Re: Election Systems & Software, Inc (ES&S) ECO-1202 Submitted for Approval

Dear Timothy Hallett

The EAC has reviewed Engineering Change Order **ECO-1202**, including supporting documentation and analysis provided by the voting system test lab. This minor change modifies the certified System Overview document to address the ExpressVote XL CFast Card 1 and 2 information. It corrects system documentation that previously listed CFast model numbers inadvertently reversed. This change does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:
EVS 6.5.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1202** is approved.

Sincerely,

Thomas Freitag
Field Services Specialist
U.S. Election Assistance Commission
