Re: Election Systems & Software, Inc (ES&S) ECO ESS-1211 Submitted for Approval

Dear Chris Bruscano

The EAC has reviewed Engineering Change Order (ECO) **ESS-1211**, including supporting documentation and analysis provided by the voting system test lab. This ECO introduces a secondary source of 8GB CFast cards for the Expressvote 3.0. This minor change falls under Section 3.3.3 COTS Replacement of the EAC Lifecycle Policy and does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The VVSG 1.0 system(s) impacted by this ECO are:

EVS 6.5.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1211** is approved.

Sincerely,

Brooke Watters
Director of Testing and Certification
U.S. Election Assistance Commission
