Dear Mr. Centonze,

The Election Supporting Technology Evaluation Program at the U.S. Election Assistance Commission has completed its review of the application package for the Tenex Software Solutions Precinct Central Touchpad 6.1.3 electronic poll book. The application was accepted and assigned the following unique application number: TSS-EPB-PC-6.1.3.

The U.S. Election Assistance Commission has assigned Pro V&V as the lead test laboratory for this test campaign. Testing will be conducted to the Voluntary Electronic Poll Book Certification Requirements, Version 1.0 (VEPBCR 1.0). If the system meets the criteria for a grant of certification, the system will be assigned the number "**TSS-EPB-PC-6.1.3**."

The election technology specialist assigned to oversee this testing engagement will be: Elizabeth Beatrice. Their goal is to facilitate communication between EAC staff, the manufacturer, and the test laboratory to optimize the efficiency of the certification process. This specialist will monitor the electronic poll book throughout its life cycle in the certification program, and ensure the process meets the requirements of the certification program's manuals.
