Re: Dominion Voting Systems Corp ECO DVS-100961 Submitted for Approval

Dear Victor Vasquez

The EAC has reviewed Engineering Change Order **DVS-100961**, including supporting documentation and analysis provided by the voting system test lab. This ECO added a Dell PowerEdge R660 as an alternate to the existing Dell PowerEdge R640 Standard EMS Server. The R640 has become commercially unavailable for purchase. The new server has been qualified and is compatible with any D-Suite version running Windows Server 2019 or Windows Server 2022. This minor change does not alter the system reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The EAC certified systems impacted by this ECO are:

Democracy Suite 5.17

This correspondence is to inform you that Dominion Voting Systems Corp **DVS-100961** is approved.

Sincerely,

Sean Pumphrey
Election Technology Specialist, U.S. Election Assistance Commission
