ADMINISTRATION OF PAYMENTS RECEIVED UNDER THE HELP AMERICA VOTE ACT BY THE SECRETARY OF THE COMMONWEALTH OF PENNSYLVANIA
Memorandum

To: Thomas Wilkey
   Executive Director

From: Curtis W. Crider
      Inspector General

Subject: Final Audit Report - Administration of Payments Received Under the Help America Vote Act by the Secretary of the Commonwealth of Pennsylvania (Assignment Number E-HP-PA-10-06)

This report presents the results of the subject audit. The objectives of the audit were to determine whether Pennsylvania (1) expended Help America Vote Act (HAVA) payments in accordance with the Act and related administrative requirements and (2) complied with the HAVA requirements for replacing punch card or lever voting machines, for appropriating a 5 percent match for requirements payments, for establishing an election fund, and for maintaining state expenditures for elections at a level not less than expended in fiscal year 2000.

The report concluded that Pennsylvania generally complied with requirements and identified the following areas needing management attention:

✓ Pennsylvania did not have adequate documentation to support salary charges for six positions financed with HAVA funds resulting in questioned costs of $562,513.

✓ Counties did not keep records that sufficiently accounted for equipment purchased with HAVA funds.

✓ Pennsylvania was unable to provide supporting documentation to show that it had met its maintenance of effort requirement for activities funded by Section 251 payments at a level not less than expended in the state fiscal year ending June 30, 2000.

In its December 18, 2006 response to the draft report (Appendix 3), Pennsylvania indicated that actions were underway to address the issues identified in the report. Regarding the $526,513 in questioned costs for salaries, Pennsylvania certified that the
individuals in question were working on HAVA programs and established procedures for the completion of semiannual certifications for all HAVA funded positions. Pennsylvania also indicated that it was drafting policies and procedures to address the property related issues. Finally, based on a review of expenditures for its base year, Pennsylvania believes that it met the maintenance of effort requirement.

Please provide us with your written response to the recommendations included in this report by March 9, 2007. Your response should contain information on actions taken or planned, including target dates and titles of EAC officials responsible for implementing the recommendations.

Section 5(a) of the Inspector General Act (5 U.S.C. § App.1) requires the Office of Inspector General to list this report in its semiannual report to Congress.

If you have any questions regarding this report, please call me at (202) 566-3125.
The Help America Vote Act of 2002 (HAVA or the Act) created the U.S. Election Assistance Commission (EAC or Commission) to assist states and insular areas with the improvement of the administration of Federal elections and to provide funds to states to help implement these improvements. HAVA authorizes payments to states under Titles I and II, as follows:

- Title I, Section 101 payments are for activities such as complying with Title III of HAVA for uniform and nondiscriminatory election technology and administration requirements, improving the administration of elections for Federal office, educating voters, training election officials and poll workers, and developing a state plan for requirements payments.

- Title I, Section 102 payments are available only for the replacement of punchcard and lever action voting systems.

- Title II, Section 251 requirements payments are for complying with Title III requirements for voting system equipment; and for addressing provisional voting, voting information, statewide voter registration lists, and voters who register by mail.

Title II also requires that states must:

- Have appropriated funds “equal to 5 percent of the total amount to be spent for such activities [activities for which requirements payments are made].” (Section 253(b)(5)).

- “Maintain the expenditures of the State for activities funded by the [requirements] payment at a level that is not less than the level of such expenditures maintained by the State for the fiscal year ending prior to November 2000.” (Section 254 (a)(7)).

- Establish an election fund for amounts appropriated by the state “for carrying out the activities for which the requirements payment is made,” for the Federal requirements payments received, for “such other amounts as may be appropriated under law,” and for “interest earned on deposits of the fund.” (Section 254 (b)(1)).

FINANCIAL MANAGEMENT REQUIREMENTS

Within the Pennsylvania Department of State (Department), HAVA programs are administered by the Bureau of Commissions, Elections and Legislation. To account for the HAVA payments, the Act requires states to maintain records that are consistent with sound accounting principles, that fully disclose the amount and disposition of the payments, that identify project costs financed with the payments and with other sources, and that will facilitate an effective audit.

In addition, the Commission notified states of other management requirements. Specifically, that states must:

- Comply with the *Uniform Administrative Requirements for Grants and Cooperative Agreements with State and Local Governments* (also known as the “Common Rule” and published in 41 CFR 105-71).

- Expend payments in accordance with cost principles for establishing the allowability or unallowability of certain items of cost for federal participation issued by the Office of Management and Budget (OMB) in Circular A-87.

- Submit annual financial reports on the use of Title I and Title II payments.

OBJECTIVE

The objectives of our audit were to determine whether Pennsylvania (1) expended HAVA payments in accordance with the Act and related administrative requirements and (2) complied with the HAVA requirements for replacing punch card or lever voting machines, for establishing an election fund, for appropriating a 5 percent match for requirements payments, and for maintaining state expenditures for

---

1 EAC requires states to submit annual reports on the expenditure of Sections 101, 102, and 251 funds. For Sections 101 and 102, reports are due on February 28 for the activities of the previous calendar year. For Section 251, reports are due by March 30 for the activities of the previous federal fiscal year.
elections at a level not less than expended in fiscal year 1999.²

Specifically, we audited reported outlays shown on page 2 and reviewed controls to assess their adequacy over the expenditure of HAVA funds. We also evaluated compliance with certain administrative requirements for the following activities:

✓ Accumulating financial information reported to EAC on the Financial Status Reports (Standard Forms number 269).
✓ Accounting for property.
✓ Purchasing goods and services.
✓ Accounting for salaries.
✓ Charging indirect costs.
✓ Spending by counties.

We also determined whether Pennsylvania had complied with the requirements in HAVA for:

✓ Establishing and maintaining the election fund.
✓ Appropriating funds equal to five percent of the amount necessary for carrying out activities financed with Section 251 requirements payments.
✓ Sustaining the State’s level of expenditures for elections.

RESULTS OF AUDIT

SUMMARY

We concluded that the Department generally accounted for and expended HAVA funds in accordance with requirements. However, we identified a need for the Department to improve its management procedures and/or processes to ensure that expenditures for payroll are adequately supported and equipment is properly managed and safeguarded. Because of insufficient supporting documentation, we classified expenditures for payroll of $562,513 as questioned costs.

Regarding significant HAVA compliance requirements, we found that the Department met the requirements for establishing a state election fund and appropriating matching funds. We were not, however, able to determine whether the Department satisfied the requirement for maintaining state expenditures for activities funded by Section 251 payments at a level not less than expended in the state fiscal year ending June 30, 2000. This occurred because the state did not identify

² Pennsylvania uses the calendar year in which the fiscal year begins to designate the fiscal year; for example, fiscal year 1999 began on July 1, 1999, and ended on June 30, 2000.
fiscal year 1999 operations and expenditures for activities currently funded by Section 251 requirements payments and did not monitor State spending for such activities in subsequent years.

PAYROLL

The Department did not adequately support salary charges for six staff positions funded 100 percent by Help America Vote Act (HAVA) payments for the two-year period January 2004 through December 2005. Requirements for time distribution records are included in Office of Management and Budget Circular A-87, Appendix B.8.h (3). Specifically, Circular A-87 states that where employees are expected to work solely on a single Federal award, charges for their salaries and wages will be supported by semiannual certifications that the employees worked exclusively on that program for the period covered by the certification. The Department had not developed sufficient policy and procedures to ensure that semiannual certifications were prepared and submitted. The Department calculated that the total cost for salaries and benefits for these six positions for the period from January 2004 to December 2005 was $562,513, and we classified this amount as a questioned cost.

Recommendations:

We recommend that the EAC require the Department to:

1. Establish policy and procedures to ensure that semiannual certifications are submitted.
2. Resolve the questioned costs of $562,513.

Department Response:

The Department agreed that it did not prepare semiannual certifications during the period January 2004 through December 2005. To address the finding, the Department submitted a certification from the Commissioner of the Bureau of Commissions, Elections and Legislation. The Commissioner certified that the six employees whose salaries were questioned had worked full-time on HAVA programs. Also, the Department responded that it had established policies and procedures to ensure that the semiannual certifications are prepared.

OIG Comments:

We believe the actions taken by the Department are sufficient to support the questioned costs and to resolve Recommendation 1.
PROPERTY

The Department and six Counties we visited did not maintain adequate records of equipment purchased with Help America Vote Act (HAVA) funds in compliance with the Common Rule. Part 41 CFR 105-71.132 stipulates that property records must be maintained that include a description of the property; a serial number or other identification number; the source of property; who holds the title; the acquisition date; cost of the property; percentage of Federal participation in the cost of the property; the location, use and condition of the property; and any ultimate disposition data including the data of disposal and sale price of the property.

The Department had not developed sufficient policy and procedures to account for equipment purchased with HAVA payments. In addition, the Department’s agreements with the counties did not include a requirement to comply with Federal regulations regarding the management of equipment. As a result, the Department was unable to provide its policy for inventory control or a formal inventory that included HAVA-funded equipment. Further, at the six counties we visited, we found that property records were not maintained or did not contain all the required information.

- Chester, Luzerne, Cambria and Westmoreland counties had not maintained a formalized inventory record for HAVA-funded equipment that included the required data such as funding source, cost, and acquisition date.
- Allegheny County did not maintain any property records for voting machines delivered prior to the May 2006 primary election because the vendor had borrowed some of the machines for use in another state.
- Philadelphia had established property management policy that generally met Common Rule requirements but had not inventoried all components of its voting system and had not captured the extent of Federal participation in the value of upgraded voting equipment.

Recommendations:

We recommend that the EAC require the Department to:

3. Establish policy and procedures to account for equipment purchased with HAVA payments.
4. Ensure that the counties comply with the Federal equipment management requirements.
5. Include in future agreements the specific Federal equipment management requirements.
Department Response:

The Department agreed that it was unable to provide a policy for
inventory control or a formal inventory of HAVA-funded equipment.
To address this finding, the Department responded that it is updating
its inventory to comply with the Common Rule, incorporating in future
agreements with counties a provision requiring compliance with the
Common Rule, drafting polices and procedures that will require
counties to record equipment purchased with HAVA funds, requiring
counties to submit updated lists of property on an annual basis, and
performing random site visits to assess county equipment lists.

OIG Comments:

We believe the Department's response is sufficient to resolve the
recommendations.

The Department did not identify fiscal year 1999 (base year)
expenditures for activities funded by Section 251 requirements
payments and did not monitor State spending for such activities in
subsequent years. Further, in its amended State Plan, the Department
recognized the State's obligation to maintain programs at base year
levels but did not state whether or not this commitment had been met.
Section 254 (a)(7) of HAVA requires the State to maintain
expenditures for activities funded by requirements payments at a level
that is not less than the level of such expenditures maintained by the
State for the fiscal year ending prior to November 2000.

The Department told us that it had taken a holistic approach to
monitoring the maintenance of effort required by HAVA; monitoring
the total budget appropriation provided to the Department of State
rather than identifying and tracking election-specific expenditures.
The Department also believed that the generalized statements included
in the amended State Report were sufficient to meet the reporting
requirement of Section 254 (a) (7).

As the Pennsylvania Department of State had not quantified spending
for its base year and subsequent years levels of effort, we could not
determine whether it satisfied the maintenance of effort requirement.
However, we obtained and analyzed expenditure data for fiscal years
1999, 2003 and 2004. Our analysis included costs of the Bureau of
Commissions, Elections, and Legislation general operations and the
costs of its Election and Voter Registration Divisions.

Based on total costs of these organizational units, as shown below, it
appears that the State may not have met the maintenance of effort
requirement established by Section 254 (a)(7) of HAVA.

Recommendations:

We recommend that EAC:

6. Require the Department to identify its base year expenditures for activities related to HAVA Section 251 requirements payments and annual expenditures for these activities for the fiscal years 2003 and 2004.

7. Identify any appropriate actions to be taken based on the information submitted by the Department.

Department Response:

Although the Department agreed to identify its applicable base year (state fiscal year ending prior to November 2000) expenditures; it did not agree that it may not have met the maintenance of effort requirement imposed by HAVA. In that regard, it believes that the costs of the Department’s election related programs shown in the audit as pertaining to the base year and fiscal years 2003 and 2004 includes the costs of activities that are not related to requirements payments. Its response also stated that there is no requirement to identify the base year costs.

OIG Comments:

We agree that there is no provision in HAVA that specifically requires the identification of base year costs. However, without quantification of a state base year costs pertaining to activities currently funded by requirements payments, it is not possible to determine whether a state met the maintenance of effort requirement. Thus, a state must quantify its base year costs. Also, we recognize that the costs analysis
in our report pertaining to maintenance of effort may include costs not related to activities funded by requirements payments. We presented the costs based on available information and to demonstrate the importance for states to specifically identify their costs related to implementing Section 251 of HAVA.

The Department needs to document the results of the analysis its base year and subsequent years costs pertaining to Section 251 and provide the results to the EAC.
SCOPE AND METHODOLOGY

To accomplish our objective, we reviewed:

✓ The prior single audit report and other reviews related to the Department’s financial management systems and the HAVA program for the last 2 years.
✓ Policies, procedures and regulations for Pennsylvania’s management and accounting systems as they relate to the administration of HAVA programs.
✓ Inventory lists of equipment purchased with HAVA funds to the extent these documents were produced.
✓ Major purchases.
✓ Supporting documents maintained in the accounting system for payments made with HAVA funds.
✓ Support for reimbursements to counties.
✓ Certain Pennsylvania laws that impact the election fund.
✓ Appropriations and expenditure reports for State funds used to maintain the level of expenses for elections at least equal to the amount expended in fiscal year 1999 and to meet the five percent matching requirement for section 251 requirements payments.
✓ Information regarding source/supporting documents kept for maintenance of effort and matching contributions.

We also interviewed appropriate Department employees about the organization and operation of the HAVA program.

We conducted our review in accordance with Government Auditing Standards issued by the Comptroller General of the United States. As such, we included tests and procedures as considered necessary under the circumstances to evaluate the Department’s controls over the administration of HAVA payments. Because of inherent limitations, a study and evaluation made for the limited purposes of our review would not necessarily disclose all weaknesses in administering HAVA payments.
## MONETARY IMPACT

Curtis Crider  
Inspector General  
U.S. Election Assistance Commission  
Office of Inspector General  
1225 New York Avenue NW – Suite 1100  
Washington, DC 20005  

Dear Mr. Crider:

The Pennsylvania Department of State (Department) has reviewed the draft report entitled “Administration of Payments Received Under the Help America Vote Act by the Secretary of the Commonwealth of Pennsylvania,” Assignment No. E-HP-PA-10-06. The Department’s written comments to the report findings and recommendations are provided below.

**PAYROLL**

The Department agrees that semianual certifications were not prepared for the two-year period January 2004 through December 2005. The Department, however, did establish policies and procedures to ensure that semianual certifications are submitted effective January 1, 2006. Certifications for the six HAVA funded positions for the period January 2006 through December 2006 were prepared and signed on December 30, 2006. The Department will continue to prepare and submit semianual certifications for all HAVA funded positions.

In order to resolve the questioned costs of $562,513, the following certifications have been obtained:

- Judith L. Holjes, Federal Grant Administrator, signed a certification on November 27, 2006 (attached), certifying that for the period of September 11, 2004 through December 31, 2005, she worked solely on the Department of State’s Help America Vote Act of 2002 (HAVA) program.
- Harry VanSickle, Commissioner of the Bureau of Commissions, Elections and Legislation, signed a certification on December 15, 2006 (attached), certifying that the employees of the Bureau’s Division of the Help America Vote Act worked solely on

[Attachments withheld by the Office of Inspector General]
programs related to HAVA for the period January 2004 through December 2005. This
certification is based on personal knowledge and reports made to Commissioner
VanSickle by Gail Borger, who served as Chief of the Division of HAVA from October

PROPERTY

The Department agrees that it was unable to provide a policy for inventory control or a
formal inventory that included HAVA funded equipment in the Commonwealth. The
Department does have an agency-wide inventory on file in the Division of Procurement
(Division), Bureau of Finance and Operations; however, the inventory is not current. The
Division is in the process of updating the inventory in compliance with the Common Rule, Part
41 CFR 105-71.132.

The Department also agrees that the Department’s agreements with the counties did not
include a requirement that they comply with Federal regulations regarding the management of
equipment. Effective September 21, 2006, all future Commonwealth-issued grant agreements
and/or amendments will contain the following paragraph:

“The county agrees to establish policies and procedures to account for equipment
purchased with HAVA funds and to comply with all state and federal equipment
management requirements including, but not limited to, the Uniform Administrative
requirements for Grants (41 CFR 105-71).”

In addition, the Department is currently drafting polices and procedures that will require
counties to record equipment purchased with HAVA grant dollars. The Department will provide
guidance through written communication aiding counties in the creation of adequate records of
this property. The information will instruct counties to submit to the Department a description
of the property; a serial number or other identification number; the source of the property; who
holds the title; the acquisition date; cost of the property; the location; use and condition of the
property; and any disposition data, including the date of disposal and sale price of the property.
The Department will set a deadline for the submittal of these records. Upon submittal, the
Department will thoroughly review them for accuracy and compliance with Part 41 CFR 105-
71.132 of the Common Rule. The Department is prepared to offer substantial direction to
counties regarding this request.

The Department will also require counties to record all of the above information on any
newly acquired property. The Department will require counties to submit an updated list of
property with all of the required information to the Department on an annual basis. These
records will be reviewed for compliance with Federal law.
The Department will also perform random site-assessments of inventory lists submitted by counties. In these site-assessments, Department employees will visit the randomly selected county and evaluate whether the records of property are compliant with the requirements set forth in Federal law. The Department will submit its findings to the county with any guidance and remedies should they be necessary.

The Department will keep detailed files of all records submitted by the counties and will have the ability to submit the records to Federal or State government agencies should they be requested.

MAINTENANCE OF EFFORT

The Department agrees that it did not specifically identify in the State Plan (Element 7) fiscal year 1999 (base year) expenditures for activities funded by the requirements payments authorized by section 251 of HAVA to fund the election administration requirements that are now mandated by Title III of HAVA. That is because section 254(a)(7) of HAVA does not require that a State identify a specific dollar amount.

Though the Commonwealth’s HAVA State Plan has never specified a specific amount of expenditures for the base year, the EAC never advised Pennsylvania that its State Plan was deficient in failing to specify the amounts that it expended in the base year for the activities that were funded by the requirements payments made under Title II of HAVA. Moreover, neither the EAC nor any other person or entity ever made any adverse comment upon Element 7 of Pennsylvania’s State Plan following the Commonwealth’s submission of amendments to its State Plan in 2004 and 2005. For these reasons, the Commonwealth reasonably concluded, and continues to believe, that Element 7 of its HAVA State Plan complies with section 254(a)(7) of HAVA.

The Department also disagrees with the assertion made in the draft report that, based on total costs of the Department’s organizational units, Pennsylvania might not have met the maintenance of effort requirement established by section 254(a)(7) of HAVA. The total costs illustrated in the draft report list the total dollars spent by the Department for all election administration activities, including the administration of the Pennsylvania campaign finance law, the filing of candidate nomination petitions and papers, and the certification of candidates for office. Those costs were not incurred in support of the activities that were subsidized by the requirements payments made under Title II of HAVA. That is because these activities for which the Commonwealth expended State funds in the base year are not activities that are now required by Title III of HAVA. Neither does the dollar statements expressed in the draft report take into consideration non-recurring fiscal year costs or reductions in salary for newly-hired employees.
Curtis Crider, Inspector General
U. S. Election Assistance Commission
December 18, 2006
Page 4

The total costs provided by the Department in its Response to the Notification of Finding and Recommendation PA-2006-01 dated September 13, 2006 were a response to the findings of the preliminary audit report and not a statement of agreement with the auditors' method of calculating expenditures for election administration.

As recommended, the Department is currently reviewing all State FY 1999-2000 expenditures to identify any base year expenditures for activities related to the requirements now imposed by Title III of HAVA and for which requirements payments were made to the Commonwealth under section 251 of HAVA. Based on this recommended review of Commonwealth expenditures during the base year, it is clear that the Commonwealth of Pennsylvania (Commonwealth) in the base year expended very few State funds, if any funds, for the activities that are now required by Title III of HAVA and for which the Commonwealth received requirements payments beginning in 2004. That is so because most of the requirements of Title III of HAVA were not among the activities for which the Commonwealth was expending State funds during fiscal year 1999 (base year). Further, because the EAC has never defined what activities are included under HAVA, our task is made more complicated. In view of the fact that during the 1999-2000 fiscal year Pennsylvania had no provisional ballots, no voter identification requirements, no statewide voter registration list, etc., thus far we have not identified any Commonwealth maintenance of efforts cost because none of our responsibilities were Title III.

Should you have any questions, please do not hesitate to contact me at 717.783.1775 or pantelitan@state.pa.us.

Sincerely,

[Signature]
