

Arlington County Office of Voter Registration, VA

Election Night Results Validation and Reporting Tool

Image Description: This is an image of the dashboard that allows for a quick visualization of the accuracy of results. As results are reported, they appear in the Ready to Review section. If the total votes cast in a contest equal the number of votes cast, "Correct" will display under the contest. The central office can quickly review accuracy. If everything is correct, the status is updated to "Ready to Publish". If a contest contains errors, the Status is updated to "Needs Correction," and the precinct is moved to the second section. This section displays the contact information for the person reporting results and the office that contains the errors, so that they can be quickly contacted.

Status of Precincts that have Reported

Ready to Review
