Errata Note: 2016 EAVS Comprehensive Report and Accompanying Dataset

December 18, 2023

The states of Vermont and Washington requested to make corrections to their data submissions for the 2016 EAVS following the initial publication of the comprehensive report and dataset on June 29, 2017. These corrections are documented below.

2016 Election Administration and Voting Survey Dataset

The corrections listed below are reflected in Version 1.1 of the 2016 EAVS dataset released in December 2023, the corrections were originally made in July 2017 in a separate data file which only presented the updated numbers and was not combined with the full dataset. Version 1.1 corrects that omission.

- All Washington jurisdictions provided updated inactive voter numbers (A3b), total
 confirmation notices sent (A10a), total voters removed because they failed to respond to the
 notice sent and failed to vote in the two most recent federal elections (A11e), total number of
 ballots transmitted to UOCAVA voters (B1a), the number of UOCAVA ballots returned and
 submitted for counting (B2a), total number of UOCAVA ballots counted (B8a), and total
 number of UOCAVA ballots rejected in (B13a). Statewide and nationwide A3b, A10a, A11e,
 B1a, B2a, B8a, and B13a totals did change.
- Twenty-two Vermont jurisdictions updated F1a data (in-person voting at a physical polling place on Election Day), statewide and nationwide F1a totals did change.
