Re: Clear Ballot Group, Inc. DEV-4112 Submitted for Approval

Dear Rosemary Fedorchak,

The EAC has reviewed Engineering Change Order **DEV-4112**, including supporting documentation and analysis provided by the voting system test lab. This minor change adds the Dell OptiPlex XE4 device as a COTS ScanStation to ClearVote 2.3 due to the end of production life status for the current model (Dell Optiplex XE3) and does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:
ClearVote 2.3

This correspondence is to inform you that Clear Ballot Group, Inc. **DEV-4112** is approved.

Sincerely,

Elizabeth Beatrice
Election Technology Specialist
U.S. Election Assistance Commission
