Standard Form 425
Arizona’s 2018 HAVA Election Security Grant Narrative Report
Federal Fiscal Year 2018

The State of Arizona was awarded $7,463,675 under the 2018 HAVA Election Security Grant program to be expended in accordance with the requirements of Title I Section 101 of the Help America Vote Act (HAVA) of 2002 (P.L. 107-252). The State has and will use the grant funds for authorized expenditures as outlined in HAVA to:

1. Replace voting equipment that only records a voter’s intent electronically with equipment that utilizes a voter verified paper record;
2. Implement a post-election audit system that provides a high level of confidence in the accuracy of the final vote tally;
3. Upgrade election related computer systems to address cyber vulnerabilities identified through Department of Homeland Security, or similar scans or assessments of, existing election systems;
4. Facilitate cybersecurity training for the state chief election official’s office and local election officials;
5. Implement established cybersecurity best practices for election systems; and
6. Fund other activities that will improve the security of elections for Federal office.

For the reporting period October 1, 2017 – September 30, 2018, the State expended funds provided under this grant for the following:

- $13,160.27 in personnel costs for an IT-Temp employee responsible for cybersecurity initiatives for the agency.

In January 2019, Arizona’s newly-elected Secretary of State (SOS), the state’s Chief Elections Officer, and her administration’s leadership team transitioned into office with a commitment to election security, integrity, and transparency. Following a recent review of HAVA expenditures, the SOS’s office has determined the expenditures for the reporting period were erroneously expended out of HAVA funds because they were not expended for elections-specific cybersecurity. As a result, the SOS is taking proactive measures to resolve this error by transferring $13,160.27 out of the 2018 HAVA Election Security Grant fund. The transfer transaction will take place during federal fiscal year 2019 and will be reflected in next year’s report.

The new SOS administration is working on: (1) developing and implementing a short, medium, and long-term elections security plan; (2) completing development and implementation of a new statewide voter registration database that addresses security-related vulnerabilities and ensures protection of voters’ information and integrity of the voter rolls; and (3) allocating available funds to each county through sub-grants and working closely with those counties to address their specific elections security needs. These expenditures will be reflected in the next federal financial reporting period.
