title 21.

B. Participation in the solicitation process on a procurement contract for which electronic means has been authorized shall constitute consent by the Offeror to conduct by electronic means all elements of the procurement of that Contract which are specifically authorized under the solicitation or the Contract.

C. “Electronic means” refers to exchanges or communications using electronic, digital, magnetic, wireless, optical, electromagnetic, or other means of electronically conducting transactions. “Electronic means” includes facsimile, e-mail, internet-based communications, electronic funds transfer, specific electronic bidding platforms (e.g., https://emaryland.buyspeed.com/bso/), and electronic data interchange.

D. In addition to specific electronic transactions specifically authorized in other sections of this solicitation (e.g., RFP Section 1.30) and subject to the exclusions noted in RFP Section 1.32 E, the following transactions are authorized to be conducted by electronic means on the terms described:

1. The Procurement Officer may conduct the procurement using eMM, e-mail, or facsimile to issue:
   (a) the solicitation (e.g., the IFB/RFP);
   (b) any amendments;
   (c) pre-Proposal conference documents;
   (d) questions and responses;
   (e) communications regarding the solicitation or Proposal to any Offeror or potential Offeror;

   (g) the Procurement Officer’s decision on any Bid protest or Contract claim.

2. A Offeror or potential Offeror may use e-mail or facsimile to:
   (a) ask questions regarding the solicitation;
   (b) reply to any material received from the Procurement Officer by electronic means that includes a Procurement Officer’s request or direction to reply by e-mail or facsimile, but only on the terms specifically approved and directed by the Procurement Officer;
   (c) submit a "No Proposal Response" to the solicitation.

3. The Procurement Officer, the Contract Manager, and the Contractor may conduct day-to-day Contract administration, except as outlined in Section 1.32 E of this subsection utilizing e-mail, facsimile, or other electronic means if authorized by the Procurement Officer or Contract Manager.

E. The following transactions related to this procurement and any Contract awarded pursuant to it are not authorized to be conducted by electronic means:
   1. Submission of initial Proposals;
   2. Filing of Bid Protests;
   3. Filing of Contract Claims;
   4. Submission of documents determined by The Agency to require original signatures (e.g., Contract execution, Contract modifications, etc.); or
   5. Any transaction, submission, or communication where the Procurement Officer has specifically directed that a response from the Contractor or Offeror be provided in writing or hard copy.

F. Any facsimile or e-mail transmission is only authorized to the facsimile numbers or e-mail addresses for the identified person as provided in the solicitation, the Contract, or in the direction from the Procurement Officer or Contract Manager.
1.33 Minority Business Enterprise Goals

This solicitation does not include a Minority Business Enterprise (MBE) subcontractor participation goal. However, Offerors are encouraged to submit their own MBE participation plan which will be given credit towards evaluation of the Economic Benefit Factor.

1.34 Living Wage Requirements

Maryland law requires that contractors meeting certain conditions pay a living wage to covered employees on State service contracts over $100,000. Maryland Code, State Finance and Procurement, § 18-101 et al. The Commissioner of Labor and Industry at The Agency of Labor, Licensing and Regulation requires that a contractor subject to the Living Wage law submit payroll records for covered employees and a signed statement indicating that it paid a living wage to covered employees; or receive a waiver from Living Wage reporting requirements. See COMAR 21.11.10.05.

Additional information regarding the State’s living wage requirement is contained in Attachment G. Bidders/Offerors must complete and submit the Maryland Living Wage Requirements Affidavit of Agreement (Attachment G-1) with their Proposal. If an Offeror fails to complete and submit the required documentation, the State may determine an Offeror to be not responsible under State law.

If subject to the Living Wage law, Contractor agrees that it will abide by all Living Wage law requirements, including but not limited to reporting requirements in COMAR 21.11.10.05. Contractor understands that failure of Contractor to provide such documents is a material breach of the terms and conditions and may result in Contract termination, disqualification by the State from participating in State contracts, and other sanctions.

Contractors and subcontractors subject to the Living Wage Law shall pay each covered employee at least the minimum amount set by law for the applicable Tier area. The specific living wage rate is determined by whether a majority of services take place in a Tier 1 Area or Tier 2 Area of the State. The Tier 1 Area includes Montgomery, Prince George’s, Howard, Anne Arundel and Baltimore Counties, and Baltimore City. The Tier 2 Area includes any county in the State not included in the Tier 1 Area. In the event that the employees who perform the services are not located in the State, the head of the unit responsible for a State Contract pursuant to §18-102(d) of the State Finance and Procurement Article shall assign the tier based upon where the recipients of the services are located.

The Contract resulting from this solicitation will be determined to be a Tier 1 Contract or a Tier 2 Contract depending on the location(s) from which the Contractor provides 50% or more of the services. The Offeror must identify in its Proposal the location(s) from which services will be provided, including the location(s) from which 50% or more of the Contract services will be provided.

- If the Contractor provides 50% or more of the services from a location(s) in a Tier 1 jurisdiction(s) the Contract will be a Tier 1 Contract.
- If the Contractor provides 50% or more of the services from a location(s) in a Tier 2 jurisdiction(s), the Contract will be a Tier 2 Contract.
- If the Contractor provides more than 50% of the services from an out-of-State location, the State agency determines the wage tier based on where the majority of the service recipients are located. In this circumstance, this Contract will be determined to be a Tier one (1) Contract.

Information pertaining to reporting obligations may be found by going to the Maryland Department of Labor, Licensing and Regulation (DLLR) website http://www.dllr.state.md.us/labor/prev/livingwage.shtml.

NOTE: Whereas the Living Wage may change annually, the Contract price may not be changed because of a Living Wage change.

1.35 Federal Funding Acknowledgement

This Contract does not contain Federal funds.

1.36 Conflict of Interest Affidavit and Disclosure

Offerors shall complete and sign the Conflict of Interest Affidavit and Disclosure (Attachment I) and submit it with their Proposal. All Offerors are advised that if a Contract is awarded as a result of this solicitation, the successful
Contractor’s personnel who perform or control work under this Contract and each of the participating subcontractor personnel who perform or control work under this Contract shall be required to complete agreements substantially similar to Attachment I Conflict of Interest Affidavit and Disclosure. For policies and procedures applying specifically to Conflict of Interests, the Contract is governed by COMAR 21.05.08.08.

1.37 Non-Disclosure Agreement

All Offerors are advised that this solicitation and any resultant Contract(s) are subject to the terms of the Non-Disclosure Agreement contained in this solicitation as Attachment J. This Agreement must be provided within five (5) Business Days of notification of proposed Contract award; however, to expedite processing, it is suggested that this document be completed and submitted with the Proposal.

1.38 HIPAA - Business Associate Agreement

A HIPAA Business Associate Agreement is not required for this procurement.

1.39 Nonvisual Access

By submitting a Proposal, the Offeror warrants that the information technology offered under the Proposal: (1) provides equivalent access for effective use by both visual and nonvisual means; (2) will present information, including prompts used for interactive communications, in formats intended for both visual and nonvisual use; (3) if intended for use in a network, can be integrated into networks for obtaining, retrieving, and disseminating information used by individuals who are not blind or visually impaired; and (4) is available, whenever possible, without modification for compatibility with software and hardware for nonvisual access. The Offeror further warrants that the cost, if any, of modifying the information technology for compatibility with software and hardware used for nonvisual access will not increase the cost of the information technology by more than five percent (5%). For purposes of this solicitation and resulting Contract, the phrase “equivalent access” means the ability to receive, use, and manipulate information and to operate controls necessary to access and use information technology by nonvisual means.

Examples of equivalent access include keyboard controls used for input and synthesized speech, Braille, or other audible or tactile means used for output.

The Nonvisual Access Clause noted in COMAR 21.05.08.05 and referenced in this solicitation is the basis for the standards that have been incorporated into the Maryland regulations. See www.doit.maryland.gov, keyword: NVA.

1.40 Mercury and Products That Contain Mercury

All products or equipment provided pursuant to this solicitation shall be mercury-free products. The Offeror must submit a Mercury Affidavit in the form of Attachment L with its Proposal.

1.41 Veteran-Owned Small Business Enterprise Goals

There is no Veteran-Owned Small Business Enterprise (VSBE) subcontractor participation goal for this procurement.

1.42 Location of the Performance of Services Disclosure

The Offeror is required to complete the Location of the Performance of Services Disclosure. A copy of this Disclosure is included as Attachment N. The Disclosure must be provided with the Proposal.

1.43 Department of Human Resources (DHR) Hiring Agreement

Agencies are required to state whether the DHR Hiring Agreement is applicable for its solicitations. The DHR Hiring Agreement is not applicable for SBE Solicitation No. D38B4400019.

1.44 Political Contribution Disclosure

The Contractor shall comply with Md. Code Ann., Election Law Article, §§ 14-101 through 14-108, which requires that every person that enters into contracts, leases, or other agreements with the State, a county, or an incorporated municipality, or their agencies, during a calendar year in which the person receives in the aggregate $200,000 or more after January 1, 2015 for the life of the contract, shall file with the State Board of Elections a statement disclosing...
contributions of $500 or more made during the reporting period to an office holder or a candidate for elective office in any primary or general election. The statement shall be filed with the State Board of Elections:

(a) at the time of award by the State, a county, an incorporated municipality, or their agencies, and shall cover the preceding two calendar years; and

(b) twice a year, throughout the contract term, on:

i. February 5, to cover the six (6) month period ending January 31; and

ii. August 5, to cover the six (6) month period ending July 31.

1.45 Liquidated Damages

If the Contractor fails to meet any Maintenance and Repair scheduled activities in the agreed to timeframe, an event shall be declared. For each event, the Agency reserves the right to assess the Contractor liquidated damages as specified (see RFP Section 3.5).

The liquidated damages will result in the damages amount being subtracted from the next period recurring invoice. If there is no next period recurring invoice from which to subtract the liquidated damages, the Agency shall have the right to collect such damages by any action permitted hereunder, or at law or in equity. Amounts owed the Agency that remain uncollected may disqualify the Contractor from being paid under subsequent contracts with any State governmental entity.

1.46 End of Contract

Upon the expiration or termination of the Contract, all documents, reports, listings, graphics, data and all other materials developed as a result of the Contract shall be delivered to and become the property of the Agency. In the event of termination, the materials shall be delivered within fifteen (15) days after receipt of the Notice of Termination. Upon contract expiration, the materials shall be delivered within fifteen (15) days of the Contract expiration date.

1.47 Performance Bond

The successful Offeror must submit a Performance Bond (see Attachment S), or other suitable security in the amount of $1,500,000 for the duration of the Contract. This Performance Bond must be submitted to SBE upon notification of selection of Contract award. Acceptable security for a performance bond is limited to a bond in a form satisfactory to the State underwritten by a surety company authorized to do business in this State, identified within and excerpted from COMAR 21.06.07.

The cost of this bond is to be included in the total prices proposed and is not to be proposed and will not be recoverable as a separate cost item. The successful Offeror shall deliver the Performance Bond to the State within 5 working days after being notified of the proposed Contract award.

SBE will entertain a request for annual acceptable performance bond renewal that must be submitted by the 15th day of January for each year for the entire term of the Contract. Failure to renew and submit the acceptable security on the 15th day of January of each year, the State shall reserve the right to withhold Contractor invoices until such time that the value of the bond has been accumulated. After such accumulation, the State may purchase a Performance Bond on behalf of the Contractor to cover the remaining term of the Contract.

SECTION 3 – SCOPE OF WORK

3.1 Background and Purpose

In 2007, SBE was mandated to select, certify, and implement a new statewide paper-based Voting System to replace the current Direct Recording Electronic voting system (Election Law Article § 9-102 of the Annotated Code of Maryland). This system will be used in all counties in Maryland and Baltimore City. The new statewide system must produce a voter-verifiable paper record of each voter’s selections. The voter-verifiable paper record is defined in the law as a paper ballot prepared by the voter. SBE intends to have the new VSS in place and ready for use during the 2016 Presidential Election cycle and specifically in time for Early Voting use in the Presidential Primary Election held in March of 2016.

SBE has responded to this mandate by designating the New Voting System Replacement (NVSR) project as a major IT project administered by SBE’s Project Management Office (PMO). The VSS RFP Procurement is a subproject in which the new voting system will be identified, procured and implemented across the state.

3.27.8 If the Contractor fails during the Contract term to obtain an annual SOC 2 Type II Report timely, the Agency shall have the right to retain an independent audit firm to perform an audit engagement to issue a SOC 2 Report of the Information Functions and/or Processes being hosted by the Contractor. The Contractor agrees to allow the independent audit firm to access its facility/ies for purposes of conducting this audit engagement(s), and provide reasonable support to the independent audit firm in the performance of the engagement. Specifically, under the Guidance for the SOC 2 audit, management of the service organization is required to provide a description of the service organization’s system including the control objectives and/or what controls are in place. In addition, management of the service organization is required to provide the service auditor with a written assertion about the fairness of the presentation of management’s description of the service organization’s system, the suitability of the design of the controls included in the description and, in a type 2 engagement, the operating effectiveness of those controls. These deliverables are in addition to the time the service organization’s staff may expend in supporting the auditors, answering questions and/or special requests for data. The Agency will invoice the Contractor for the expense of the SOC 2 Type II Audit(s), or deduct the cost from future payments to the Contractor.
3.28 New Technology

During the term of the Contract, the Agency may desire to incorporate new products or technologies that are within the scope of the Contract but were not available in the marketplace at the time the Contract began. Such new products and technologies may offer significant advantages to the State in terms of economy, efficiency, quality and effectiveness and therefore it may be in the State’s best interest to take advantage of such new products or technologies in a manner consistent with applicable law and the Contract.

The Agency may request demonstrations of new products before allowing them to be offered as potential VSS Components. The direct expense for such demonstrations is the sole responsibility of the Contractor. The VSS Components proposed by the Offeror shall have been tested and successfully met the requirements in RFP Section 3.3. If the new component requires certification by Maryland, SBE may require the Contractor to submit the prevailing certification fee.

3.28.1 The Contractor may add additional types of VSS Components throughout the term of the Contract. To add a VSS Component, the Contractor shall submit Change Order to the Procurement Officer for each new VSS Components proposed, including all specifications and price. Upon approval of the Change Order by the Procurement Officer, the proposed VSS Components will be delivered to SBE.

3.28.2 If the new VSS Components are intended to replace existing VSS Components, the Contractor shall remove the replaced VSS Components in accordance with RFP Section 3.29. The Agency shall be reimbursed or credited for the amortized costs of VSS Components (leased or purchased) exchanged for products with newer technology.

3.29 Equipment Disposal

3.29.1 The Contractor shall perform proper disposition of Information Technology equipment within the guidelines provided by DGS. A new State law effective October 1, 2012 (HB 448, Chapter 372) requires State agencies awarding contracts for services to recycle electronic products to award the contract to a recycler that is R2 or e-Stewards certified. This information is located on the DGS web site:

http://www.dgs.maryland.gov/Procurement/Green/Guidelines/disposal.html

3.29.2 The State's Information Security Policy (Section 6.5 Media Protection) http://doit.maryland.gov/Publications/DoITSecurityPolicy.pdf discusses proper precautions to protect confidential information stored on media. Agencies can use the flowchart in Appendix B of the security policy document to assist them in making sanitization decisions commensurate with the security categorization of the confidentiality of information contained on their media.

3.30 Submission of Equipment for Demonstration Purposes

3.30.1 The Offeror shall be notified at least seven (7) calendar days in advance of the scheduled date for oral discussions and presentations. Offerors will arrange for the delivery of equipment to be used for the presentation with the SBE Procurement Officer.

3.30.1.1 The Offeror shall submit the equipment that is identical in all ways to the equipment that it is proposing in its response to this solicitation.

3.30.1.2 This equipment shall remain in the custody of SBE for the evaluation and testing until a contract award has been recommended.

3.30.2 Offerors shall submit the following equipment for demonstration and evaluation:

3.30.2.1 Two precincts and one central counting system, EMS

3.30.2.2 All other equipment, documentation and supplies, including sample ballots and accessories needed to operate the scanning systems according to the Offerors specifications

3.30.3 Any unsuccessful Offeror shall, at its expense, remove all equipment submitted for consideration within ten (10) business days of being notified that the Offeror will not be recommended for the contract award.
SECTION 4 – PROPOSAL FORMAT

4.1 Two Part Submission

Offerors shall submit Proposals in separate volumes:

- Volume I – TECHNICAL PROPOSAL
- Volume II – FINANCIAL PROPOSAL

Offerors must respond to all requirements identified in this RFP. Offerors who fail to do so may be deemed not reasonably susceptible of being selected for award.

4.2 Proposals

4.2.1 Volume I – Technical Proposal and Volume II – Financial Proposal shall be sealed separately from one another. It is preferred, but not required, that the name, e-mail address, and telephone number of the Offeror be included on the outside of the packaging for each volume. Each Volume shall contain an unbound original, so identified, and seven (7) copies. Unless the resulting package will be too unwieldy, the State’s preference is for the two (2) sealed Volumes to be submitted together in a single package including a label bearing:

- The RFP title and number,
- Name and address of the Offeror, and
- Closing date and time for receipt of Proposals

To the Procurement Officer prior to the date and time for receipt of Proposals (see RFP Section 1.5 and 1.11)

4.2.2 An electronic version of both Volumes I - Solicitation no. D38B4400019 - Technical Proposal in MS Word format, and Volume II - Solicitation no. D38B4400019 - Financial Proposals in MS Excel format must also be submitted electronic media. Electronic media shall be a CD, DVD or Thumb drive and must bear the RFP name and number, name of the Offeror, and the technical or financial volume number (Volume I or Volume II).

4.2.3 A second electronic version of Volume I and Volume II in searchable Adobe .pdf format shall be submitted on CD or DVD for Public Information Act (PIA) requests. This copy shall be redacted so that confidential and/or proprietary information has been removed (see RFP Section 1.14).

4.2.4 All pages of both proposal volumes shall be consecutively numbered from beginning (Page 1) to end (Page “x”).

4.3 Delivery

Offerors may either mail or hand-deliver Proposals.

4.3.1 For U.S. Postal Service deliveries, any Proposal that has been received at the appropriate mailroom, or typical place of mail receipt, for the respective procuring unit by the time and date listed in the RFP will be deemed to be timely. If an Offeror chooses to use the U.S. Postal Service for delivery, The Agency recommends that it use Express Mail, Priority Mail, or Certified Mail only as these are the only forms for which both the date and time of receipt can be verified by The Agency. An Offeror using first class mail will not be able to prove a timely delivery at the mailroom, and it could take several days for an item sent by first class mail to make its way by normal internal mail to the procuring unit.

4.3.2 Hand-delivery includes delivery by commercial carrier acting as agent for the Offeror. For any type of direct (non-mail) delivery, Offerors are advised to secure a dated, signed, and time-stamped (or otherwise indicated) receipt of delivery.
4.3.3 After receipt, a Register of Proposals will be prepared that identifies each Offeror. The Register of Proposals will be open to inspection only after the Procurement Officer makes a determination recommending the award of the Contract.

### 4.4 Volume I – Technical Proposal

**Note:** No pricing information is to be included in the Technical Proposal (Volume 1). Pricing information is to be included only in the Financial Proposal (Volume II).

#### 4.4.1 Format of Technical Proposal

Inside a sealed package described in RFP Section 4.2, the unbound original, seven (7) copies, and the electronic version shall be provided. The RFP sections are numbered for ease of reference. RFP Section 4.4.2 sets forth the order of information to be provided in the Technical Proposal, e.g., Section 4.4.2.1 “Title Page and Table of Contents,” RFP Section 4.4.2.2 “Claim of Confidentiality,” RFP Section 4.4.2.3 “Transmittal Letter,” RFP Section 4.4.2.4 “Executive Summary,” etc. In addition to the instructions below, responses in the Offeror’s Technical Proposal should reference the organization and numbering of Sections in the RFP (ex. “Section 3.2.1 Response . . .; “Section 3.2.2 Response . . .,” etc.). This Proposal organization will allow State officials and the Evaluation Committee (see RFP Section 5.1) to “map” Offeror responses directly to RFP requirements by Section number and will aid in the evaluation process.

#### 4.4.2 The Technical Proposal shall include the following documents and information in the order specified as follows. Each section of the Technical Proposal shall be separated by a TAB as detailed below:

**4.4.2.1 Title Page and Table of Contents (Submit under TAB A)**

The Technical Proposal should begin with a Title Page bearing the name and address of the Offeror and the name and number of this RFP. A Table of Contents shall follow the Title Page for the Technical Proposal, organized by section, subsection, and page number.

**4.4.2.2 Claim of Confidentiality (If applicable, submit under TAB A-1)**

Any information which is claimed to be confidential is to be noted by reference and included after the Title Page and before the Table of Contents, and if applicable, also in the Offeror’s Financial Proposal. An explanation for each claim of confidentiality shall be included (see Section 1.14 “Public Information Act Notice”). The entire Proposal cannot be given a blanket confidentiality designation. Any confidentiality designation must apply to specific sections, pages, or portions of pages of the Proposal.

**4.4.2.3 Transmittal Letter (Submit under TAB B)**

A Transmittal Letter shall accompany the Technical Proposal. The purpose of this letter is to transmit the Proposal and acknowledge the receipt of any addenda. The Transmittal Letter should be brief and signed by an individual who is authorized to commit the Offeror to the services and requirements as stated in this RFP. The Transmittal Letter should include the following:

- Name and address of the Offeror;
- Name, title, e-mail address, and telephone number of primary contact for the Offeror;
- Solicitation Title and Solicitation Number that the Proposal is in response to;
- Signature, typed name, and title of an individual authorized to commit the Offeror to its Proposal;
- Federal Employer Identification Number (FEIN) of the Offeror, or if a single individual, that individual’s Social Security Number (SSN);
- Offeror’s eMM number;
- Offeror’s MBE certification number (if applicable);
- Acceptance of all State RFP and Contract terms and conditions (see Section 1.24). If any exceptions are taken, they are to be noted in the Executive Summary (see Section 4.4.2.4); and
4.4.2.4 Executive Summary (Submit under TAB C)

The Offeror shall condense and highlight the contents of the Technical Proposal in a separate section titled “Executive Summary.” The Summary shall identify any exceptions the Offeror has taken to the requirements of this RFP, the Contract (Attachment A), or any other attachments. Exceptions to terms and conditions may result in having the Proposal deemed unacceptable or classified as not reasonably susceptible of being selected for award.

If the Offeror has taken no exceptions to the requirements of this RFP, the Executive Summary shall so state.

4.4.2.5 Minimum Qualifications Documentation (If applicable, submit under TAB D)

The Offeror shall submit any Minimum Qualifications documentation that may be required, as set forth in Section 2 “Minimum Qualifications.”

4.4.2.6 Offeror Technical Response to RFP Requirements and Proposed Work Plan (Submit under TAB E)

4.4.2.6.1 The Offeror shall address each Scope of Work requirement (Section 3) in its Technical Proposal and describe how its proposed services, including the services of any proposed subcontractor(s), will meet or exceed the requirement(s). If the State is seeking Offeror agreement to any requirement(s), the Offeror shall state its agreement or disagreement. Any paragraph in the Technical Proposal that responds to a Scope of Work (Section 3) requirement shall include an explanation of how the work will be done. Any exception to a requirement, term, or condition may result in having the Proposal classified as not reasonably susceptible of being selected for award or the Offeror deemed not responsible.

4.4.2.6.2 The Offeror shall give a definitive description of the proposed plan to meet the requirements of the RFP, i.e., a Work Plan. The Work Plan shall include the specific methodology and techniques to be used by the Offeror in providing the required services as outlined in RFP Section 3, Scope of Work. The description shall include an outline of the overall management concepts employed by the Offeror and a project management plan, including project control mechanisms and overall timelines. Project deadlines considered contract deliverables must be recognized in the Work Plan.

4.4.2.6.3 The Offeror shall identify the location(s) from which it proposes to provide the services, including, if applicable, any current facilities that it operates, and any required construction to satisfy the State’s requirements as outlined in this RFP.

4.4.2.6.4 The Offeror shall provide a draft Problem Escalation Procedure (PEP) that includes, at a minimum, titles of individuals to be contacted by SBE’s Contract Manager should problems arise under the Contract and explain how problems with work under the Contract will be escalated in order to resolve any issues in a timely manner. Final procedures must be submitted as indicated in RFP Section 3.24.

4.4.2.7 The Offeror shall provide the following documentation to SBE with the proposal:

4.4.2.7.1 Repair Plan - outlining process and procedures for obtaining repairs to failed or defective components of the VSS. Process and Procedures shall address obtaining repair service for components under warranty, components not under warranty, repair service provided as part of any Service Level Agreement and repair service requested through a time and material process;

This plan shall also include best practices for providing uninterrupted voting activity for system components involved in an election;

4.4.2.7.4 A Training and Training Support Plan - for training SBE, LBE, and other resources on all VSS Components;

4.4.2.7.5 Access instructions for accessing online versions of the items in 4.4.2.7;

4.4.2.7.6 System Diagram (see RFP Section 3.2.19);

4.4.2.7.7 Sample documentation containing standard agreement terms, to include: sample lease, any other standard agreements such as service agreements, subscription agreements; and

4.4.2.7.8 Sample Lease Agreement document detailing the terms and conditions of a VSS lease if selected by the State.

4.4.2.8 Experience and Qualifications of Proposed Staff (Submit under TAB F)

4.4.2.8.1 The Offeror shall identify the number and types of personnel proposed in addition to Key Personnel to be utilized under the Contract.

4.4.2.8.2 The Offeror shall describe in detail how the proposed staff’s experience and qualifications relate to their specific responsibilities, including any staff of proposed subcontractor(s), as detailed in the Work Plan. The Offeror shall include individual resumes for the key personnel, including key personnel for any proposed subcontractor(s), who are to be assigned to the project if the Offeror is awarded the Contract. Each resume should include the amount of experience the individual has had relative to the Scope of Work set forth in this solicitation. Letters of intended commitment to work on the project, including letters from any proposed subcontractor(s), shall be included in this section.

4.4.2.8.3 The Offeror shall provide an Organizational Chart outlining personnel and their related duties. The Offeror shall include job titles and the percentage of time each individual will spend on his/her assigned tasks. Offerors using job titles other than those commonly used by industry standards must provide a crosswalk reference document.

4.4.2.9 Offeror Qualifications and Capabilities (Submit under TAB G)

The Offeror shall include information on past experience with similar projects and/or services. The Offeror shall describe how its organization can meet the requirements of this RFP and shall also include the following information:

a. The number of years the Offeror has provided the similar services;

b. The number of clients/customers and geographic locations that the Offeror currently serves;

c. The names and titles of headquarters or regional management personnel who may be involved with supervising the services to be performed under this Contract;

d. The Offeror’s process for resolving billing errors; and

e. An organizational chart that identifies the complete structure of the Offeror including any parent company, headquarters, regional offices, and subsidiaries of the Offeror.

4.4.2.10 References (Submit under TAB H)

At least three (3) references are requested from customers who are capable of documenting the Offeror’s ability to provide the services specified in this RFP. References used to meet any Offeror Minimum Qualifications (see Section 2) may be used to meet this request. Each reference shall be from a client for whom the Offeror has provided services within the past five (5) years and shall include the following information:

a. Name of client organization;
b. Name, title, telephone number, and e-mail address, if available, of point of contact for client organization; and

c. Value, type, duration, and description of services provided.

The Agency reserves the right to request additional references or utilize references not provided by an Offeror. References must be accessible and knowledgeable regarding the Offeror’s performance.

4.4.2.11 List of Current or Prior State Contracts (Submit under TAB I)

Provide a list of all contracts with any entity of the State of Maryland for which the Offeror is currently performing services or for which services have been completed within the last five (5) years. For each identified contract, the Offeror is to provide:

a. The State contracting entity;
b. A brief description of the services/goods provided;
c. The dollar value of the contract;
d. The term of the contract;
e. The State employee contact person (name, title, telephone number, and, if possible, e-mail address); and
f. Whether the contract was terminated before the end of the term specified in the original contract, including whether any available renewal option was not exercised.

Information obtained regarding the Offeror’s level of performance on State contracts will be used by the Procurement Officer to determine the responsibility of the Offeror and considered as part of the experience and past performance evaluation criteria of the RFP.

4.4.2.12 Financial Capability (Submit under TAB J)

An Offeror must include in its Proposal a commonly-accepted method to prove its fiscal integrity. If available, the Offeror shall include Financial Statements, preferably a Profit and Loss (P&L) statement and a Balance Sheet, for the last two (2) years (independently audited preferred).

In addition, the Offeror may supplement its response to this Section by including one or more of the following with its response:

a. Dunn and Bradstreet Rating;
b. Standard and Poor’s Rating;
c. Lines of credit;
d. Evidence of a successful financial track record; and
e. Evidence of adequate working capital.

4.4.2.13 Certificate of Insurance (Submit under TAB K)

The Offeror shall provide a copy of its current certificate of insurance showing the types and limits of insurance in effect as of the Proposal submission date. The current insurance types and limits do not have to be the same as described in Section 3.23. See Section 5.6 for the required insurance certificate submission for the recommended Offeror.

4.4.2.14 Subcontractors (Submit under TAB L)

The Offeror shall provide a complete list of all subcontractors that will work on the Contract if the Offeror receives an award, including those utilized in meeting the MBE subcontracting goal, if applicable. This list shall include a full description of the duties each subcontractor will perform and why/how each subcontractor was deemed the most qualified for this project. See Section 3.17.4 for additional Offeror requirements related to Subcontractors.

4.4.2.15 Legal Action Summary (Submit under TAB M)

This summary shall include:
a. A statement as to whether there are any outstanding legal actions or potential claims against the Offeror and a brief description of any action;
b. A brief description of any settled or closed legal actions or claims against the Offeror over the past five (5) years;
c. A description of any judgments against the Offeror within the past five (5) years, including the case name, court case docket number, and what the final ruling or determination was from the court; and
d. In instances where litigation is on-going and the Offeror has been directed not to disclose information by the court, provide the name of the judge and location of the court.

4.4.2.16 Economic Benefit Factors (Submit under TAB N)

The Offeror shall submit with its Proposal a narrative describing benefits that will accrue to the Maryland economy as a direct or indirect result of its performance of this contract. Proposals will be evaluated to assess the benefit to Maryland’s economy specifically offered. See COMAR 21.05.03.A3.

Proposals that identify specific benefits as being contractually enforceable commitments will be rated more favorably than Proposals that do not identify specific benefits as contractual commitments, all other factors being equal.

Offerors shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the Contract term.

As applicable, for the full duration of the Contract, including any renewal period, or until the commitment is satisfied, the Contractor shall provide to the Procurement Officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. These benefit attainment reports shall be provided quarterly, unless elsewhere in these specifications a different reporting frequency is stated.

Please note that in responding to this section, the following do not generally constitute economic benefits to be derived from this Contract:

a. generic statements that the State will benefit from the Offeror’s superior performance under the Contract;
b. descriptions of the number of Offeror employees located in Maryland other than those that will be performing work under this Contract; or
c. tax revenues from Maryland based employees or locations, other than those that will be performing, or used to perform, work under this Contract.

Discussion of Maryland-based employees or locations may be appropriate if the Offeror makes some projection or guarantee of increased or retained presence based upon being awarded this Contract.

Examples of economic benefits to be derived from a contract may include any of the following. For each factor identified below, identify the specific benefit and contractual commitments and provide a breakdown of expenditures in that category:

• The Contract dollars to be recycled into Maryland’s economy in support of the Contract, through the use of Maryland subcontractors, suppliers and joint venture partners. Do not include actual fees or rates paid to subcontractors or information from your Financial Proposal;

• The number and types of jobs for Maryland residents resulting from the Contract. Indicate job classifications, number of employees in each classification and the aggregate payroll to which the Offeror has committed, including contractual commitments at both prime and, if applicable, subcontract levels. If no new positions or subcontracts are anticipated as a result of this Contract, so state explicitly;

• Tax revenues to be generated for Maryland and its political subdivisions as a result of the Contract. Indicate tax category (sales taxes, payroll taxes, inventory taxes and estimated
personal income taxes for new employees). Provide a forecast of the total tax revenues resulting from the Contract;

- Subcontract dollars committed to Maryland small businesses and MBEs; and
- Other benefits to the Maryland economy which the Offeror promises will result from awarding the Contract to the Offeror, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the Contract award. Offerors may commit to benefits that are not directly attributable to the Contract, but for which the Contract award may serve as a catalyst or impetus.

If the Offeror elects to engage an MBE firm as part of its proposal response, include the details in this section.

4.4.3 Additional Required Technical Submissions (Submit under TAB O)

The following documents shall be completed, signed, and included in the Technical Proposal, under TAB O that follows the material submitted in response to Section 4.4.2.

b. Completed Maryland Living Wage Requirements Affidavit of Agreement (Attachment G-1).

c. Completed Conflict of Interest Affidavit and Disclosure (Attachment I) see RFP Section 1.36.

d. Completed Mercury Affidavit (Attachment L) see RFP Section 1.40.

e. Completed Location of the Performance of Services Disclosure (Attachment N) see RFP Section 1.42.
4.5 Volume II – Financial Proposal

Under separate sealed cover from the Technical Proposal and clearly identified in the format specified in RFP Section 4.2 the Offeror shall submit an original unbound copy, seven (7) copies, and an electronic version in Microsoft Word or Microsoft Excel of the Financial Proposal. The Financial Proposal shall contain all price information in the format specified in Attachment F using the Financial Proposal Form.

The Offeror’s proposed prices shall be Fully Loaded Prices. No taxes or assessments or license fees or permits of any type will be paid in addition to the prices proposed on the Financial Proposal Form.

All prices proposed shall be FP for the entire term of the Contract, to include the Option Periods, if exercised.

The Agency will utilize one of the two options below to procure VSS Components. Offerors are required to submit Financial Proposals for both Contract Types:

- Lease (including a payment schedule)
- Purchase (payment schedule based upon accepted deliveries [see RFP section 3.15])

Note: Only one Technical Proposal shall be submitted.

All Offerors shall provide an amortization schedule with the Financial Proposal for each VSS Component for the entire Contract Period including Option Periods. The Agency will be reimbursed or credited for the amortized costs of VSS Components exchanged for products with newer technology at any point during the active Contract Period.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.
SECTION 5 – EVALUATION COMMITTEE, EVALUATION CRITERIA, AND SELECTION PROCEDURE

5.1 Evaluation Committee

Evaluation of Proposals will be performed in accordance with COMAR 21.05.03 by a committee established for that purpose and based on the evaluation criteria set forth below. The Evaluation Committee will review Proposals, participate in Offeror oral presentations and discussions, and provide input to the Procurement Officer. The Agency reserves the right to utilize the services of individuals outside of the established Evaluation Committee for advice and assistance, as deemed appropriate.

5.2 Technical Proposal Evaluation Criteria

The criteria to be used to evaluate each Technical Proposal are listed below in descending order of importance.

5.2.1 Offeror’s overall Technical Response to RFP Requirements and Work Plan (see RFP Section 4.4.2.6).

The State prefers an Offeror’s response to requirements in the RFP that illustrates a comprehensive understanding of work requirements and mastery of the subject matter, including an explanation of how the work will be done. Proposals which include limited responses to work requirements such as “concur” or “will comply” will receive a lower ranking than those Proposals that demonstrate an understanding of the work requirements and include plans to meet or exceed them.

5.2.2 PBS Device (see RFP Section 3.4.1).
5.2.3 Ballot Marking Device (see RFP Section 3.4.2).
5.2.4 HSS Device (see RFP Section 3.4.3).
5.2.5 VS EMS (see RFP Section 3.4.5).
5.2.6 Experience and Qualifications of Proposed Staff (see RFP Section 4.4.2.8).

5.2.7 Offeror Qualifications and Capabilities, including proposed Subcontractors (see RFP Sections 4.4.2.9 – 4.4.2.14).

5.2.8 Plan and approach to New Technology (see RFP Section 3.28).

5.2.9 Repair and Preventative Maintenance (see RFP Section 3.5)

5.2.9.1 Repair Plan (see RFP 3.8.1 & 3.8.1.1).
5.2.9.2 Preventative Maintenance Plan (see RFP Section 3.8.1 & 3.8.1.2)

5.2.10 Training (see RFP Section 3.4.6 – 3.4.10)

5.2.10.1 Training Support Plan (see Sections 3.8.1 & 3.8.1.5).

5.2.11 Ballot Box (see RFP Section 3.4.4).

5.2.12 Economic Benefit Factors to State of Maryland (see RFP Section 4.4.2.16).

Evaluators will have access to SBE information that has been prepared and submitted as part of the State Certification Process.

5.3 Financial Proposal Evaluation Criteria

All Qualified Offerors (a responsible Offeror determined to have submitted an acceptable Proposal) will be ranked from the lowest (most advantageous) to the highest (least advantageous) price based on the Total Proposal Price within the stated guidelines set forth in this RFP and as submitted on Attachment F - Financial Proposal Form. Each Financial Form presented will be evaluated separately against the Offeror’s Technical Proposal.
5.4 Reciprocal Preference

Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland contractors. Therefore, COMAR 21.05.01.04 requires that procuring units apply a reciprocal preference under the following conditions:

- The most advantageous offer is from a responsible Offeror whose headquarters, principal base of operations, or principal site that will primarily provide the services required under this RFP is in another state.
- The other state gives a preference to its resident businesses through law, policy, or practice; and
- The preference does not conflict with a Federal law or grant affecting the procurement Contract.

The preference given shall be identical to the preference that the other state, through law, policy, or practice gives to its resident businesses.

5.5 Selection Procedures

5.5.1 General

The Contract will be awarded in accordance with the Competitive Sealed Proposals (CSP) method found at COMAR 21.05.03. The Competitive Sealed Proposals method allows for the conducting of discussions and the revision of Proposals during these discussions. Therefore, the State may conduct discussions with all Offerors that have submitted Proposals that are determined to be reasonably susceptible of being selected for contract award or potentially so. However, the State reserves the right to make an award without holding discussions.

In either case (i.e., with or without discussions), the State may determine an Offeror to be not responsible and/or an Offeror’s Proposal to be not reasonably susceptible of being selected for award at any time after the initial closing date for receipt of Proposals and prior to Contract award. If the State finds an Offeror to be not responsible and/or an Offeror’s Technical Proposal to be not reasonably susceptible of being selected for award, that Offeror’s Financial Proposal will be returned if the Financial Proposal is unopened at the time of the determination.

5.5.2 Selection Process Sequence

5.5.2.1 A determination is made that the MDOT Certified MBE Utilization and Fair Solicitation Affidavit (Attachment D-1) is included and is properly completed, if there is an Offeror-initiated MBE goal. In addition, a determination is made that the VSBE Utilization Affidavit and Subcontractor Participation Schedule (Attachment M-1) is included and is properly completed, if there is a VSBE goal.

5.5.2.2 Technical Proposals are evaluated for technical merit and ranked. During this review, oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State’s requirements and the Offeror’s ability to perform the services, as well as to facilitate arrival at a Contract that is most advantageous to the State. Offerors will be contacted by the State as soon as any discussions are scheduled.

5.5.2.3 Offerors must confirm in writing any substantive oral clarifications of, or changes in, their Technical Proposals made in the course of discussions. Any such written clarifications or changes then become part of the Offeror’s Technical Proposal. Technical Proposals are given a final review and ranked.

5.5.2.4 The Financial Proposals of each Qualified Offeror will be evaluated and ranked separately from the Technical evaluation. After a review of the Financial Proposals of Qualified Offerors, the Evaluation Committee or Procurement Officer may again conduct discussions to further evaluate the Offeror’s entire Proposal.

5.5.2.5 When in the best interest of the State, the Procurement Officer may permit Qualified Offerors to revise their initial Proposals and submit, in writing, BAFOs. The State may make an award without issuing a request for a BAFO.

5.5.3 Award Determination
Upon completion of the Technical Proposal and Financial Proposal evaluations and rankings, each Offeror will receive an overall ranking. The Procurement Officer will recommend award of the Contract to the responsible Offeror that submitted the Proposal determined to be the most advantageous to the State.

5.6 Documents Required upon Notice of Recommendation for Contract Award

Upon receipt of a Notification of Recommendation for Contract Award, the following documents shall be completed, signed if applicable with original signatures, and submitted by the recommended awardee within five (5) Business Days, unless noted otherwise. Submit three (3) copies of each of the following documents:

a. Contract (Attachment A),
b. Contract Affidavit (Attachment C),
c. Non-Disclosure Agreement (Attachment J) see RFP Section 1.37,
d. Performance Bond (Attachment S),
e. All insurance documents detailed in 3.23.

THE REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK.
RFP ATTACHMENTS

ATTACHMENT A – Contract

7.2 The Contractor will defend or settle, at its own expense, any claim or suit against the State alleging that any such item furnished by the Contractor infringes any patent, trademark, service mark, copyright, or trade secret. If a third party claims that a product infringes that party’s patent, trademark, service mark, trade secret, or copyright, the Contractor will defend the State against that claim at Contractor’s expense and will pay all damages, costs, and attorneys’ fees that a court finally awards, provided the State: (a) promptly notifies the Contractor in writing of the claim; and (b) allows Contractor to control and cooperates with Contractor in, the defense and any related settlement negotiations. 7.4 Notwithstanding anything to the contrary in this Contract, to the extent (i) work performed or provided by the Contractor in connection with this Contract (the Work Product) or (ii) Pre-Existing Intellectual Property (other than a computer’s operating system, supported internet browser, browser accessibility software or hardware if needed by the user, and software required to access a commonly-available data transmission tool or export format) is required to access, install, build, compile or otherwise use the Work Product (such Pre-Existing Intellectual Property individually and collectively referred to herein as “Third-party Intellectual Property,” which shall be the sole property of Contractor or its third-party licensors, as applicable), Contractor hereby grants, on behalf of itself and any third-party licensors, to the State a royalty-free, paid-up, non-exclusive, unrestricted, unconditional, irrevocable, worldwide right and license, with the right to sublicense, to use, execute, reproduce, display, perform, distribute copies of internally, modify and prepare derivative works based upon, such Third-party Intellectual Property as may be necessary for the State to use the Work Product for the purposes for which such Work Product was designed and intended. “Pre-Existing Intellectual Property” means any program, utility or tool owned by Contractor or its third-party licensors that was created by Contractor or its third-party licensors independently from its performance of this Contract and not solely using funds from this Contract.

7.5 Contractor shall not acquire any right, title or interest (including any intellectual property rights subsisting therein) in or to any goods, software, technical information, specifications, drawings, records, documentation, data or any other materials (including any derivative works thereof) provided by the State to the Contractor. Notwithstanding anything to the contrary herein, the State may, in its sole and absolute discretion, grant the Contractor a license to such materials, subject to the terms of a separate writing executed by the Contractor and an authorized representative of the State.

7.6 Contractor, on behalf of itself and its Subcontractors, hereby agrees not to incorporate, link, distribute or use any third-party software in such a way that: (a) creates, purports to create or has the potential to create, obligations with respect to any State software (including any deliverable hereunder), including without limitation the distribution or disclosure of any source code; or (b) grants, purports to grant, or has the potential to grant to any third-party any rights to or immunities under any State intellectual property or proprietary rights. 7.7 Without limiting the generality of the foregoing, neither Contractor nor any of its Subcontractors shall use any software or technology in a manner that will cause any patents, copyrights or other intellectual property which are owned or controlled by the State or any of its affiliates (or for which the State or any of its Subcontractors has received license rights) to become subject to any encumbrance or terms and conditions of any third-party or open source license (including, without limitation, any open source license listed on http://www.opensource.org/licenses/alphabetical) (each an “Open Source License”). These restrictions, limitations, exclusions and conditions shall apply even if the State or any of its subcontractors becomes aware of or fails to act in a manner to address any violation or failure to comply therewith. No act by the State or any of its subcontractors that is undertaken under this Contract as to any software or technology shall be construed as being inconsistent with the intent to not cause any patents, copyrights or other intellectual property that are owned or controlled by the State (or for which the State has received license rights) to become subject to any encumbrance or terms and conditions of any Open Source License.

30. **Commercial Nondiscrimination**

30.1 As a condition of entering into this Contract, Contractor represents and warrants that it will comply with the State’s Commercial Nondiscrimination Policy, as described at Md. Code Ann., State Finance and Procurement Article, Title 19. As part of such compliance, Contractor may not discriminate on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or other unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall Contractor retaliate against any person for reporting instances of such discrimination. Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that this clause does not prohibit or limit lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace. Contractor understands that a material violation of this clause shall be considered a material breach of this Contract and may result in termination of this Contract, disqualification of Contractor from participating in State contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.
30.2 The Contractor shall include the above Commercial Nondiscrimination clause, or similar clause approved by the Agency, in all subcontracts.

30.3 As a condition of entering into this Contract, upon the request of the Commission on Civil Rights, and only after the filing of a complaint against Contractor under Md. Code Ann., State Finance and Procurement Article, Title 19, as amended from time to time, Contractor agrees to provide within sixty (60) days after the request a complete list of the names of all subcontractors, vendors, and suppliers that Contractor has used in the past four (4) years on any of its contracts that were undertaken within the State of Maryland, including the total dollar amount paid by Contractor on each subcontract or supply contract. Contractor further agrees to cooperate in any investigation conducted by the State pursuant to the State’s Commercial Nondiscrimination Policy as set forth at Md. Code Ann., State Finance and Procurement Article, Title 19, and to provide any documents relevant to any investigation that are requested by the State. Contractor understands that violation of this clause is a material breach of this Contract and may result in contract termination, disqualification by the State from participating in State contracts, and other sanctions.

31. Prompt Pay Requirements

31.1 If the Contractor withholds payment of an undisputed amount to its subcontractor, the Agency, at its option and in its sole discretion, may take one or more of the following actions:

   a. Not process further payments to the contractor until payment to the subcontractor is verified;
   b. Suspend all or some of the contract work without affecting the completion date(s) for the contract work;
   c. Pay or cause payment of the undisputed amount to the subcontractor from monies otherwise due or that may become due;
   d. Place a payment for an undisputed amount in an interest-bearing escrow account; or
   e. Take other or further actions as appropriate to resolve the withheld payment.

31.2 An “undisputed amount” means an amount owed by the Contractor to a subcontractor for which there is no good faith dispute. Such “undisputed amounts” include, without limitation:

   a. Retainage which had been withheld and is, by the terms of the agreement between the Contractor and subcontractor, due to be distributed to the subcontractor; and
   b. An amount withheld because of issues arising out of an agreement or occurrence unrelated to the agreement under which the amount is withheld.

31.3 An act, failure to act, or decision of a Procurement Officer or a representative of the Agency, concerning a withheld payment between the Contractor and a subcontractor under this provision, may not:

   a. Affect the rights of the contracting parties under any other provision of law;
   b. Be used as evidence on the merits of a dispute between the Agency and the contractor in any other proceeding; or
   c. Result in liability against or prejudice the rights of the Agency.

31.4 The remedies enumerated above are in addition to those provided under COMAR 21.11.03.13 with respect to subcontractors that have contracted pursuant to the Minority Business Enterprise (MBE) program.

31.5 To ensure compliance with certified MBE subcontract participation goals, the Agency may, consistent with COMAR 21.11.03.13, take the following measures:

   a. Verify that the certified MBEs listed in the MBE participation schedule actually are performing work and receiving compensation as set forth in the MBE participation schedule.
   b. This verification may include, as appropriate:
      i. Inspecting any relevant records of the Contractor;
ii. Inspecting the jobsite; and  
iii. Interviewing subcontractors and workers.  
iv. Verification shall include a review of:  
   (a) The Contractor’s monthly report listing unpaid invoices over thirty (30) days old from  
       certified MBE subcontractors and the reason for nonpayment; and  
   (b) The monthly report of each certified MBE subcontractor, which lists payments received  
       from the Contractor in the preceding thirty (30) days and invoices for which the  
       subcontractor has not been paid.  
c. If the Agency determines that the Contractor is not in compliance with certified MBE participation  
goals, then the Agency will notify the Contractor in writing of its findings, and will require the  
Contractor to take appropriate corrective action. Corrective action may include, but is not limited to,  
requiring the Contractor to compensate the MBE for work performed as set forth in the MBE  
participation schedule.  
d. If the Agency determines that the Contractor is in material noncompliance with  
MBE contract provisions and refuses or fails to take the corrective action that the Agency requires, then  
the Agency may:  
   i. Terminate the contract;  
   ii. Refer the matter to the Office of the Attorney General for appropriate action; or  
   iii. Initiate any other specific remedy identified by the contract, including the contractual remedies  
       required by any applicable laws, regulations, and directives regarding the payment of undisputed  
       amounts.  
e. Upon completion of the Contract, but before final payment or release of retainage or both, the  
Contractor shall submit a final report, in affidavit form under the penalty of perjury, of all payments  
made to, or withheld from, MBE subcontractors.  

32. Contract Manager and Procurement Officer  
The work to be accomplished under this Contract shall be performed under the direction of the Contract Manager. All  
matters relating to the interpretation of this Contract shall be referred to the Procurement Officer for determination.  

33. Notices  
All notices hereunder shall be in writing and either delivered personally or sent by certified or registered mail, postage  
prepaid, as follows:

34. Miscellaneous  
34.1 Any provision of this Contract which contemplates performance or observance subsequent to any termination  
or expiration of this contract shall survive termination or expiration of this contract and continue in full force  
and effect.  

34.2 If any term contained in this contract is held or finally determined to be invalid, illegal, or unenforceable in  
any respect, in whole or in part, such term shall be severed from this contract, and the remaining terms  
contained herein shall continue in full force and effect, and shall in no way be affected, prejudiced, or  
disturbed thereby.
35. **Living Wage**

35.1 If a Contractor subject to the Living Wage law fails to submit all records required under COMAR 21.11.10.05 to the Commissioner of Labor and Industry at the Department of Labor, Licensing and Regulation, the agency may withhold payment of any invoice or retainage. The agency may require certification from the Commissioner on a quarterly basis that such records were properly submitted.

36. **Liquidated Damages**

36.1 General - It is agreed by the Agency and Contractor that:

a. If the Contractor does not provide or perform the requirements referred to or listed in this provision, damage to the Agency will result.

b. Proving such damage will be costly, difficult, and time consuming.

c. In the event that the Contractor proposes and the Agency accepts Preventative Maintenance services, and Contractor fails to perform any scheduled Preventative Maintenance service within the time period required by the Agency-approved schedule, without the prior written approval, the Agency may impose liquidated damages in the amount of up to Thirty Five Dollars ($35.00) per VSS Component per day for each day or fraction thereof in excess of the scheduled date that the preventative maintenance is not performed.

d. Liquidated damages shall become due within thirty (30) calendar days after written notification by the Agency. The Agency may, at its sole discretion, deduct liquidated damages from payments due to the Contractor. The Contractor’s surety shall be liable under the Performance Bond for liquidated damages assessed against the Contractor.

e. Nothing in this provision shall be construed as relieving the Contractor from performing all Contract requirements, whether listed herein or not, nor is the Agency’s right to enforce or to seek other remedies from failure to perform any other Contract duty hereby diminished.

f. Remedies of the Agency specified in this section or elsewhere in the Contract for breach or failure of performance by the Contractor shall in no way limit any other remedies available to the Agency under the Contract; under any statute or regulation; or at law or in equity including, without limitation, all remedies of a buyer under the Uniform Commercial Code. All rights, powers and remedies shall be cumulative and concurrent. Any failure of the Agency to exercise a remedy shall not be a waiver of any breach or non-performance by the Contractor nor shall it prevent the Agency from later exercising that or any other remedy.

g. The Contract will be used by the Agency to monitor Contractor performance and will provide the basis for determining liquidated damages.

36.2 Liquidated Damages Assessment: Collections, Withholds

a. Once the Agency has determined that liquidated damages are to be assessed, the Agency shall notify the Contractor of the assessment. At the Agency’s discretion, the assessment notice may direct payment of the assessment by the Contractor. If payment is thus directed, the Contractor shall pay the assessment within thirty (30) calendar days of receipt of the assessment notice unless directed otherwise by the Agency. If the Agency determines that any damage was caused in part by the Agency, the Agency may reduce damage assessment against the Contractor proportionately.
b. Any liquidated damages assessment may also be collected, at the Agency's discretion, by withholding the funds from any payment due the Contractor after the date of assessment.

36.3 Conditions for Termination of Liquidated Damages

As determined appropriate by the Agency, the following are the conditions under which the Contractor may obtain relief from the continued assessment of liquidated damages which have been imposed.

a. Except as waived by the Agency, no liquidated damages imposed on the Contractor shall be terminated or suspended until the Contractor issues a written notice of correction to the Agency verifying the correction of the condition for which liquidated damages were imposed.

b. The necessary level of documentation to verify corrections will be determined by the Agency, who is the sole judge of the accuracy of any documentation provided.

c. The Contractor shall certify that each defect is corrected.

36.4 Severability of Individual Liquidated Damages Clauses

If any portion of any provision on liquidated damages in this Contract is determined to be unenforceable in one or more of its applications, the remaining portion remains in effect in all applications not determined to be invalid that are severable from the invalid applications. If any portion of this liquidated damages provision is determined to be unenforceable in total, the other portions shall remain in full force and effect.

37 End of Contract

Upon the expiration or termination of the Contract, all documents, listings, graphics, data and all other materials developed as a result of the Contract shall be delivered to and become the property of the Agency. In addition, the Contractor shall furnish, within fifteen (15) days after receipt of the Notice of Termination, such reports and projects as may be required, based on work already completed.
IN WITNESS THEREOF, the parties have executed this Contract as of the date hereinabove set forth.

I hereby affirm that I, _______________ (name of affiant) am the ______________ (title) and duly authorized representative of ______________ (name of business entity) and that I possess the legal authority to make this affidavit on behalf of the business for which I am acting.

B. CERTIFICATION REGARDING COMMERCIAL NONDISCRIMINATION

The undersigned Offeror hereby certifies and agrees that the following information is correct: In preparing its Proposal on this project, the Offeror has considered all Proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in "discrimination" as defined in § 19-103 of the State Finance and Procurement Article of the Annotated Code of Maryland. "Discrimination" means any disadvantage, difference, distinction, or preference in the solicitation, selection, hiring, or commercial treatment of a vendor, subcontractor, or commercial customer on the basis of race, color, religion, ancestry, or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or any otherwise unlawful use of characteristics regarding the vendor's, supplier's, or commercial customer's employees or owners. "Discrimination" also includes retaliating against any person or other entity for reporting any incident of "discrimination". Without limiting any other provision of the solicitation on this project, it is understood that, if the certification is false, such false certification constitutes grounds for the State to reject the Proposal submitted by the Offeror on this project, and terminate any contract awarded based on the Proposal. As part of its Proposal, the Offeror herewith submits a list of all instances within the past 4 years where there has been a final adjudicated determination in a legal or administrative proceeding in the State of Maryland that the Offeror discriminated against subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that determination, including any remedial action taken. Offeror agrees to comply in all respects with the State's Commercial Nondiscrimination Policy as described under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland.

B-1. CERTIFICATION REGARDING MINORITY BUSINESS ENTERPRISES.

(2) Fail to notify the certified MBE before execution of the contract of its inclusion in the Proposal;

(3) Fail to use the certified MBE in the performance of the contract; or

(4) Pay the certified MBE solely for the use of its name in the Proposal.

Without limiting any other provision of the solicitation on this project, it is understood that if the certification is false, such false certification constitutes grounds for the State to reject the Proposal submitted by the Offeror on this project, and terminate any contract awarded based on the Proposal.

MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT
& MBE PARTICIPATION SCHEDULE

INSTRUCTIONS

PLEASE READ BEFORE COMPLETING THIS DOCUMENT

This form includes Instructions and the MBE Utilization and Fair Solicitation Affidavit & MBE Participation Schedule which must be submitted with the bid/proposal. If the bidder/offeror fails to accurately complete and submit this Affidavit and Schedule with the bid or proposal as required, the Procurement Officer shall deem the bid non-responsive or shall determine that the proposal is not reasonably susceptible of being selected for award.

1. Contractor shall structure its procedures for the performance of the work required in this Contract to attempt to achieve the minority business enterprise (MBE) subcontractor participation goal stated in the Invitation for Bids or Request for Proposals. Contractor agrees to exercise good faith efforts to carry out the requirements set forth in these Instructions, as authorized by the Code of Maryland Regulations (COMAR) 21.11.03.

2. MBE Goals and Subgoals: Please review the solicitation for information regarding the Contract’s MBE overall participation goals and subgoals. After satisfying the requirements for any established subgoals, the Contractor is encouraged to use a diverse group of subcontractors and suppliers from any/all of the various MBE classifications to meet the remainder of the overall MBE participation goal.

3. MBE means a minority business enterprise that is certified by the Maryland Department of Transportation (“MDOT”). Only MBEs certified by MDOT may be counted for purposes of achieving the MBE participation goals. In order to be counted for purposes of achieving the MBE participation goals, the MBE firm, including a MBE prime, must be MDOT-certified for the services, materials or supplies that it is committed to perform on the MBE Participation Schedule.

4. Please refer to the MDOT MBE Directory at www.mdot.state.md.us to determine if a firm is certified with the appropriate North American Industry Classification System (“NAICS”) Code and the product/services description (specific product that a firm is certified to provide or specific areas of work that a firm is certified to perform). For more general information about NAICS, please visit www.naics.com. Only those specific products and/or services for which a firm is certified in the MDOT Directory can be used for purposes of achieving the MBE participation goals. WARNING: If the firm’s NAICS Code is in graduated status, such services/products may not be counted for purposes of achieving the MBE participation goals. A NAICS Code is in the graduated status if the term “Graduated” follows the Code in the MDOT MBE Directory.

5. NOTE: New Guidelines Regarding MBE Prime Self-Performance. Please note that when a certified MBE firm participates as a prime contractor on a Contract, a procurement agency may count the distinct, clearly defined portion of the work of the Contract that the certified MBE firm performs with its own workforce toward fulfilling up to, but no more than, fifty-percent (50%) of the MBE participation goal (overall), including up to one hundred percent (100%) of not more than one of the MBE participation subgoals, if any, established for the Contract.
In order to receive credit for self-performance, an MBE prime must be certified in the appropriate NAICS code to do the work and must list its firm in the MBE Participation Schedule, including the certification category under which the MBE prime is self-performing and include information regarding the work it will self-perform.

For the remaining portion of the overall goal and the remaining subgoals, the MBE prime must also identify on the MBE Participation Schedule the other certified MBE subcontractors used to meet those goals or request a waiver.

These guidelines apply to the work performed by the MBE Prime that can be counted for purposes of meeting the MBE participation goals. These requirements do not affect the MBE Prime’s ability to self-perform a greater portion of the work in excess of what is counted for purposes of meeting the MBE participation goals.

Please note that the requirements to meet the MBE participation overall goal and subgoals are distinct and separate. If the contract has subgoals, regardless of MBE Prime’s ability to self-perform up to 50% of the overall goal (including up to 100% of any subgoal), the MBE Prime must either commit to other MBEs for each of any remaining subgoals or request a waiver. As set forth in Attachment 1-B Waiver Guidance, the MBE Prime’s ability to self-perform certain portions of the work of the Contract will not be deemed a substitute for the good faith efforts to meet any remaining subgoal or the balance of the overall goal.

In certain instances where the percentages allocated to MBE participation subgoals add up to more than 50% of the overall goal, the portion of self-performed work that an MBE Prime may count toward the overall goal may be limited to less than 50%. Please refer to GOMA’s website (www.goma.maryland.gov) for the MBE Prime Regulations Q&A for illustrative examples.

6. Subject to items 1 through 5 above, when a certified MBE performs as a participant in a joint venture, a procurement agency may count a portion of the total dollar value of the contract equal to the distinct, clearly-defined portion of the work of the contract that the certified MBE performs with its own forces toward fulfilling the contract goal, and not more than one of the contract subgoals, if any.

7. As set forth in COMAR 21.11.03.12-1, once the Contract work begins, the work performed by a certified MBE firm, including an MBE prime, can only be counted towards the MBE participation goal(s) if the MBE firm is performing a commercially useful function on the Contract. Please refer to COMAR 21.11.03.12-1 for more information regarding these requirements.

8. If you have any questions as to whether a firm is certified to perform the specific services or provide specific products, please contact MDOT’s Office of Minority Business Enterprise at 1-800-544-6056 or via email to mbe@mdot.state.md.us sufficiently prior to the submission due date.

9. Worksheet: The percentage of MBE participation, calculated using the percentage amounts for all of the MBE firms listed on the Participation Schedule MUST at least equal the MBE participation goal and subgoals (if applicable) set forth in the solicitation. If a bidder/offeror is unable to achieve the MBE participation goal and/or any subgoals (if applicable), the bidder/offeror must request a waiver in Item 1 of the MBE Utilization and Fair Solicitation Affidavit (Attachment _-1A) or the bid will be deemed not responsive, or the proposal determined to be not susceptible of being selected for award. You may wish to use the Subgoal summary below to assist in calculating the percentages and confirm that you have met the applicable MBE participation goal and subgoals, if any.

MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT &
MBE PARTICIPATION SCHEDULE

This MBE Utilization and Fair Solicitation Affidavit and MBE Participation Schedule must be completed in its entirety and included with the bid/proposal. If the bidder/offeror fails to accurately complete and submit this Affidavit and Schedule with the bid or proposal as required, the Procurement Officer shall deem the bid non-responsive or shall determine that the proposal is not reasonably susceptible of being selected for award.

In connection with the bid/proposal submitted in response to Solicitation No. , I affirm the following:

1. **MBE Participation (PLEASE CHECK ONLY ONE)** [Agency should insert the participation goal and subgoal amounts from the PRG and Subgoal Worksheet in the blanks below and delete any of the subgoals that do not apply to this solicitation and then delete this sentence of instruction.]

   - I acknowledge and intend to meet IN FULL both the overall certified Minority Business Enterprise (MBE) participation goal of percent and all of the following subgoals:
     - percent for African American-owned MBE firms
     - percent for Hispanic American-owned MBE firms
     - percent for Asian American-owned MBE firms
     - percent for Women-owned MBE firms

   Therefore, I am not seeking a waiver pursuant to COMAR 21.11.03.11. I acknowledge that by checking the above box and agreeing to meet the stated goal and subgoal(s), if any, I must complete the MBE Participation Schedule (Item 4 below) in order to be considered for award.

   **OR**

   - I conclude that I am unable to achieve the MBE participation goal and/or subgoals. I hereby request a waiver, in whole or in part, of the overall goal and/or subgoals. I acknowledge that by checking this box and requesting a partial waiver of the stated goal and/or one or more of the stated subgoal(s) if any, I must complete the MBE Participation Schedule (Item 4 below) for the portion of the goal and/or subgoal(s) if any, for which I am not seeking a waiver, in order to be considered for award.

2. **Additional MBE Documentation**

   I understand that if I am notified that I am the apparent awardee or as requested by the Procurement Officer, I must submit the following documentation within 10 Working days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier:

   (a) Good Faith Efforts Documentation to Support Waiver Request (Attachment __-1C)

   (b) Outreach Efforts Compliance Statement (Attachment __-2);

   (c) MBE Subcontractor/MBE Prime Project Participation Statement (Attachments __-3A and 3B);
(d) Any other documentation, including additional waiver documentation if applicable, required by the Procurement Officer to ascertain bidder or offeror responsibility in connection with the certified MBE participation goal and subgoals, if any.

I understand that if I fail to return each completed document within the required time, the Procurement Officer may determine that I am not responsible and therefore not eligible for contract award. If the contract has already been awarded, the award is voidable.

3. Information Provided to MBE firms

In the solicitation of subcontract quotations or offers, MBE firms were provided not less than the same information and amount of time to respond as were non-MBE firms.

4. MBE Participation Schedule

Set forth below are the (i) certified MBEs I intend to use, (ii) the percentage of the total Contract amount allocated to each MBE for this project and, (iii) the items of work each MBE will provide under the Contract. I have confirmed with the MDOT database that the MBE firms identified below (including any self-performing MBE prime firms) are performing work activities for which they are MDOT certified.

WAIVER GUIDANCE

GUIDANCE FOR DOCUMENTING GOOD FAITH EFFORTS TO MEET MBE PARTICIPATION GOALS

In order to show that it has made good faith efforts to meet the Minority Business Enterprise (MBE) participation goal (including any MBE subgoals) on a contract, the bidder/offeror must either (1) meet the MBE Goal(s) and document its commitments for participation of MBE Firms, or (2) when it does not meet the MBE Goal(s), document its Good Faith Efforts to meet the goal(s).

I. Definitions

MBE Goal(s) – “MBE Goal(s)” refers to the MBE participation goal and MBE participation subgoal(s).

Good Faith Efforts – The “Good Faith Efforts” requirement means that when requesting a waiver, the bidder/offeror must demonstrate that it took all necessary and reasonable steps to achieve the MBE Goal(s), which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient MBE participation, even if those steps were not fully successful. Whether a bidder/offeror that requests a waiver made adequate good faith efforts will be determined by considering the quality, quantity, and intensity of the different kinds of efforts that the bidder/offeror has made. The efforts employed by the bidder/offeror should be those that one could reasonably expect a bidder/offeror to take if the bidder/offeror were actively and aggressively trying to obtain MBE participation sufficient to meet the MBE contract goal and subgoals. Mere pro forma efforts are not good faith efforts to meet the MBE contract requirements. The determination concerning the sufficiency of the bidder's/offeror’s good faith efforts is a judgment call; meeting quantitative formulas is not required.

Identified Firms – “Identified Firms” means a list of the MBEs identified by the procuring agency during the goal setting process and listed in the procurement as available to perform the Identified Items of Work. It also may include additional MBEs identified by the bidder/offeror as available to perform the Identified Items of Work, such as MBEs certified or granted an expansion of services after the procurement was issued. If the procurement does not include a list of Identified Firms, this term refers to all of the MBE Firms (if State-funded) the bidder/offeror identified as available to perform the Identified Items of Work and should include all appropriately certified firms that are reasonably identifiable.

Identified Items of Work – “Identified Items of Work” means the bid items identified by the procuring agency during the goal setting process and listed in the procurement as possible items of work for performance by MBE Firms. It also may include additional portions of items of work the bidder/offeror identified as possible items of work for performance by MBE Firms to increase the likelihood that the MBE Goal(s) will be achieved. If the procurement does not include a list of Identified Items of Work, this term refers to all of the items of work the bidder/offeror identified as possible items of work for performance by MBE Firms and should include all reasonably identifiable work opportunities.

MBE Firms – “MBE Firms” refers to a firm certified by the Maryland Department of Transportation (“MDOT”) under COMAR 21.11.03. Only MDOT-certified MBE Firms can participate in the State’s MBE Program.
II. Types of Actions Agency will Consider

The bidder/offeror is responsible for making relevant portions of the work available to MBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available MBE subcontractors and suppliers, so as to facilitate MBE participation. The following is a list of types of actions the procuring agency will consider as part of the bidder's/offeror’s Good Faith Efforts when the bidder/offeror fails to meet the MBE Goal(s). This list is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

A. Identify Bid Items as Work for MBE Firms

1. Identified Items of Work in Procurements

   (a) Certain procurements will include a list of bid items identified during the goal setting process as possible work for performance by MBE Firms. If the procurement provides a list of Identified Items of Work, the bidder/offeror shall make all reasonable efforts to solicit quotes from MBE Firms to perform that work.

   (b) Bidders/Offerors may, and are encouraged to, select additional items of work to be performed by MBE Firms to increase the likelihood that the MBE Goal(s) will be achieved.

2. Identified Items of Work by Bidders/Offerors

   (a) When the procurement does not include a list of Identified Items of Work or for additional Identified Items of Work, bidders/offerors should reasonably identify sufficient items of work to be performed by MBE Firms.

   (b) Where appropriate, bidders/offerors should break out contract work items into economically feasible units to facilitate MBE participation, rather than perform these work items with their own forces. The ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder/offeror of the responsibility to make Good Faith Efforts.

B. Identify MBE Firms to Solicit

1. MBE Firms Identified in Procurements

   (a) Certain procurements will include a list of the MBE Firms identified during the goal setting process as available to perform the items of work. If the procurement provides a list of Identified MBE Firms, the bidder/offeror shall make all reasonable efforts to solicit those MBE firms.

   (b) Bidders/offerors may, and are encouraged to, search the MBE Directory to identify additional MBEs who may be available to perform the items of work, such as MBEs certified or granted an expansion of services after the solicitation was issued.

2. MBE Firms Identified by Bidders/Offerors

   (a) When the procurement does not include a list of Identified MBE Firms, bidders/offerors should reasonably identify the MBE Firms that are available to perform the Identified Items of Work.

   (b) Any MBE Firms identified as available by the bidder/offeror should be certified to perform the Identified Items of Work.
C. Solicit MBEs

1. Solicit all Identified Firms for all Identified Items of Work by providing written notice. The bidder/offeror should:

   (a) provide the written solicitation at least 10 days prior to bid opening to allow sufficient time for the MBE Firms to respond;

   (b) send the written solicitation by first-class mail, facsimile, or email using contact information in the MBE Directory, unless the bidder/offeror has a valid basis for using different contact information; and

   (c) provide adequate information about the plans, specifications, anticipated time schedule for portions of the work to be performed by the MBE, and other requirements of the contract to assist MBE Firms in responding. (This information may be provided by including hard copies in the written solicitation or by electronic means as described in C.3 below.)

2. “All” Identified Firms includes the MBEs listed in the procurement and any MBE Firms you identify as potentially available to perform the Identified Items of Work, but it does not include MBE Firms who are no longer certified to perform the work as of the date the bidder/offeror provides written solicitations.

3. “Electronic Means” includes, for example, information provided via a website or file transfer protocol (FTP) site containing the plans, specifications, and other requirements of the contract. If an interested MBE cannot access the information provided by electronic means, the bidder/offeror must make the information available in a manner that is accessible to the interested MBE.

4. Follow up on initial written solicitations by contacting MBEs to determine if they are interested. The follow up contact may be made:

   (a) by telephone using the contact information in the MBE Directory, unless the bidder/offeror has a valid basis for using different contact information; or

   (b) in writing via a method that differs from the method used for the initial written solicitation.

5. In addition to the written solicitation set forth in C.1 and the follow up required in C.4, use all other reasonable and available means to solicit the interest of MBE Firms certified to perform the work of the contract. Examples of other means include:

   (a) attending any pre-bid meetings at which MBE Firms could be informed of contracting and subcontracting opportunities; and

   (b) if recommended by the procurement, advertising with or effectively using the services of at least two minority focused entities or media, including trade associations, minority/women community organizations, minority/women contractors' groups, and local, state, and federal minority/women business assistance offices listed on the MDOT Office of Minority Business Enterprise website.

D. Negotiate With Interested MBE Firms

Bidders/Offerors must negotiate in good faith with interested MBE Firms.

1. Evidence of negotiation includes, without limitation, the following:

   (a) the names, addresses, and telephone numbers of MBE Firms that were considered;

   (b) a description of the information provided regarding the plans and specifications for the work selected for subcontracting and the means used to provide that information; and

   (c) evidence as to why additional agreements could not be reached for MBE Firms to perform the work.
2. A bidder/offeror using good business judgment would consider a number of factors in negotiating with subcontractors, including MBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration.

3. The fact that there may be some additional costs involved in finding and using MBE Firms is not in itself sufficient reason for a bidder's/offeror's failure to meet the contract MBE goal(s), as long as such costs are reasonable. Factors to take into consideration when determining whether a MBE Firm's quote is excessive or unreasonable include, without limitation, the following:

   (a) the dollar difference between the MBE subcontractor’s quote and the average of the other subcontractors’ quotes received by the bidder/offeror;

   (b) the percentage difference between the MBE subcontractor’s quote and the average of the other subcontractors’ quotes received by the bidder/offeror;

   (c) the percentage that the MBE subcontractor’s quote represents of the overall contract amount;

   (d) the number of MBE firms that the bidder/offeror solicited for that portion of the work;

   (e) whether the work described in the MBE and Non-MBE subcontractor quotes (or portions thereof) submitted for review is the same or comparable; and

   (f) the number of quotes received by the bidder/offeror for that portion of the work.

4. The above factors are not intended to be mandatory, exclusive, or exhaustive, and other evidence of an excessive or unreasonable price may be relevant.

5. The bidder/offeror may not use its price for self-performing work as a basis for rejecting a MBE Firm’s quote as excessive or unreasonable.

6. The “average of the other subcontractors’ quotes received” by the bidder/offeror refers to the average of the quotes received from all subcontractors. Bidder/offeror should attempt to receive quotes from at least three subcontractors, including one quote from a MBE and one quote from a Non-MBE.

7. A bidder/offeror shall not reject a MBE Firm as unqualified without sound reasons based on a thorough investigation of the firm’s capabilities. For each certified MBE that is rejected as unqualified or that placed a subcontract quotation or offer that the bidder/offeror concludes is not acceptable, the bidder/offeror must provide a written detailed statement listing the reasons for this conclusion. The bidder/offeror also must document the steps taken to verify the capabilities of the MBE and Non-MBE Firms quoting similar work.

   (a) The factors to take into consideration when assessing the capabilities of a MBE Firm, include, but are not limited to the following: financial capability, physical capacity to perform, available personnel and equipment, existing workload, experience performing the type of work, conduct and performance in previous contracts, and ability to meet reasonable contract requirements.

   (b) The MBE Firm’s standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the efforts to meet the project goal.
E. Assisting Interested MBE Firms

When appropriate under the circumstances, the decision-maker will consider whether the bidder/offeror:

1. made reasonable efforts to assist interested MBE Firms in obtaining the bonding, lines of credit, or insurance required by the procuring agency or the bidder/offeror; and

2. made reasonable efforts to assist interested MBE Firms in obtaining necessary equipment, supplies, materials, or related assistance or services.

III. Other Considerations

In making a determination of Good Faith Efforts the decision-maker may consider engineering estimates, catalogue prices, general market availability and availability of certified MBE Firms in the area in which the work is to be performed, other bids or offers and subcontract bids or offers substantiating significant variances between certified MBE and Non-MBE costs of participation, and their impact on the overall cost of the contract to the State and any other relevant factors.

The decision-maker may take into account whether a bidder/offeror decided to self-perform subcontract work with its own forces, especially where the self-performed work is Identified Items of Work in the procurement. The decision-maker also may take into account the performance of other bidders/offerors in meeting the contract. For example, when the apparent successful bidder/offeror fails to meet the contract goal, but others meet it, this reasonably raises the question of whether, with additional reasonable efforts, the apparent successful bidder/offeror could have met the goal. If the apparent successful bidder/offeror fails to meet the goal, but meets or exceeds the average MBE participation obtained by other bidders/offerors, this, when viewed in conjunction with other factors, could be evidence of the apparent successful bidder/offeror having made Good Faith Efforts.

IV. Documenting Good Faith Efforts

At a minimum, a bidder/offeror seeking a waiver of the MBE Goal(s) or a portion thereof must provide written documentation of its Good Faith Efforts, in accordance with COMAR 21.11.03.11, within 10 business days after receiving notice that it is the apparent awardee. The written documentation shall include the following:

A. Items of Work (Complete Good Faith Efforts Documentation Attachment 1-C, Part 1)

A detailed statement of the efforts made to select portions of the work proposed to be performed by certified MBE Firms in order to increase the likelihood of achieving the stated MBE Goal(s).

B. Outreach/Solicitation/Negotiation

1. The record of the bidder’s/offeror’s compliance with the outreach efforts prescribed by COMAR 21.11.03.09C(2)(a). (Complete Outreach Efforts Compliance Statement – Attachment 2).

2. A detailed statement of the efforts made to contact and negotiate with MBE Firms including:

   (a) the names, addresses, and telephone numbers of the MBE Firms who were contacted, with the dates and manner of contacts (letter, fax, email, telephone, etc.) (Complete Good Faith Efforts Attachment 1-C- Part 2, and submit letters, fax cover sheets, emails, etc. documenting solicitations); and

   (b) a description of the information provided to MBE Firms regarding the plans, specifications, and anticipated time schedule for portions of the work to be performed and the means used to provide that information.
C. Rejected MBE Firms (Complete Good Faith Efforts Attachment 1-C, Part 3)

1. For each MBE Firm that the bidder/offeror concludes is not acceptable or qualified, a detailed statement of the reasons for the bidder's/offeror's conclusion, including the steps taken to verify the capabilities of the MBE and Non-MBE Firms quoting similar work.

2. For each certified MBE Firm that the bidder/offeror concludes has provided an excessive or unreasonable price, a detailed statement of the reasons for the bidder's/offeror's conclusion, including the quotes received from all MBE and Non-MBE firms bidding on the same or comparable work. (Include copies of all quotes received.)

3. A list of MBE Firms contacted but found to be unavailable. This list should be accompanied by a MBE Unavailability Certificate (see Exhibit A to this Part 1) signed by the MBE contractor or a statement from the bidder/offeror that the MBE contractor refused to sign the MBE Unavailability Certificate.

D. Other Documentation

1. Submit any other documentation requested by the Procurement Officer to ascertain the bidder's/offeror's Good Faith Efforts.

2. Submit any other documentation the bidder/offeror believes will help the Procurement Officer ascertain its Good Faith Efforts.

PART 1 – IDENTIFIED ITEMS OF WORK BIDDER/OFFEROR MADE AVAILABLE TO MBE FIRMS  

Identify those items of work that the bidder/offeror made available to MBE Firms. This includes, where appropriate, those items the bidder/offeror identified and determined to subdivide into economically feasible units to facilitate the MBE participation. For each item listed, show the anticipated percentage of the total contract amount. It is the bidder’s/offeror’s responsibility to demonstrate that sufficient work to meet the goal was made available to MBE Firms, and the total percentage of the items of work identified for MBE participation equals or exceeds the percentage MBE goal set for the procurement. Note: If the procurement includes a list of bid items identified during the goal setting process as possible items of work for performance by MBE Firms, the bidder/offeror should make all of those items of work available to MBE Firms or explain why that item was not made available. If the bidder/offeror selects additional items of work to make available to MBE Firms, those additional items should also be included below.

Identify the MBE Firms solicited to provide quotes for the Identified Items of Work made available for MBE participation. Include the name of the MBE Firm solicited, items of work for which bids/quotes were solicited, date and manner of initial and follow-up solicitations, whether the MBE provided a quote, and whether the MBE is being used to meet the MBE participation goal. MBE Firms used to meet the participation goal must be included on the MBE Participation Schedule. Note: If the procurement includes a list of the MBE Firms identified during the goal setting process as potentially available to perform the items of work, the bidder/offeror should solicit all of those MBE Firms or explain why a specific MBE was not solicited. If the bidder/offeror identifies additional MBE Firms who may be available to perform Identified Items of Work, those additional MBE Firms should also be included below. Copies of all written solicitations and documentation of follow-up calls to MBE Firms must be attached to this form. This list should be accompanied by a Minority Contractor Unavailability Certificate signed by the MBE contractor or a statement from the bidder/offeror that the MBE contractor refused to sign the Minority Contractor Unavailability Certificate (see Exhibit A to MBE Attachment 1-B). If the bidder/offeror used a Non-MBE or is self-performing the identified items of work, Part 3 must be completed.

ATTACHMENT F – FINANCIAL PROPOSAL INSTRUCTIONS

The Agency will utilize one of the two options below to procure VSS Components. Offerors are required to submit Financial Proposals for both Contract Types:

- Lease
- Purchase

Note: One Technical Proposal will be submitted.

All Offerors shall provide an amortization schedule with the Financial Proposal for each VSS Component for the entire Contract Period including Option Periods. The Agency will be reimbursed or credited for the amortized costs of VSS Components exchanged for products with newer technology at any point during the active Contract Period.

In order to assist Offerors in the preparation of their Financial Proposals and to comply with the requirements of this solicitation, Financial Proposal Instructions and a Financial Proposal Forms have been prepared. The Financial Proposal Form is available on eMM. This form contains two (2) tabs, one for each Contract Type (Lease and Purchase). Offerors shall submit their Financial Proposals on the Financial Proposal Forms in accordance with the instructions on the Financial Proposal Forms and as specified herein. Do not alter the Financial Proposal Form or the Proposal may be determined to be not reasonably susceptible of being selected for award. The Financial Proposal Form is to be signed and dated, where requested, by an individual who is authorized to bind the Offeror to the prices entered on the Financial Proposal Form.

The Financial Proposal Form is used to calculate the Offeror’s TOTAL PROPOSAL PRICE. Follow these instructions carefully when completing your Financial Proposal Form:

A) Prices must be clearly entered in dollars and cents, e.g., $24.15. Make your decimal points clear and distinct.

B) Prices must be the actual price per unit the State will pay for the specific item or service identified in this RFP and may not be contingent on any other factor or condition in any manner.

C) All calculations shall be rounded to the nearest cent, i.e., .344 shall be .34 and .345 shall be .35.

D) Any goods or services required through this RFP and proposed by the vendor at No Cost to the State must be clearly entered in the Price, if appropriate, with $0.00.

E) The Offeror shall fill in all required blank cells of the Financial Proposal Form, which are shaded yellow.

F) Except as instructed on the Financial Proposal Form, nothing shall be entered on or attached to the Financial Proposal Form that alters or proposes conditions or contingencies on the prices. Alterations and/or conditions may render the Proposal not reasonably susceptible of being selected for award.

G) It is imperative that the prices included on the Financial Proposal Form have been entered correctly and that the respective total prices agree with the entries on the Financial Proposal Form. Any incorrect entries by the Offeror will be treated as provided in COMAR 21.05.03.03E and 21.05.02.12, and may cause the Proposal to be rejected.

H) Offerors must submit pricing for each option period. Any option to renew will be exercised at the sole discretion of the State and will comply with all terms and conditions in force at the time the option is exercised. If exercised, the option period shall be for a period identified in the RFP at the prices entered in the Financial Proposal Form.

I) All Financial Proposal prices shall be Fully Loaded Prices.

J) Unless indicated elsewhere in the RFP, sample amounts used for calculations on the Financial Proposal Form are typically estimates for evaluation purposes only. Unless stated otherwise in the RFP, the Agency does not guarantee a minimum or maximum number of units or usage in the performance of this Contract.
K) Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.

L) The Financial Proposal Form is a separate document on the eMM. The Offeror shall submit all pricing information via this form. Complete the Financial Proposal Form as instructed in the Financial Proposal Form. Do not amend, alter or leave blank any items on the Financial Proposal Form. The Offeror must submit pricing for each option period. Failure to adhere to any of these instructions may result in the Proposal being determined not reasonably susceptible of being selected for award.
Living Wage Requirements for Service Contracts

A. This contract is subject to the Living Wage requirements under Md. Code Ann., State Finance and Procurement Article, Title 18, and the regulations proposed by the Commissioner of Labor and Industry (Commissioner). The Living Wage generally applies to a Contractor or Subcontractor who performs work on a State contract for services that is valued at $100,000 or more. An employee is subject to the Living Wage if he/she is at least 18 years old or will turn 18 during the duration of the contract; works at least 13 consecutive weeks on the State Contract and spends at least one-half of the employee’s time during any work week on the State Contract.

B. The Living Wage Law does not apply to:

(1) A Contractor who:
   (a) Has a State contract for services valued at less than $100,000, or
   (b) Employs 10 or fewer employees and has a State contract for services valued at less than $500,000.

(2) A Subcontractor who:
   (a) Performs work on a State contract for services valued at less than $100,000,
   (b) Employs 10 or fewer employees and performs work on a State contract for services valued at less than $500,000, or
   (c) Performs work for a Contractor not covered by the Living Wage Law as defined in B(1)(b) above, or B(3) or C below.

(3) Service contracts for the following:
   (a) Services with a Public Service Company;
   (b) Services with a nonprofit organization;
   (c) Services with an officer or other entity that is in the Executive Branch of the State government and is authorized by law to enter into a procurement (“Unit”); or
   (d) Services between a Unit and a County or Baltimore City.

C. If the Unit responsible for the State contract for services determines that application of the Living Wage would conflict with any applicable Federal program, the Living Wage does not apply to the contract or program.

D. A Contractor must not split or subdivide a State contract for services, pay an employee through a third party, or treat an employee as an independent Contractor or assign work to employees to avoid
the imposition of any of the requirements of Md. Code Ann., State Finance and Procurement Article, Title 18.

E. Each Contractor/Subcontractor, subject to the Living Wage Law, shall post in a prominent and easily accessible place at the work site(s) of covered employees a notice of the Living Wage Rates, employee rights under the law, and the name, address, and telephone number of the Commissioner.

F. The Commissioner shall adjust the wage rates by the annual average increase or decrease, if any, in the Consumer Price Index for all urban consumers for the Washington/Baltimore metropolitan area, or any successor index, for the previous calendar year, not later than 90 days after the start of each fiscal year. The Commissioner shall publish any adjustments to the wage rates on the Division of Labor and Industry’s website. An employer subject to the Living Wage Law must comply with the rate requirements during the initial term of the contract and all subsequent renewal periods, including any increases in the wage rate, required by the Commissioner, automatically upon the effective date of the revised wage rate.

G. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s share of the health insurance premium, as provided in Md. Code Ann., State Finance and Procurement Article, §18-103(c), shall not lower an employee’s wage rate below the minimum wage as set in Md. Code Ann., Labor and Employment Article, §3-413. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s share of health insurance premium shall comply with any record reporting requirements established by the Commissioner.

H. A Contractor/Subcontractor may reduce the wage rates paid under Md. Code Ann., State Finance and Procurement Article, §18-103(a), by no more than 50 cents of the hourly cost of the employer’s contribution to an employee’s deferred compensation plan. A Contractor/Subcontractor who reduces the wages paid to an employee based on the employer’s contribution to an employee’s deferred compensation plan shall not lower the employee’s wage rate below the minimum wage as set in Md. Code Ann., Labor and Employment Article, §3-413.

I. Under Md. Code Ann., State Finance and Procurement Article, Title 18, if the Commissioner determines that the Contractor/Subcontractor violated a provision of this title or regulations of the Commissioner, the Contractor/Subcontractor shall pay restitution to each affected employee, and the State may assess liquidated damages of $20 per day for each employee paid less than the Living Wage.

J. Information pertaining to reporting obligations may be found by going to the Division of Labor and Industry website [http://www.dllr.state.md.us/labor/](http://www.dllr.state.md.us/labor/) and clicking on Living Wage for State Service Contracts.

A. "Conflict of interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the State, or the person’s objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage.

B. "Person" has the meaning stated in COMAR 21.01.02.01B(64) and includes a Offeror, Contractor, consultant, or subcontractor or sub-consultant at any tier, and also includes an employee or agent of any of them if the employee or agent has or will have the authority to control or supervise all or a portion of the work for which a Proposal is made.

C. The Offeror warrants that, except as disclosed in §D, below, there are no relevant facts or circumstances now giving rise or which could, in the future, give rise to a conflict of interest.

D. The following facts or circumstances give rise or could in the future give rise to a conflict of interest (explain in detail—attach additional sheets if necessary):

E. The Offeror agrees that if an actual or potential conflict of interest arises after the date of this affidavit, the Offeror shall immediately make a full disclosure in writing to the procurement officer of all relevant facts and circumstances. This disclosure shall include a description of actions which the Offeror has taken and proposes to take to avoid, mitigate, or neutralize the actual or potential conflict of interest. If the contract has been awarded and performance of the contract has begun, the Contractor shall continue performance until notified by the procurement officer of any contrary action to be taken.

I DO SOLEMNLY DECLARE AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE CONTENTS OF THIS AFFIDAVIT ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE, INFORMATION, AND BELIEF.

THIS NON-DISCLOSURE AGREEMENT (“Agreement”) is made by and between the State of Maryland (the “State”), acting by and through State Board of Elections (the “Agency”), and _______________________________ (the “Contractor”).

RECITALS

WHEREAS, the Contractor has been awarded a contract (the “Contract”) following the solicitation for the Voting System Solution Solicitation # D38B4400019; and

WHEREAS, in order for the Contractor to perform the work required under the Contract, it will be necessary for the State at times to provide the Contractor and the Contractor’s employees, agents, and subcontractors (collectively the “Contractor’s Personnel”) with access to certain information the State deems confidential information (the “Confidential Information”).

NOW, THEREFORE, in consideration of being given access to the Confidential Information in connection with the solicitation and the Contract, and for other good and valuable consideration, the receipt and sufficiency of which the parties acknowledge, the parties do hereby agree as follows:

1. Confidential Information means any and all information provided by or made available by the State to the Contractor in connection with the Contract, regardless of the form, format, or media on or in which the Confidential Information is provided and regardless of whether any such Confidential Information is marked as such. Confidential Information includes, by way of example only, information that the Contractor views, takes notes from, copies (if the State agrees in writing to permit copying), possesses or is otherwise provided access to and use of by the State in relation to the Contract.

2. Contractor shall not, without the State’s prior written consent, copy, disclose, publish, release, transfer, disseminate, use, or allow access for any purpose or in any form, any Confidential Information provided by the State except for the sole and exclusive purpose of performing under the Contract. Contractor shall limit access to the Confidential Information to the Contractor’s Personnel who have a demonstrable need to know such Confidential Information in order to perform under the Contract and who have agreed in writing to be bound by the disclosure and use limitations pertaining to the Confidential Information. The names of the Contractor’s Personnel are attached hereto and made a part hereof as ATTACHMENT J-1. Contractor shall update ATTACHMENT J-1 by adding additional names (whether Contractor’s personnel or a subcontractor’s personnel) as needed, from time to time.

3. If the Contractor intends to disseminate any portion of the Confidential Information to non-employee agents who are assisting in the Contractor’s performance of the Contract or who will otherwise have a role in performing any aspect of the Contract, the Contractor shall first obtain the written consent of the State to any such dissemination. The State may grant, deny, or condition any such consent, as it may deem appropriate in its sole and absolute subjective discretion.

4. Contractor hereby agrees to hold the Confidential Information in trust and in strictest confidence, to adopt or establish operating procedures and physical security measures, and to take all other measures necessary to protect the Confidential Information from inadvertent release or disclosure to unauthorized third parties and to prevent all or any portion of the Confidential Information from falling into the public domain or into the possession of persons not bound to maintain the confidentiality of the Confidential Information.

5. Contractor shall promptly advise the State in writing if it learns of any unauthorized use, misappropriation, or disclosure of the Confidential Information by any of the Contractor’s Personnel or the Contractor’s former
Personnel. Contractor shall, at its own expense, cooperate with the State in seeking injunctive or other equitable relief against any such person(s).

6. Contractor shall, at its own expense, return to the Agency all copies of the Confidential Information in its care, custody, control or possession upon request of the Agency or on termination of the Contract.

7. A breach of this Agreement by the Contractor or by the Contractor’s Personnel shall constitute a breach of the Contract between the Contractor and the State.

8. Contractor acknowledges that any failure by the Contractor or the Contractor’s Personnel to abide by the terms and conditions of use of the Confidential Information may cause irreparable harm to the State and that monetary damages may be inadequate to compensate the State for such breach. Accordingly, the Contractor agrees that the State may obtain an injunction to prevent the disclosure, copying or improper use of the Confidential Information. The Contractor consents to personal jurisdiction in the Maryland State Courts. The State’s rights and remedies hereunder are cumulative and the State expressly reserves any and all rights, remedies, claims and actions that it may have now or in the future to protect the Confidential Information and to seek damages from the Contractor and the Contractor’s Personnel for a failure to comply with the requirements of this Agreement. In the event the State suffers any losses, damages, liabilities, expenses, or costs (including, by way of example only, attorneys’ fees and disbursements) that are attributable, in whole or in part to any failure by the Contractor or any of the Contractor’s Personnel to comply with the requirements of this Agreement, the Contractor shall hold harmless and indemnify the State from and against any such losses, damages, liabilities, expenses, and costs.

9. Contractor and each of the Contractor’s Personnel who receive or have access to any Confidential Information shall execute a copy of an agreement substantially similar to this Agreement, in no event less restrictive than as set forth in this Agreement, and the Contractor shall provide originals of such executed Agreements to the State.

10. The parties further agree that:
   a. This Agreement shall be governed by the laws of the State of Maryland;
   b. The rights and obligations of the Contractor under this Agreement may not be assigned or delegated, by operation of law or otherwise, without the prior written consent of the State;
   c. The State makes no representations or warranties as to the accuracy or completeness of any Confidential Information;
   d. The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement;
   e. Signatures exchanged by facsimile are effective for all purposes hereunder to the same extent as original signatures;
   f. The Recitals are not merely prefatory but are an integral part hereof; and
   g. The effective date of this Agreement shall be the same as the effective date of the Contract entered into by the parties.

IN WITNESS WHEREOF, the parties have, by their duly authorized representatives, executed this Agreement as of the day and year first above written.
