1.3 PROTESTS

1.3.1 Protest of Specifications

Any Proposer requiring clarification of the provisions of this RFP must submit specific questions in writing to the County Procurement Analyst listed on the cover page of this RFP. Any Proposer protesting any provision in this RFP must submit protest(s) in writing to the County's assigned Procurement Analyst listed on the cover page of this RFP. Any protest must address the requirement, provision or feature of this RFP or its attachments, including but not limited to the contract, that the potential Proposer believes is ambiguous, unclear, unfair, contrary to law or likely to limit competition. The purpose of this deadline is to allow the County time to correct any term or condition in this RFP or contract that may be unlawful, improvident, unduly restrictive of competition, or otherwise inappropriate. By allowing corrections before opening Proposals, the County intends to avoid or minimize much of the waste inherent in protests and in the possible rejection of all Proposals. Failure of a Proposer to protest in accordance with this section shall be deemed acceptance of the

terms of this RFP and contract, and a waiver of Proposer's rights to later contend that either the RFP or contract is ambiguous, unclear, unfair, contrary to law or likely to limit competition.

The deadline for submitting questions or protests is 4:00 P.M. on the date listed in the timeline. If Multnomah County determines that additional information or clarification is necessary, such information or clarification will be supplied in addenda that will be sent by e-mail or mail to all persons or firms that have received the Notice of Open Solicitation from Purchasing, registered on the Purchasing website for this solicitation, or who signed-in at the pre-proposal conference (if held). Available addenda may also be downloaded from the Purchasing website www.multcopurch.org. All such addenda shall have the same binding effect as though contained in the main body of the Request for Proposals. Oral instructions or oral information concerning the specifications from County managers, employees or agents to prospective Proposers shall not bind Multnomah County. Purchasing shall issue all Addenda not less than five (5) calendar days prior to the proposal deadline.

After closing, Multnomah County reserves the right to issue Addenda to all Proposers who submitted proposals, or to those Proposers determined to be in the Competitive Range, if applicable, in order to communicate program requirements and arrangements and other information as determined necessary by the County.

1.3.2 Protests of Intent to Award

The following procedure applies to Proposers who wish to protest a disqualification of proposal or award of contract:

1. All protests must be in writing and physically received by the Purchasing Manager no later than 4:00 P.M. on the fifth (5th) working day after the postmarked notice of intent to award or disqualification.

Address protests to:

PROTEST OF AWARD OR DISQUALIFICATION TO RFP NO. 4000003145

ATTN: Purchasing Manager

Multnomah County Purchasing

501 SE Hawthorne Blvd Suite 125

Portland OR 97214

2. Proposers may protest only deviations from laws, rules, regulations, or procedures. Protests must specify the grounds for the protest including the specific citation of law, rule, regulation, or procedure upon which the protest is based. The judgment used in scoring by individual evaluators is not grounds for protest. **Disagreement with the judgment of evaluators may not be protested.**

Protests not filed within the time specified in paragraph 1, above, or which fail to cite the specific law, rule, regulation, or procedure upon which the protest is based shall be dismissed.

1.4 REALISTIC PROPOSALS

It is the expectation of the County that proposers can fully satisfy the obligations of the proposal in the manner and timeframe defined within the proposal. Proposals must be realistic and must represent the best estimate of time, materials and other costs including the impact of inflation and any economic or other factors that are reasonably predictable.

Multnomah County shall bear no responsibility or increase obligation for a Proposer's failure to accurately estimate the costs or resources required to meet the obligations defined in the proposal.

1.5 CLARIFICATION OF RESPONSES

Multnomah County reserves the right to request clarification of any item in a Proposer's proposal or to request additional information prior to evaluation necessary to properly evaluate a particular proposal. All requests for clarification and responses shall be in writing and issued through the assigned Procurement Analyst from Purchasing. Except for requests and responses related to a clarification necessary to evaluate whether a

proposal has met minimum requirements, all requests for clarification and responses shall be provided to each evaluator.

1.6 REJECTION OF PROPOSALS

Multnomah County reserves the right to reject any or all responses to this Request for Proposal if deemed in the best interest of the County.

Multnomah County reserves the right to:

1. Award a contract in part;
2. Reject any and all proposals in whole or in part; and
3. To waive technical defects, irregularities and omissions if, in its judgment, the best interests of the County will be served.

1.7 COST OF PREPARATION OF RESPONSE

Costs incurred by any Proposer in preparation of a response to this Request for Proposal shall be the responsibility of the Proposer.

1.8 CONFIDENTIALITY

Multnomah County is required to disclose non-exempt public documents pursuant to ORS 192.410-192.505). ORS 192.502(4) exempts the County from disclosing information submitted in response to a solicitation where the information is such that it "should reasonably be considered confidential."

A Proposer who determines that information within a proposal meets the statutory requirement and desires that such information remain confidential shall mark the bottom of the pages containing such information with the word "CONFIDENTIAL." Confidential statute being referenced should be noted at the beginning of confidential section; the end of confidential section should also be clearly marked.

If a Proposer marks every page of a proposal as "CONFIDENTIAL", the statutory requirement is not met; any proposal so marked will not be deemed to have been submitted in confidence, and upon request, the entire proposal will be disclosed.

The County will keep properly marked information confidential unless ordered to release the information and materials by the District Attorney pursuant to ORS 192.460.

After award, the contract executed by the County and the successful Proposer will be a public document subject to disclosure. No part of the contract can be designated as confidential.

1.9 REFERENCES

The County reserves the right to investigate references including customers other than those listed in the Proposer's submission. Investigation may include past performance of any Proposer with respect to its successful performance of similar projects, compliance with specifications and contractual obligations, its completion or delivery of a project on schedule, and its lawful payment to employees and workers or any other criteria as determined by Multnomah County.

1.10 PUBLICITY

Any publicity giving reference to this project, whether in the form of press releases, brochures, photographic coverage, or verbal announcement, shall be done only after prior written approval of Multnomah County Purchasing and the Public Affairs Office.

1.11 CANCELLATION

Multnomah County reserves the right to cancel this solicitation any time before execution of a resulting contract by both parties if cancellation is deemed to be in Multnomah County's best interest. In no event shall Multnomah County have any liability for the cancellation of this solicitation.

1.12 DISPUTES

In case of any doubt or differences of opinions regarding the items or service to be furnished hereunder, or the interpretation of the provisions of the RFP, the decision of Multnomah County shall be final and binding upon all parties.

1.13 COLLUSION

A Proposer, submitting a proposal hereby certifies that no officer, agent, or employee of Multnomah County has a financial interest in this proposal; that the proposal is made in good faith without fraud, collusion, or connection of any kind with any other Proposer and that the Proposer is competing solely on its own behalf without connection or obligation to any undisclosed person or firm.

1.14 CERTIFICATION REGARDING CONFLICT OF INTEREST

Proposers are required to certify (in the Proposer Representations and Certifications Attachment 1) whether the Proposer is or is not aware of any potential organizational conflict of interest (COI). If the Proposer is aware of a conflict, then Proposer is required to provide a disclosure statement in its proposal describing all relevant information concerning any past, present, or planned interests bearing on whether it (including its chief executives and any directors, or any proposed consultant or subcontractors) may have a potential organizational conflict of interest. Proposers responding to this solicitation are required to disclose any such business or financial relationships. The disclosure statement must identify and address any actual or potential organizational COI within the Proposer's entire organization, including parent company, sister companies, affiliates, and subsidiaries. In addition to identifying potential organizational COI, the disclosure statement shall describe how any such conflict can be avoided, neutralized, or mitigated. Also, all contractors shall disclose any actual or potential COI. The County Attorney will determine a proposer's eligibility for award based on the information provided in the disclosure statement.

1.15 LOCAL PURCHASING PREFERENCE

Multnomah County desires to employ local businesses in the purchase or lease of any personal property, public improvements or services to support the local economy in the State of Oregon so that residents benefit from local employment opportunities that are generated. Therefore, Multnomah County shall prefer goods or services that have been manufactured or produced by an Oregon business if price, fitness, availability, and quality are otherwise identical.

1.16 SUSTAINABLE PURCHASING

In 2010, Multnomah County initiated a new Sustainable Purchasing and Social Equity Policy that demonstrates support for our sustainability goals by integrating environmental stewardship and social equity, as well as fiscal responsibility, into the procurement process. The County seeks to partner with suppliers who demonstrate a commitment to these considerations. Examples of such practices include but are not limited to: resource conservation, waste reduction, minimized paper use, and use of alternative transportation methods among other sustainable best practices.

The County recognizes that suppliers can take multiple paths, ranging from simple to complex, to help support these goals. The list below is meant to guide Proposers as they describe their sustainable practices within their RFP responses.

1. Comprehensive energy conservation measures;
2. Renewable energy use;
3. Water conservation measures;
4. Waste management and reduction plans;
5. Alternative fuels and transportation plans;
6. Sustainable purchasing;
7. Supplier diversity;
8. Fair trade and labor policies; and
9. Community engagement and support for underserved populations.

1.17 EEO CERTIFICATION REQUIREMENT

Contracts in excess of \$75,000 which originate from this RFP are subject to the County's Equal Employment Opportunity (EEO) requirements, as outlined in PCRB 60-0040 and the sample Multnomah County contract attached to this RFP. Contractors must be certified before a contract is executed.

County shall pay the invoice within 30 calendar days unless otherwise provided in Exhibit 1 of the finalized contract.

PART 2 – SCOPE OF SERVICES/SOLUTION REQUIREMENTS, FUNDING AND CONTRACTING INFORMATION

2.0 PURPOSE AND OVERVIEW

The Multnomah County Department of Community Services, Elections Division is seeking Proposers from whom it may purchase a Ballot Tally System. This solution and its associated services are intended to assist the voters of Multnomah County, Elections Division Staff, and Secretary of State Elections Division Staff.

Major requirements include:

- Installation of new hardware, software and any other technology components required to support the system, such as a standalone local area network.
- Training
- Integration, User Acceptance and Performance/Stress Testing
- Report development
- Converting past election definition and results data to the new system

2.1 INTRODUCTION AND PROGRAM HISTORY

Multnomah County Elections conducts all local, city, county, state and federal elections for the citizens of Multnomah County. Local elections include boards of directors for schools and special districts as well as local measures. City elections include those for city offices as well as annexations and other city issues. County elections are for county officers and county measures. State elections include Oregon House and Senate races as well as state-wide offices and state measures. Federal elections include Congressional, US Senate and Presidential races.

Multnomah County's optical scan tally machines (ES&S M650) and software have been in use since 2003. The 650s continue to count ballots accurately but due to their age have a high rate of mechanical failure and require almost hourly cleaning and maintenance during peak use. The 650s also have a very low rate of throughput at about 1,000 ballots per hour for 17 inch ballots and about 2,000 ballots per hour for 14 inch ballots. Elections currently owns six 650s but during large election cycles, rents three additional 650's to ensure that ballots can be counted in a timely fashion despite significant downtime due to mechanical failure.

Since 2003, the industry has been moving away from optical scan in favor of digital imaging. Digital imaging technology has several advantages over optical scan including greater throughput and a digitally captured image of every paper ballot. New systems can process ballots eight times faster than the County's current system.

2.2 GOALS, VALUES AND OTHER IMPORTANT CONSIDERATIONS

The County seeks to achieve the following goals by implementing the new solution:

- Boost system throughput for vote capture. The current machines can process about 1000 ballots per hour for 17 inch ballots and about 2000 ballots per hour for 14 inch ballots. The County seeks to realize significant improvements over current system capacity.
- Make the tabulation of votes speedier and improve the efficiency of the ballot adjudication process.
- Maintain high standards for ballot design and production.
- Enhance audit capabilities, transparency and openness to public scrutiny.
- Upgrade reporting capabilities.
- Improve system administration.

2.3 TARGET POPULATION SERVED

The target audience to be served by this purchase is the staff of the County Elections Division and the voters of Multnomah County.

2.4 FUNDING

Multnomah County IT has budgeted \$500,000 for the software, hardware and implementation costs associated with this solicitation.

2.5 MULTNOMAH COUNTY TECHNICAL ENVIRONMENT

The system will reside in the Multnomah County Elections building at 1040 SE Morrison St, Portland, Oregon. The equipment will be installed in a standalone room, which is isolated completely from the rest of the Elections division facility. The drawing below describes the existing network infrastructure in the room.

1. There are 10 available CAT5E data drops, arranged in a semi-circle (on the ceiling). They terminate on a dedicated patch panel, with no connection to external or building networks.
2. A single 10/100Base-T switch resides within the rack supporting the patch panel. It has no connections to any external network.
3. The current tally server and storage reside in the same rack (and are connected to the switch directly).
4. Additional data drops could easily be added, if needed.

2.6 SCOPE OF SERVICES/SOLUTION REQUIREMENTS

2.6.1 Functional Requirements

The overall scope of the project is to replace the existing ballot tally machines and the current Election Management System, including election definition, ballot design, ballot tabulation and results reporting.

Much of the basic functionality of voting systems is dictated by federal certification requirements. Therefore this section focuses on defining key requirements that are specific to Multnomah County or that are considered critical. The proposed solution must have the ability to:

1. Process voted ballots up to 7 days before Election Day and suppress election results until 8 pm on election night.
2. Process typical ballot volumes experienced by Multnomah County in a reasonable timeframe and should enable to county to improve its current throughput. For example, in the 2012 Presidential election, 367,992 ballots were cast. 43% of ballots received came in on the day before or the day of the election. Additional data on past elections is available at the elections website at <http://multco.us/elections/archived-results-and-history>.
3. Import election definition data from the OCVR (Oregon Centralized Voter Registration) system.
4. Output ballots for printing by 3rd party service providers, or using other County systems such as the ballot on demand system.

5. Extract election results and format them for publishing on the County's web site.
6. Support centralized tallying of paper ballots.
7. Extract data for publishing to the state of Oregon reporting system (ORESTAR).
8. Guarantee the security and integrity of election data.
9. Enable the County to create and design ballots in house.
10. Import past election definition and results data to the new system.
11. Enable the County to achieve goals defined in Section 2.2

2.6.2 Technical Requirements

The system must, by design, be isolated from the rest of the County's IT environment, and we expect the vendor to be responsible for supporting both hardware and software components of the system on an ongoing basis. As such, we do not have specific technical requirements other than any technical requirements required for certification by the State of Oregon. The County has a preference for a system that is architected, from both a software and hardware standpoint, to be flexible enough to:

1. Accommodate future changes in functional requirements
2. Leverage new technologies
3. Enable the vendor to deliver software patches and upgrades in a timely manner

2.6.3 Implementation Requirements

1. The County expects the solution to be fully implemented by September 1, 2015.
2. County expects a turn-key solution. Proposer will be responsible for procuring and installing all hardware components of the solution and for installing and configuring all software components of the solution.
3. In addition, the proposer will provide training to Multnomah County Elections staff on how to use, maintain and administer the system.

2.7 FISCAL REQUIREMENTS AND REPORTING

Not Used

2.8 PERFORMANCE MEASURES/PERFORMANCE CONTRACTING

Not Used

2.9 CONTRACT NEGOTIATION

The County will initiate contract negotiations with the responsive and responsible Proposer with the highest scoring proposal. Multnomah County may, at its option, elect to negotiate general contract terms and conditions, services, pricing, implementation schedules, and such other terms as the County determines are in the County's best interest. If negotiations fail to result in a contract, the County reserves the right to terminate the negotiations and initiate contract negotiations with the next highest scoring responsive and responsible Proposer. This process may continue until a contract agreement is reached.

2.10 CONTRACT AWARD

Through this RFP process, the County is seeking to award one contract. Award, as determined by the County, will be made to the responsible Proposer whose Proposal the County determines is most advantageous to the County based on the evaluation process and evaluation factors described in this RFP.

The County reserves the right to select Proposers who have submitted a proposal scoring fewer points than a higher scoring proposal based on the Proposer's ability to best meet the County's programmatic needs. If a Proposer who has submitted a proposal that has scored fewer points is recommended for selection, the Board of County Commissioners must approve the award.

Multnomah County strongly encourages the participation of Minority-Owned, Women-Owned, and Emerging Small Businesses and Organizations in providing these services.

2.11 CONTRACT TERM

Fixed term with options.

The contract term shall be three (3) years. The County shall have the option to renew this contract for three (3) additional one (1) year period(s).

2.12 COMPENSATION AND METHOD OF PAYMENT

Compensation method for implementation services and hardware: deliverables-based payments upon acceptance with a not to exceed cap.

Compensation method for ongoing services, software maintenance and support or subscriptions, etc. will be subject to negotiation once the County has selected a Proposer.

2.13 COOPERATIVE PURCHASING

Other public agencies may establish contracts or price agreements directly with the awarded contractor under the terms, conditions and prices of the original contract Pursuant to ORS 279A.215 and agreement by the selected Contractor to extend the terms, conditions and prices of the original contract.

2.14 INSURANCE REQUIREMENTS

The Proposer awarded a Contract as a result of this RFP will be required to provide the insurance described in Exhibit 2 of the attached Multnomah County Services Contract.

Minimum insurance requirements:

Type of Insurance	Per Occurrence	Aggregate
Professional Liability	\$1,000,000	\$2,000,000
Commercial General Liability	\$1,000,000	\$2,000,000
Commercial Automobile Liability	\$1,000,000	N/A
Worker's Compensation	Required per ORS 656.017; not less than \$500,000	

PART 3 – PROPOSAL EVALUATION, QUESTIONS AND INSTRUCTIONS

3.0 MULTI-TIERED PROCUREMENT OVERVIEW

- In the first step, Multnomah County will evaluate written proposals and make a determination of competitive range.
- In the second step, Multnomah County will evaluate an on-site product demonstration and oral evaluation.
- In the third step, Multnomah County may, in its sole discretion, exercise its option for Discussions and Best and Final Offers (BAFO).

3.1 EVALUATION PROCESS AND SCORING SUMMARY

3.1.1 Evaluation Process and Scoring Summary for Written Proposals

Evaluation of proposals received in response to the RFP will be conducted comprehensively, fairly and impartially. Structured quantitative scoring methods will be used to maximize the objectivity of the evaluation. The evaluation committee of designated reviewers shall review and evaluate proposals. The committee will be composed of individuals with experience in, knowledge of, and program responsibility for program service and financing.

Each evaluator shall independently assign a score to each evaluation criterion based on the written proposals. Then the evaluators shall meet at a Proposal Evaluation Session and share their key findings from each Proposal individually. After sharing their findings, each evaluator shall be given an independent opportunity to revise their draft scores and to finalize them. Final scoring by each evaluator will then be summed.

The written proposal is divided into 11 sections, with points allocated as follows:

Section	Description	Possible Points
3.2.1	Vendor Qualifications	5
3.2.2	General System Requirements	5
3.2.3	Hardware	5
3.2.4	Ballot Design and Preparation	12
3.2.5	Ballot Tabulation	12
3.2.6	Reporting & Data Management	9
3.2.7	Implementation	5
3.2.8	Training	5
3.2.9	Support, Maintenance & Contract	12
3.2.10	Cost Proposal	5
3.2.11	Sustainability & Social Equity	25
TOTAL		100

3.1.2 Determination of Competitive Range

The two (2) highest scoring Proposers will comprise the Competitive Range for the On-Site Product Demonstration and Oral Evaluation, unless the County, in its sole discretion, decides to increase or decrease the Competitive Range based on the following considerations:

1. The County may increase the number of Proposers in the Competitive Range if, in the sole determination of the County, the County determines that there is a natural break in the scores of Proposers indicating a number of Proposers greater than two (2) are closely competitive and have a reasonable chance to be the Most Advantageous Proposer.

2. The County may decrease the number of Proposers in the Competitive Range if, in the sole determination of the County, fewer than two (2) Proposers have a reasonable chance to be the Most Advantageous Proposer.

All Proposers whose Proposals met the minimum requirements will receive written notice of the Proposers who have been determined to be within the Competitive Range. Proposers within the Competitive Range will continue to the next step of evaluation, as outlined in Section 3.1.3 below.

3.1.3 Evaluation Process and Scoring Summary for On-Site Product Demonstration and Oral Evaluation

In the second step of the evaluation process, Proposers will be asked to participate in an on-site product demonstration and oral evaluation at Multnomah County in Portland, Oregon.

Scheduling of product demonstration and oral evaluation will be by rank with the Proposer with the lowest scoring Proposal scheduled first. Additional instructions will be provided to Proposers determined to be within Competitive Range at the time of scheduling.

On-site Product demonstrations and oral evaluations are currently scheduled for March 12 and 13, 2015. Proposers must certify in their proposal that they are available to attend during those days.

In the event that Multnomah County must re-schedule, a representative of the County will contact proposers no less than ten (10) days in advance of the scheduled date. In the event that a Proposer fails to attend the scheduled demonstration, the Proposer will receive a default score of 10% of the total possible points for the demonstration and will be disqualified from further steps in the process.

The evaluation panel may invite others including, but not limited to, potential software end-users, County management, and outside experts to view the product demo to provide input to the evaluation panel.

Multnomah County reserves the right to create audio and video recordings of the product demo and oral evaluation.

The topics for the Proposers to use during this demonstration and oral evaluation are provided in Section 3.3. No additions, deletions or substitutions may be made to written Proposals during the product demonstrations and oral evaluations. After evaluating the written proposals, the County will submit clarifying questions, in advance, to the proposers who are invited to attend the Product Demonstration and Oral Evaluation.

Multnomah County will allow the invited proposers to setup equipment for the product demonstration a day prior to the scheduled evaluation meeting. The County intends to start with the product demonstration and may also ask clarifying questions regarding the demonstration or implementation scenarios provided as a part of the oral evaluation. After the product demonstration, the proposer will be asked to present a brief overview of their proposal and respond to the clarification questions previously provided. The County will have the opportunity to ask additional clarifying questions based upon the day's activities.

A total of 150 points is available for the Demonstration and Oral Evaluation. Proposers will be asked to present on demonstration of the proposed solution, following the script defined elsewhere in the RFP. A total of 75 points will be allocated to the demonstration. The oral evaluation will be based on the same categories as the written proposal, with the same point total, except that the sustainability and social equity section will be excluded. Thus, a total of 75 points will be allocated to the Oral Evaluation. Evaluation criteria will be the same as for the corresponding sections in the written proposal.

The demonstration is divided into the following categories with points allocated as follows:

Section Description	Possible Points
1. Creating an election from OCVR data and generating ballot styles.	20
2. Creating an election from data provided in the RFP and generating ballot styles.	20
3. Demonstration of ballot tabulation using a marked set of test ballots.	35
TOTAL	75

The oral evaluation will be based upon the same categories as in the written proposal, minus the responsible business practices section, with points allocated as follows:

Section	Description	Possible Points
3.2.1	Vendor Qualifications	5
3.2.2	General System Requirements	5
3.2.3	Hardware	5
3.2.4	Ballot Design and Preparation	12
3.2.5	Ballot Tabulation	12
3.2.6	Reporting & Data Management	9
3.2.7	Implementation	5
3.2.8	Training	5
3.2.9	Support, Maintenance & Contract	12
3.2.10	Cost Proposal	5
	TOTAL	75

Each evaluator shall independently assign a score to each evaluation criterion based on the product demonstration and oral evaluation. Then the evaluators shall meet at a Proposal Evaluation Session and share their key findings from each demonstration individually. After sharing their findings, each evaluator shall be given an independent opportunity to revise their draft scores and to finalize them. Final scoring by each evaluator will then be summed. The finalized scores will be added to the score for the written Proposal.

At that time, the County may choose to make its final selection and award to the responsible Proposer whose Proposal the County determines is most advantageous to the County based on the evaluation process and evaluation factors described in this RFP or may, in its sole discretion, choose to exercise its option for Discussions and Best and Final Offer (BAFO) proposals as described in Section 3.4.

3.2 STEP 1: WRITTEN PROPOSAL INSTRUCTIONS AND QUESTIONS

All Proposers must complete the questions under Section 3.2. Proposers failing to achieve 70% of the total points will not be considered further for an award under this procurement.

Example: Proposer A submits a proposal and receives the following scores from the evaluators:

Rater A:	78 Points
Rater B:	81 Points
Rater C:	60 Points
Total Points:	219 Points

(Minimum necessary: 100 possible points x 3 evaluators x 70% = **210 Points**)

As a result, Proposer A has met the minimum requirements to provide these services, since their total point score of 219 exceeds the minimum number of points required to qualify, 210.

If the total points earned had been less than 210 points, then Proposer A would not have been considered further for an award under this RFP.

Failure to comply with these instructions may result in the rejection of the proposal.

1. Identifying content considered deficient;
2. Seeking additional information or clarification; or
3. Any other purpose to permit the County to obtain the best Solution.

Discussions with each Proposer will be based on what is determined by the County to be necessary to fulfill its needs for obtaining the best Solution. Discussions may vary with each Proposer. The County may terminate discussions with Proposers at any time. The County will, however, offer each Proposer the same opportunity to discuss their Proposals before notice is given as to the due date and time for submission of BAFO Proposals.

Following discussions, the County will provide notice to the Proposers of the date and time by which the Proposers will submit their BAFO Proposals, the BAFO requirements and the criteria and scoring by which the BAFO Proposals will be evaluated.

After evaluation of the BAFO Proposals, the County will issue a Notice of Intent to award the contract to the Proposer with the highest scoring BAFO Proposal. After expiration of the protest period allowed in Section 1.3, or after the County has provided a final response to any protest, whichever date is later, the County will immediately commence negotiations with the Proposer with the highest scoring BAFO Proposal.

The County will consider joint proposals from new and existing providers. Joint proposals may take the form of partnerships, general contractor/subcontractor arrangements or entities formed by new and existing providers. If any such arrangement is proposed, a written memorandum of understanding between the parties must be submitted with the Proposal setting forth the business and service delivery agreements between the parties.

4.1 MULTIPLE OR ALTERNATE PROPOSALS

In support of the County's sustainability goals regarding environmental impact and the disposal of paper, it is the County's preference that proposals be printed on both sides of the paper, rather than on one side only. When proposal format instructions limit the number of pages to be submitted, the page count is based on the quantity of numbered pages.

Example: The RFP proposal response to the program question is limited to a page count of not more than 12 pages. This equates to not more than 6 sheets of paper that are printed on each side, or 12 pages printed on only one side.

4.3 MAXIMUM PAGE LIMIT

Pages in excess of the page limitation will not be evaluated. Unless otherwise specified, pages exceeding the standard page size of 8.5" x 11" will be counted as two or more pages, depending on the actual size of the page.

4.4 PROPOSAL CONTENT

Proposers must respond to all the questions listed under Part 3, Section 3.2 – Proposal Questions and Evaluation Criteria. For each item, question does not have to be restated however proposal should use the same numbering and letter sequence as found in the RFP followed by your response.
