Re: Election Systems & Software, Inc (ES&S) ECO-1201 Submitted for Approval

Dear Chris Bruscano

The EAC has reviewed Engineering Change Order **ECO-1201**, including supporting documentation and analysis provided by the voting system test lab. This minor change updates the ExpressVote 3 motherboard BIOS and the microcontroller unit (MCU) code due to a bug fix release. These minor changes do not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

EVS 6.5.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1201** is approved.

Sincerely,

Brooke Watters
Director of Testing and Certification
U.S. Election Assistance Commission
