

ENGINEER CHANGE ORDER (ECO) ANALYSIS FORM

Manufacturer: Election Systems & Software (ES&S)

System: EVS 6.5.0.0

ECO Number: ECO 1202

ECO Description: Technical Data Package (TDP) correction

Overview:

This ECO modifies the certified System Overview document to address the ExpressVote XL CFast card information. Per ES&S, it was discovered that the System Overview documentation had the CFast card information incorrectly identified/specified between the two CFast cards (they were flipped).

Systems Affected:

Federal: EVS 6.5.0.0

Supporting Documentation:

ECO1202_TDPAddendum_EVS6500 (*ES&S Engineering Change Order*)

ECO1202_Lifecycle Policy (*ECO Supplemental Information*)

ESSVS_6'5'0'0_D_SysOvr_ECO1202 (*EVS 6.5.0.0 System Overview*)

Engineering Recommendation:

Based on successful technical documentation review, Pro V&V determines the submitted modification does not adversely impact the functionality, performance, accessibility, usability, safety, or security of the components or system or alter the overall configuration of the certified systems. No change to firmware/software is required. Per ES&S, there is no impact to election official documentation.

Pro V&V recommends the documentation update be approved for use with the EVS Systems identified above with no testing required.

Pro V&V evaluated this ECO under Section 3.3.2 Bug Fix of the Voting System Testing and Certification VVSG Lifecycle Policy.

Engineering Analysis: Minor Change – No testing required
