- This template is meant to be printed double-sided (flipped on the short edge) on lettersize paper and folded in half to create a booklet.
- Replace the seal with your own county or state seal
- Be sure to update the design with your own county's name and relevant dates
- Change or switch out terms that your jurisdiction uses (for example, absentee voting instead vote by mail voting)
- If your county's website link does not fit the provided spaces, work with your IT team to create a shortened or vanity URL that is simple and easy to remember.
 - E.g., vote.state.gov/register or govote.state.gov
- You can change the colors to better match your organization's branding. If you do so, be sure there's enough color contrast to make it accessible.
- This template uses the Noto Sans font family available through [Google Fonts](https://fonts.google.com/specimen/Noto+Sans). Noto Sans is a legible font with robust language support. If you cannot use Noto Sans, you can use Calibri.
- Export the file as a PDF to get printed professionally.
