Approval of KNOWiNK Poll Pad v.3.6 System Change KNO-00001

Dear Mr. Milleville,

This letter is to inform you that the U.S. Election Assistance Commission (EAC) has reviewed the system change (**KNO-00001**) submitted by KNOWiNK for the EAC-approved Poll Pad v.3.6 electronic poll book. The EAC agrees with the manufacturer's determination that this change is to be classified as a minor change, in alignment with the criteria as specified in Chapter 7 of the EAC's Election Supporting Technology Evaluation Program Manual (ESTEP Manual). Based on the information provided, it has been determined that no further testing is necessary and the EAC officially approves of this change.

The scope of this change is as follows:

Affected EAC-Certified System Code: KNO-EPB-PP-3.6

System Change Code: KNO-00001

Description: This minor change documents the addition of the Apple 11th Generation iPad as a display device for the Poll Pad due to the Apple 10th Generation iPad reaching end-of-life. The EAC conducted a review of the supporting technical documentation and determined that this change will not adversely affect the system's reliability, functionality, capability, or operation. The EAC approves the use of the Apple 11th Generation iPad as a replacement in new or existing installations for all Poll Pad system configurations.

If you have any questions regarding the approval of this system change or need further information, please contact epb@eac.gov. Thank you for your time and attention to this matter.

Sincerely,

Elizabeth Beatrice
Election Technology Specialist
U.S. Election Assistance Commission
