

MVP: Multilingual Virtual Poll Workers

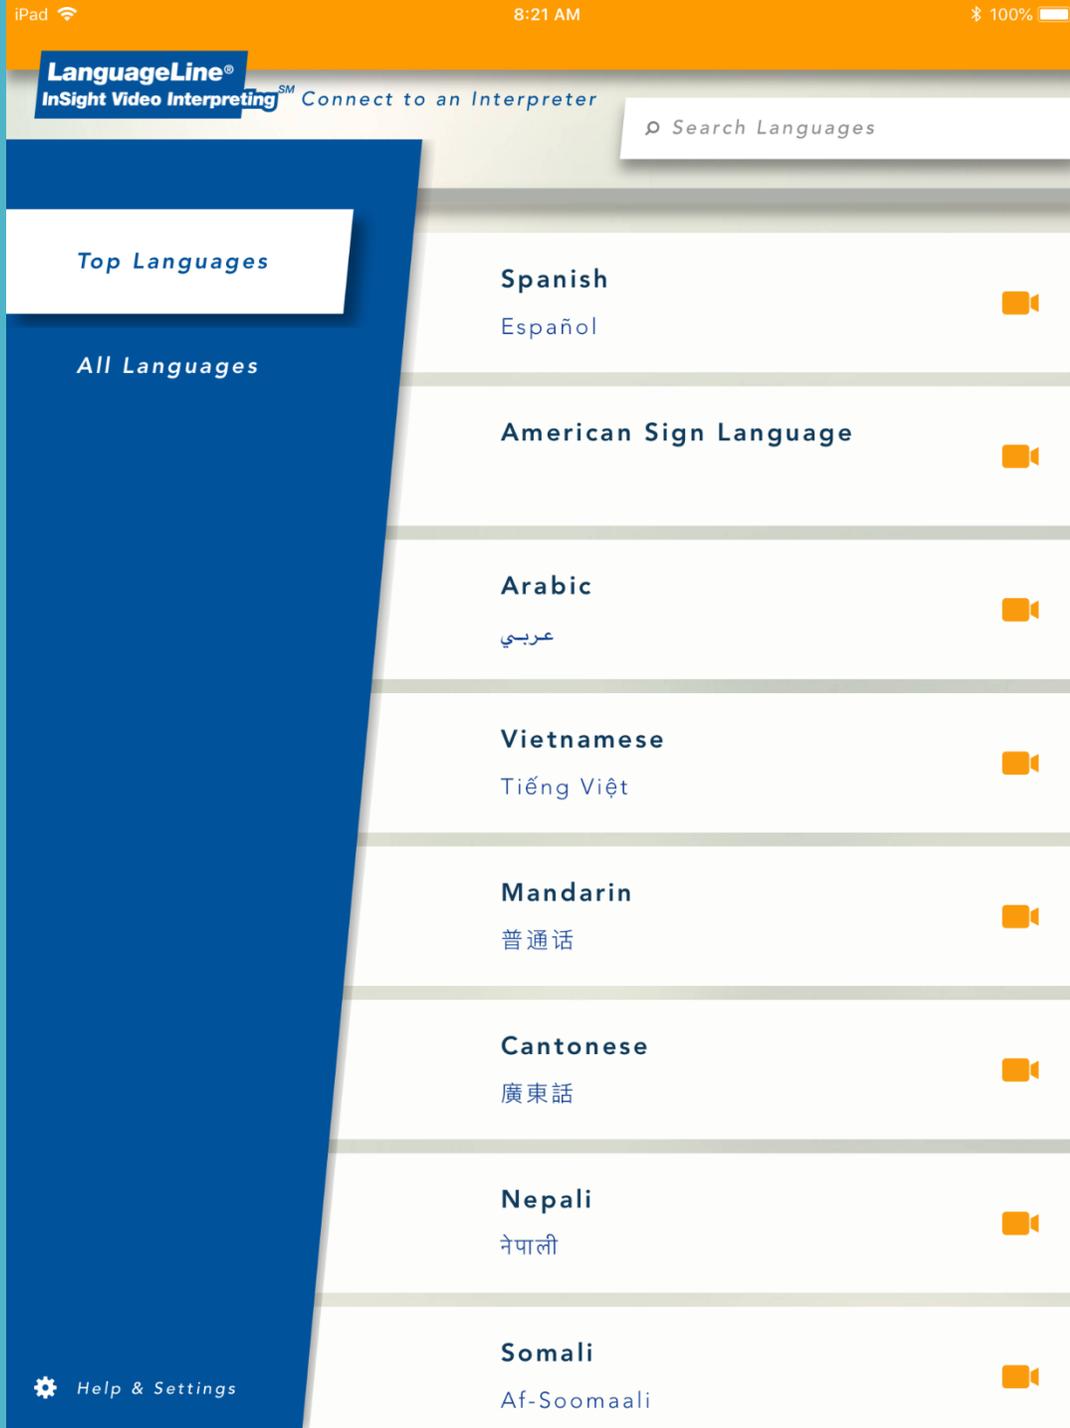

What are MVP's?

MVP's are iPads equipped with a program that connects voters with interpreters through a video call. There are interpreters for over 200 languages including Spanish, Hmong, Punjabi, and American Sign Language.

How we will we use MVP's?

The Elections Department will have our MVP's at polling locations where voters have specific language needs on Election Day. In addition, we will also use them in our office year-round to assist any voter who may need language services that our staff cannot provide.

When you open up the application, the most used languages are displayed. Select the needed language from the list, or search for the needed language in the search bar at the top of the page.

In a few moments, an interpreter will appear on screen and introduce themselves.
It's as easy as that!
