**Re: MicroVote Engineering Change Order 136**

Dear Bernie Hirsch,

The EAC has reviewed Engineering Change Order (ECO) 136, including supporting documentation and analysis provided by the voting system test lab. The ECO impacts the MicroVote EMS 4.0, 4.0B, 4.1, 4.2, 4.3-A, 4.4, and 4.41 systems. This minor change to the end-of-life components for the Infinity and VVPAT does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

This correspondence is to inform you that MicroVote ECO 136 is approved.

Sincerely,

---

Jonathan Le
