Re: Election Systems & Software, Inc (ES&S) ECO-1193 Submitted for Approval

Dear Sue McKay

The EAC has reviewed Engineering Change Order **ECO-1193**, including supporting documentation and analysis provided by the voting system test lab. This minor change introduces an update to the DS300 Scanner Board Field Programmable Gate Array (FPGA) code, for use in new production and spare parts, does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

EVS 6.3.0.0
EVS 6.4.0.0
EVS 6.5.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1193** is approved.

Sincerely,

Thomas Freitag
Field Services Specialist
U.S. Election Assistance Commission
