Re: Hart InterCivic, Inc. HRT-01730 Submitted for Approval

Dear Jared Bernal

The EAC has reviewed Engineering Change Order (ECO) **HRT-01730**, including supporting documentation and analysis provided by the voting system test lab. This minor change adds a new report to the Verity Count system that reports Cumulative Results by Polling Place. This ECO requires a software change to workstation images that include the Verity Count application. The following images will be rebuilt to version 2.7.7A. This minor change falls under Section 3.3.4, Jurisdiction Rule Change of the Life Cycle Policy and does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The EAC Certified systems impacted by this ECO are:

Verity Voting 2.7

This correspondence is to inform you that Hart InterCivic, Inc. **HRT-01730** is approved.

Sincerely,

Brooke Watters
Testing & Certification Director
U.S. Election Assistance Commission
