Re: Election Systems & Software, Inc (ES&S) ECO-1185 Submitted for Approval

Dear Ms. Sue McKay

The EAC has reviewed Engineering Change Order **ECO-1185**, including supporting documentation and analysis provided by the voting system test lab. This minor change includes a new replacement motor mount assembly bracket that will be mounted to the existing Paper Path Motor (PPM) side panel (using existing mounting holes) eliminating the need to replace the entire side panel and does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The EAC certified systems impacted by this ECO are:

EVS 5.2.0.0	EVS 5.4.1.0	EVS 5.2.1.1	EVS 6.0.4.3
EVS 5.2.0.3	EVS 6.0.0.0	EVS 5.2.3.0	EVS 6.0.6.0

EVS 5.2.4.0	EVS 6.4.0.0	EVS 6.0.4.0	

This correspondence is to inform you that **ECO-1185** is approved.
