

**2022 U.S. Election Assistance Commission (EAC)  
Annual Employee Survey (AES)  
3-Year Results Comparison for 2022 vs. 2020/2019**

March 2023

This following report outlines the results for the 2022 U.S. Election Assistance Commission Annual Employee Survey compared to the 2020 and 2019 results. 39 employees responded to the survey, for a final response rate of 83% (39/47).

## 2022 Annual Employee Survey (AES) *Changes for 2022*

For the 2022 administration of the EAC AES, the survey underwent a few changes. Outlined below are the changes, with the primary change being an update to the dating and naming convention for the survey.

### Dating and Naming Convention Changes

Historically, the naming convention for each administration of the AES has been based on the dates the perceptions were reflecting. For example, the 2017 AES report summarized data collected late 2017 and/or early 2018 to reflect 2017 perceptions. Similarly, the 2016 AES report summarized data collected late 2016 and/or early 2017 to reflect 2016 perceptions. During the COVID-19 pandemic, however, survey cycles were disrupted causing significant delays in the administration of both the official OPM Federal Employee Viewpoint Survey (OPM FEVS) and the EAC AES, and while the EAC AES timeline shifted substantially, the naming convention did not and stayed consistent with the chronological order of years rather than the perceptions they were reflecting. Thus, the surveys labeled 2020 and 2019 actually reflect 2021 perceptions and 2020 perceptions, respectively. To return to the historical naming convention, this AES report (2022), has been adjusted to be consistent with the time period reflected in the results (i.e., 2022 perceptions are reported in the 2022 report). For consistency with previous reports, previous years will remain labeled as they were labeled when administered. It should also be noted that there was not a lapse in the administration of the survey in 2021. The survey administration dates are outlined below.

#### Survey Administration Dates

**2022:** January 11, 2023 - February 10, 2023

**2020:** December 8, 2021 - January 10, 2022

**2019:** November 16, 2020 - December 29, 2020

### Other Survey Changes

The 2022 survey remained relatively similar to the previous iterations of the AES; however, there was the addition of a new item ("I believe the results of this survey will be used to make my agency a better place to work") as well as updates to the telework items to be more consistent with EAC's current telework options. While no survey items were removed, items in the survey were reorganized to create more consistent themes within the sections.

**2022 Annual Employee Survey (AES)  
3-Year Results Comparison for 2022 vs. 2020/2019**

This is a summary of changes in scores for 2022 vs the 2020/2019 U.S. Election Assistance Commission AES. The margin of error is  $\pm 6.54$  and is used to establish the meaningful difference criteria. Differences must be greater than the margin of error (at least 7 percentage points) to be considered meaningful (e.g., 85% vs. 92%).

**Work Experiences (Items 1 - 8)**

There were three notable increases in percent favorable for the work experiences items.

- ▲ Favorability increased by 8 percentage points for item 2: "I am given a real opportunity to improve my skills in my organization" since 2020 and 10 percentage points since 2019.
- ▲ Favorability increased by 10 percentage points for item 3: "My work gives me a feeling of personal accomplishment" since 2020.
- ▲ Favorability increased by 8 percentage points for item 4: "I like the kind of work I do" since 2020 and 9 percentage points since 2019.

**Recruitment, Development, & Retention (Items 9 - 14)**

There was one notable increase and one notable decrease in percent favorable scores for the recruitment, development, and retention items.

- ▲ Favorability increased by 8 percentage points for item 9: "The workforce has the job-relevant knowledge and skills necessary to accomplish organizational goals" since 2020.
- ▼ Favorability decreased by 9 percentage points for item 11: "Policies and programs promote diversity in the workplace (for example, recruiting minorities and women; training in awareness of diversity issues; mentoring)" since 2020.

**Performance Culture (Items 15 - 24)**

There were three noteworthy increases in percent favorable scores for the performance culture items.

- ▲ Favorability increased by 7 percentage points for item 19: "In my work unit, differences in performance are recognized in a meaningful way" since 2020.
- ▲ Favorability increased by 11 percentage points for item 21: "My performance appraisal is a fair reflection of my performance" since 2020 and 25 percentage points since 2019.
- ▲ Favorability increased by 7 percentage points for item 24: "My supervisor supports my need to balance work and family issues" since 2020.

**Leadership (Items 25 - 33)**

There were three notable increases in percent favorable responses for the leadership items.

- ▲ Favorability increased by 8 percentage points for item 28: "I have trust and confidence in my supervisor" since 2020 and 14 percentage points since 2019.
- ▲ Favorability increased by 8 percentage points for item 29: "Overall, how good a job do you feel is being done by your immediate supervisor?" since 2020.
- ▲ Favorability increased by 8 percentage points for item 30: "I have a high level of respect for my organization's senior leaders (Commissioners, executive director, and legal counsel)" since 2020 and 15 percentage points since 2019.

## 2022 Annual Employee Survey (AES) 3-Year Results Comparison for 2022 vs. 2020/2019

This is a summary of changes in scores for 2022 vs the 2020/2019 U.S. Election Assistance Commission AES. The margin of error is  $\pm 6.54$  and is used to establish the meaningful difference criteria. Differences must be greater than the margin of error (at least 7 percentage points) to be considered meaningful (e.g., 85% vs. 92%).

### **My Satisfaction** (Items 34 - 42)

There were two marked decreases in percent favorable scores for the my satisfaction items.

- ▼ Favorability decreased by 9 percentage points for item 36: "How satisfied are you with your opportunity to get a better job in your organization?" since 2020, but is up 13 percentage points since 2019.
- ▼ Favorability decreased by 10 percentage points for item 39: "How satisfied are you with the training you receive for your present job?" since 2020.

### **My Agency** (Items 43 - 49)

There were two notable increases in percent favorable responses and one noteworthy decrease for the my agency items.

- ▼ Favorability decreased by 13 percentage points for item 43: "I have sufficient resources (for example, people; materials; budget) to get my job done" since 2020 and 8 percentage points since 2019.
- ▲ Favorability increased by 10 percentage points for item 44: "Physical conditions (for example, noise level, temperature, lighting, cleanliness in the workplace) allow employees to perform their jobs well" since 2020 and 21 points since 2019.
- ▲ Favorability increased by 14 percentage points for item 47: "I can disclose a suspected violation of any law, rule or regulation without fear of reprisal" since 2020 and 23 points since 2019.

2022 Annual Employee Survey (AES)						
Overall Results by Year						
This is a comparison report of the U.S. Election Assistance Commission's 2022, 2020, and 2019 Annual Employee Survey results. This report displays results by Favorable, Neutral, and Unfavorable responses. "Favorable" is categorized by the sum of "Strongly Agree" and "Agree" response options, "Very Good" and "Good," or "Very Satisfied" and "Satisfied," depending on the question. "Neutral" is categorized by the "Neither" or "Fair" response option, depending on the question. "Unfavorable" is categorized by the sum of the "Strongly Disagree" and "Disagree" response options, "Very Poor" and "Poor," or "Very Dissatisfied" and "Dissatisfied," depending on the question. All of the data in this report is considered unweighted.

## 2022 Annual Employee Survey (AES) *Comment Summary*

This is a summary of the open ended comments - what EAC is doing well and what EAC should change.

### **What EAC is doing well:**

- A collaborative work environment including across divisions/departments; strong working relationships and personal rapport among EAC staff.
- Remote and telework options make it possible to recruit and retain strong candidates.
- Staff is focused on the mission and works diligently to help the agency achieve the mission and strategic goals.
- EAC is forward focused and growing through its initiatives and goals; identifies opportunities where EAC can engage with stakeholders.
- Directors are given space and authority to ensure they can effectively manage their teams, while workers are allowed independence including leeway to propose new or innovative ways of doing work.
- EAC demonstrates a commitment to building a workforce with the necessary expertise, and staff is knowledgeable and dedicated.

### **What EAC should change:**

- More flexibility including schedules and ability to work remotely or return to the office if desired.
- More opportunities for employee development and training.
- Administrative and support roles are understaffed, and staff are overworked.
- Most operational units have just enough staff to manage the existing workload, and this poses risks for mistakes or errors as staff can be spread thin and subject to burnout.
- Communication needs to increase across the board ranging from high-level decisions down to job opening notifications.
- Possible increased pay to be consistent with similar government positions, but the pay cap for commissioners set by Congress impacts agency staff; pay makes it difficult to recruit and retain qualified talent.
- Concerns regarding approval processes including the time it takes and the approver's ability to have an adequate view of all operations when making decisions; would like to see it streamlined.
- Develop and deploy more standard operating procedures; close the gap between the official documented policies and what is actually enforced (e.g., onboarding/offboarding and addressing employee performance).
