Re: Dominion Voting Systems Corp DVS 101082 Submitted for Approval

Dear Victor Vasquez,

The EAC has reviewed Engineering Change Order **DVS 101082**, including supporting documentation and analysis provided by the voting system test lab. This minor change added a Dell Pro Max Slim XE computer as an EMS Express server configuration due to the Dell Precision 3460 XE computer becoming commercially unavailable for purchase. The change does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The EAC certified systems impacted by this ECO are Democracy Suite 5.5-C, Democracy Suite 5.5-D, Democracy Suite 5.17, Democracy Suite 5.5, Democracy Suite 5.5-B, Democracy Suite 5.5-A, and Democracy Suite 5.20.

This correspondence is to inform you that Dominion Voting Systems Corp **DVS 101082** is approved.

Sincerely,

Roger Piha-Paul
Field Services Specialist
U.S. Election Assistance Commission
