California's Expenditure of Section 102 Funds For January 1, 2004 – December 31, 2004

FILE COPY

Amount Expended
\$51,113,838

State Plan Reference (page 31)

Funds received pursuant to HAVA Section 102 will be used, in accordance with Section 102(a)(2) to replace punch card voting systems in counties that used such systems in the 2000 General Election.

Items Purchased

California was eligible for \$57,322,707.00 in Section 102 funds.

Thirty California counties used punch card voting equipment in the November 2000 election and were eligible under the HAVA to apply for these funds. Allocation of funds was made pursuant to the formula defined in the HAVA.

Of the 30 eligible counties, the Secretary of State to date has received applications from 18 counties and has distributed \$51,113,837.73 to 16 counties. Two counties have applied for an additional \$3,524,211.64 in Section 102 funds and the SOS approved the disbursement of these funds on November 24, 2004 but the SOS cannot issue checks until we receive approval of spending authority from the State Legislature.

The remaining 12 counties have not, to date, applied for funds, leaving a balance of \$2,684,657.63

The Section 102 funds have been successful in assisting in replacing punch card systems and modernizing voting equipment in California. The 12 counties that have not yet applied for Section 102 funds represent only 3.2% of California's registered voters --- compared with 56% who voted on punch card systems prior to HAVA.

Of the 18 counties receiving or applying for funds to date, 8 have purchased and installed "touch screen" voting systems, while the other 10 have purchased and installed "optical scan" equipment.
