RE: Permission to replace SysTest Labs.

Dear Mr. Hancock:

We were informed on October 29, 2008 that EAC intends to suspend our selected VTSL, SysTest Labs, based on the suspension of this laboratory's accreditation by NIST/NVLAP. As a result, we are requesting written permission to replace SysTest Labs with iBeta Quality Assurance, an accredited VTSL. Your written permission for this change is required, as cited in section 4.3.1.2., *Selection of Accredited Laboratory*, of the EAC Voting System Testing and Certification Program Manual.

As SysTest Labs was in the midst of testing our ASSURE 1.2 products, your prompt attention to this matter would be greatly appreciated.

Sincerely:

Talbot Iredale, P.Eng.
