

U.S. ELECTION ASSISTANCE COMMISSION

2014 Election Administration & Voting Survey

New York

Statutory Overview

In order to better understand state laws governing federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help EAC to better understand the quantitative data relating to the 2014 general election that we are collecting from all U.S. states and territories.

EAC understands that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.

d. Void/Spoiled ballot

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin definition (d) below this line.]

In an Election Day context, a ballot is voided or spoiled by the voter in order to correct a problem, (in an OpScan system, to correct an overvote, for example).

In a cast ballot context, a ballot may be voided due to the appearance on the ballot of an ambiguous or extraneous mark, or the casting of votes for multiple candidates running for the same office.

[End definition (d) above this line.]

e. Provisional/Challenged ballot

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin definition (e) below this line.]

Called an affidavit ballot in NY, it is cast when a voter's name does not appear in an election day poll book; when a voter has just moved into the election district (precinct) but has not previously advised the county board of that move; when a voter is required to provide ID but does not do so; in a primary election, when a voter's party enrollment does not match the enrollment noted in the poll book.

[End definition (e) above this line.]

f. Absentee

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin definition (f) below this line.]

Voters may cast an absentee ballot because they cannot be at their poll site due to their being out of their home county on election day, or if a resident of the City of New York, outside of such city, ill or disabled and thus unable to appear at the poll site; their being a patient at a VA facility; in jail or prison awaiting trial; or being an accompanying spouse, parent or child. A2. Please provide the legal citation for any significant changes to election laws or procedures that have been enacted or adopted since the previous Federal election. “Significant” does not include routine or technical changes (such as changes to election district boundaries or polling place changes). However, EAC would like to learn about any new identification requirements for voters or registrants; changes in eligibility for voting or registering; adoption of alternative voting methods; and other changes that you believe represent a significant change in the way your state runs its elections.

 No Change Since 2012 X Changed Since 2012

2012 Response:

[Begin response to above question (A2) below this line.]

The following changes to New York State Election Law may be of interest:

From 2014;

Chapter 254, which prohibits candidates from serving as watchers in poll sites where their name appears on that site’s corresponding ballot(s).

Chapter 55, which creates the position of chief enforcement counsel of the State Board of Elections, establishes matching financing for statewide public office and makes amendments to campaign contribution limits and penalties for violations.

SECTION B: VOTER REGISTRATION

B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above question (B1) below this line.]

Bottom-up

[End response to above question (B1) above this line.]

If your state uses a bottom-up or hybrid system, how often do local jurisdictions transmit registration information to the state list?

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above clarification question to B1 below this line.]

Near-real time

[End response to above clarification question to B1 above this line.]

B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above question (B2) below this line.]

Adding, changing, cancelling or removing voter registration records is conducted only by local boards of elections to voter records within their respective jurisdictions. This includes Active and Inactive status updates. Whenever a local board of elections receives a notice through the US Postal Service or through its NCOA system indicating a potential voter move to a residence address outside of such local board jurisdiction, or may have moved without leaving a forwarding address, the board of elections shall send such voter a Confirmation

Notice pursuant to Sections 5-213 and 5-712 of the NYS Election Law and places the record in Inactive status. The board of elections shall restore the registration record to Active status if the voter notifies such board that he or she still resides at the address from which he or she is registered, or the board finds that such voter has validly signed a designating or nominating petition, which states that they reside at the same address, or if the voter casts a ballot in an affidavit envelope which states that they reside at such address.

The statewide voter registration list (NYSVoter) also identifies possible duplicate voter registrations upon a match of an applicant's first three letters of the first name and the first five letters of the last name, date of birth, and if available, other identification information. If such information indicates that a voter may have moved, the county board with the earlier dated registration record shall update the respective voter record status as Inactive and send a Confirmation Notice.

Upon restoring a voter's registration record to active status, the board of elections sends to voter, by first class forwardable mail, a notice advising the voter of the restoration. This process is also used for UOCAVA voters.

[End response to above question (B2) above this line.]

B3. Please describe your state's process for removing voters from the voter registration rolls (not merely moving them from active to inactive). Please include information regarding notices and confirmations. Are these procedures the same for UOCAVA voters?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B3) below this line.]

Whenever a county board has reason to believe that a registered voter may no longer be qualified to vote, it shall, before cancelling his or her registration, notify such voter by first class forwardable mail to the address from which he or she was last registered, providing the voter with a fourteen day time period to state in writing or in person, the reasons why their registration record should not be cancelled. If after such time, the board is not satisfied that the voter is qualified to remain registered, the board shall cancel the registration.

This process is also used for UOCAVA voters.

[End response to above question (B3) above this line.]

B4. Can your state's voter registration database (or equivalent) share information electronically with your state's driver's license agency (for example, to match records or trace changes in address)? Can your voter registration database be similarly linked with databases in any other state or federal agencies? Please describe these links, including any use of database matching to verify voter registration applications.

X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B4) below this line.]

The system is linked with DMV, to verify driver's license ID number and the last 4 digits of an applicant's SSA number.

[End response to above question (B4) above this line.]

B5. Please describe how your state uses National Change of Address (NCOA). What has been your state's experience with NCOA?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B5) below this line.]

Files are sent annually to a certified NCOA vendor, and processed records are returned to the SBOE. Records are then "transmitted" to county election officials via New York's statewide database, called NYSVoter, who determine if NCOA info provided is sufficient to modify a voter record. Counties send out transfer and/or confirmation mailings, as appropriate.

[End response to above question (B5) above this line.]

B6. Please describe your state's voting eligibility requirements as they relate to individuals with a felony conviction. (For example, are convicted felons allowed to vote while in prison or while on parole or probation? Are voting rights automatically restored or does the individual have to apply for a pardon, certificate of eligibility or other similar certificate? Does an individual whose voting rights have been restored have to produce documentation of his/her status when registering to vote?)

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (B6) below this line.]

A voter's registration is cancelled when convicted of a felony and sentenced to a term of imprisonment. A voter may reapply for registration, as same is not automatically restored. A voter on parole may not reapply, however a voter on probation may reapply for registration.

[End response to above question (B6) above this line.]

B7. Does your state currently use the Internet in any way to facilitate voter registration? If yes, please describe how your state allows voters to use the Internet in the registration process (e.g., entire registration completed online; completed online but then must be printed, signed, and mailed by voter, etc.).

 X **No Change Since 2012** **Changed Since 2012**

2012 Response:

[Begin response to above question (B7) below this line.]

At present, New York's Department of Motor Vehicles intends to share electronically with county boards of elections, the DMV's NVRA voter registration transactions. New York still requires that voter registration forms directly submitted by voters to boards of elections may be completed online, but they must be printed out, signed, and mailed to the voter's board of elections, as electronic transmission is not permitted in NY, apart from the DMV's upgraded NVRA component.

[End response to above question (B7) above this line.]

SECTION C: ELECTION ADMINISTRATION

C1. Please describe how all votes cast at a place other than the voter's precinct of registration are tabulated (for example, please include descriptions of such votes as absentee ballots, mail-in ballots, votes cast at vote centers, provisional ballots, early voting locations, etc.).

a. Are the votes counted centrally or at the precincts?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (a) below this line.]

Emergency ballots are tabulated at the poll sites, while absentee and provisional ballots are counted centrally.

[End response to above question (a) above this line.]

b. If centrally tabulated, are the votes redirected to the appropriate precinct for reporting in the canvass?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (b) below this line.]

YES – though not redirected on election night, centrally tabulated votes are added to that specific precinct's original canvass, as part of the recanvass process, which begins 7 days after Election Day.

[End response to above question (b) above this line.]

c. Are the absentee, mail, etc., votes reported separately for each precinct, or are they added to the in-precinct results and reported as just a single number?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (c) below this line.]

They appear separately on the county board's original canvass sheet, but for reporting and publication by the State Board, they are aggregated.

[End response to above question (c) above this line.]

d. How are UOCAVA ballots counted and reported?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (d) below this line.]

In the same manner as other absentee ballots.

[End response to above question (d) above this line.]

C2. Does your state require a reason for voting absentee, or does your state allow no-excuse absentee voting? (If a reason is required, please provide the legal citation.)

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (C2) below this line.]

YES – see ABSENTEE, in Section A, above

[End response to above question (C2) above this line.]

C3. Does your state provide for in-person early voting? If so, how is early voting defined? When early voting is used, are the ballots counted at the precinct or at a central location? How are these votes reported?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (C3) below this line.]

NO – early voting is not permitted in New York

[End response to above question (C3) above this line.]

C4. Do any jurisdictions in your state use a vote-by-mail system to replace (and not merely supplement) at-the-precinct voting in any elections?

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (C4) below this line.]

NO

[End response to above question (C4) above this line.]

C5. Please list each of the situations that require a provisional ballot in your state. Please provide the relevant legal citation for each situation.

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (C5) below this line.]

Called an affidavit ballot in NY, it is cast when a voter's name does not appear in an election day poll book; when a voter has just moved into the election district (precinct) but has not previously advised the county board of that move; when a voter is required to provide ID but does not do so; in a primary election, when a voter's party enrollment does not match the enrollment noted in the poll book. See NYS Election Law § 8-302.

[End response to above question (C5) above this line.]

C6. Does your state count provisional ballots of voters who are registered in different precincts, or are those ballots automatically rejected? Please describe the process used by local election officials in determining whether to count a provisional ballot.

 X No Change Since 2012 Changed Since 2012

2012 Response:

[Begin response to above question (C6) below this line.]

If research at the county board supports the claim the voter makes in their oath on the ballot envelope, the ballot will be counted. If research proves otherwise, the ballot is not counted. Provisional ballots cast by voters who were in the correct poll site but at the wrong voter sign-in table, will be counted, however only those contests and questions which the two different districts had in common will be counted.

See Election Law, Sections 5-403, 9-209

[End response to above question (C6) above this line.]

C7. Please describe your state's laws regarding post-election audits, if any. A post-election audit refers to hand-counting votes on paper records and comparing those counts to the corresponding vote counts originally reported, as a check on the accuracy of election results, and resolving discrepancies using accurate hand counts of the paper records as the benchmark.

If your state has post-election auditing, consider including in your response information such as the unit being audited (e.g., precincts, machines); the sampling method (e.g., fixed percentages); whether there is a specific trigger for the audit; the location of the random selection (e.g., state, county); and the races that can be audited.

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above question (C7) below this line.]

New York requires a complete recanvass of machine and paper ballots cast at each election – one of the few states to do so. In addition to this complete recanvass process, New York has provided for a post-election audit which requires a random selection of 3% of the scanners used in an election, from which the voter-verifiable audit records of those voting machines or systems within the jurisdiction of the board, will be manually counted.

See Election Law 9-208, 9-211, and Regulations, Part 6210.18

[End response to above question (C7) above this line.]

C8. Please describe any state requirements for poll worker training.

☒ **No Change Since 2012** ☐ **Changed Since 2012**

2012 Response:

[Begin response to above question (C8) below this line.]

The State provides to county boards and poll workers, a statewide curriculum, and web-based training programs. Poll workers serve one-year terms, must be trained annually, and must pass an exam prior to their certification as a poll worker.

Poll watchers are permitted in a poll site, provided they are qualified voters in the county in which they are serving and have a signed certificate from a party official or candidate who appears on the ballot. 2014 brought a change to this provision, which prohibits candidates for public office from serving as watchers in poll sites in which they appear on the ballot for that district/site..

SECTION E: OTHER

E1. Under HAVA, Section 402, states are required to establish and maintain administrative complaint procedures to remedy grievances. Has your state revised its administrative complaint procedures since they were first implemented? If so, how?

2012 Response:

Subsequent to the passage of HAVA in 2002, the NY statutory mandate relative to a HAVA complaint procedure was codified in Election Law 3-105, effective May 3, 2005. Board Regulation Part 6216 is the framework for the HAVA administrative complaint procedure, adopted in 2006, pursuant to the federal and state statutory mandates. There has been no statutory amendment of 3-105, nor any revision of the Regulation.

The 2010 general election saw New York's statewide transition to op-scan voting systems, thereby implementing a number of the changes previously made to statutes and operating procedures. New York State continues to evaluate the transition to a new voting technology, seeking to amend statutes that while previously synchronized with the use of lever voting machines, may no longer have the same effect or serve the same or better purpose.
