Re: Clear Ballot Group, Inc. CBG-CV25-7 Submitted for Approval

Dear Rosemary Fedorchak

The EAC has reviewed Engineering Change Order **CBG-CV25-7**, including supporting documentation and analysis provided by the voting system test lab. This minor change added an HPE ProLiant Compute DL360 Gen 12 Server (rack mountable) as a COTS DesignServer and CountServer to ClearVote 2.5 due to the end of production life status for the current model; and does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:
ClearVote 2.5

This correspondence is to inform you that Clear Ballot Group, Inc. **ECO-COTS-CV25-7** is approved.

Sincerely,

Brooke Watters
Director, Testing and Certification Program
U.S. Election Assistance Commission
