DEPARTMENT OF STATE

**HELP AMERICA VOTE
ACT OF 2002**

**TITLE I, SECTION 102
NARRATIVE AND
FINANCIAL REPORT**

AS OF DECEMBER 31, 2005

**PRESENTED TO:
U.S. ELECTION ASSISTANCE
COMMISSION**

**Al Ater
Secretary of State**

ORIGINAL

**TITLE I, SECTION 102
REPLACEMENT OF PUNCH CARD OR LEVER VOTING MACHINES**

**NARRATIVE REPORT
AS OF DECEMBER 31, 2005**

Title I, Section 102 of the Help America Vote Act of 2002 (HAVA) was implemented to provide a program to provide funds to states to replace punch card and lever voting systems. Louisiana received \$7,351,684 in Title I, Section 102 funds.

Prior to January of 2004, the election management functions in the State of Louisiana were divided between the Department of Elections and Registration and the Department of State (Department). With the passage of Act 451 of the 2001 Regular Session of the Louisiana Legislature, the two departments were merged into the Department of State under the direction of the Secretary of State effective on January 12, 2004. As the Chief Election Officer of the State of Louisiana, the Secretary of State is now overseeing the management and implementation of Louisiana's State Plan, including the replacement of all lever voting machines in the State of Louisiana.

Before the Help America Vote Act of 2002 became law, Louisiana had already implemented a significant number of reforms and efficiencies that are now required by Title I, Section 102 of HAVA. Therefore, this narrative report covers all improvements in Louisiana's election management process through September 30, 2005. In addition, when possible, the Department has provided information on reforms since September 30, 2005 and those that are currently in the process of being implemented.

In 2001, the State of Louisiana began utilizing paper ballots that are read through paper ballot optical scanning machines rather than utilizing punch cards for absentee voting by mail.

Louisiana certified voting systems for six vendors for use in Louisiana. On August 9, 2005, a request for proposal was issued to six vendors for the procurement of a new statewide voting system. On October 31, 2005, Louisiana announced that Sequoia Voting Systems, Inc. was selected to replace all lever-operated voting machines with AVC Advantage Full Face DRE Voting Units for election day voting. On December 13, 2005, the Department entered into a contract with Sequoia Voting Systems, Inc., and all HAVA compliant AVC Advantage Full Face DRE Voting Units are presently being installed for use in various parishes to replace lever-operated voting machines.

The Department of State is responsible for preparing all narrative and financial reports. The required SF-269 financial reports for Title I, Section 102 were completed and submitted to the U.S. Government Services Administration (GSA) for the period ending December 31, 2003 and to the Elections Assistance Commission for the period ending December 31, 2004. For the period ending December 31, 2005, the SF-269 financial reports for Title I, Section 102 are hereby submitted to the Election Assistance Commission with this narrative report and

ORIGINAL

expenditure summary. Please note that narrative reports were not required until after December 31, 2004.

The Department has been monitoring all performance goals required under HAVA. In addition, the Department has continually managed all election activities affected by HAVA to ensure that all requirements of the State Plan are being met. This is an on-going process that will continue through the completion of all goals established in the State Plan. Fiscal management has proven to be extremely important to guarantee that all federal and state funds are expended in accordance with the directives and estimates detailed in the State Plan. The Department has been and will continue to monitor all fiscal activities to ensure that the Department is complying with the requirements of OMB Circular A-87 and state law.

The Department is currently in the process of reviewing the Louisiana's State Plan to determine if any significant modifications need to be made to the Plan.
