Re: Unisyn Voting Solutions ECO 1031 Submitted for Approval

Dear Chris Ortiz

The EAC has reviewed Engineering Change Order **ECO 1031**, including supporting documentation and analysis provided by the voting system test lab. This minor change adds an 8GB USB drive to be used as a direct replacement for the currently certified 1GB USB. This minor change does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The system impacted by this ECO is OpenElect 2.2.

This correspondence is to inform you that Unisyn Voting Solutions **ECO 1031** is approved.

Sincerely,

Frank Galizia
Field Services Specialist
U.S. Election Assistance Commission
