Re: Hart InterCivic, Inc. ECO-01755 Submitted for Approval

Dear Jared Bernal

The EAC has reviewed Engineering Change Order **ECO-01755**, including supporting documentation and analysis provided by the voting system test lab. This minor software change to the Hart Vanguard 1.1 system makes workflow improvements to the Vanguard Adapt's Provisional Ballot handling and Multi-sheet Ballot Spoiling processes to ensure compliance with Texas election code, and does not affect the system's functionality, performance, accessibility, usability, safety, security, or certified configuration. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:
Verity Vanguard 1.1

This correspondence is to inform you that Hart InterCivic, Inc. **ECO-01755** is approved.

Sincerely,

Brooke Olivia Watters
Director, Testing and Certification Program
U.S. Election Assistance Commission
