**Re: Unisyn Voting Solutions ECO NCC-1030**

Dear Mr Ortiz,

This correspondence is to inform you that the EAC has reviewed Engineering Change Order (ECO) NCC-1030, including supporting documentation and analysis provided by the voting system test laboratory, and are satisfied that this minor change to the system does not affect the system's reliability, functionality, capability, or operation. As a result, Unisyn ECO NCC-1030 is approved.

Sincerely,

---

Paul Aumayr
