Mr. Edgardo Cortés, Election Research Specialist  
U.S. Election Assistance Commission  
Suite 1100  
1225 New York Ave, N.W.  
Washington, DC 20005

Dear Mr. Cortés:

As requested, enclosed please find amended reports on the State of Vermont's use of funds awarded under the Help America Vote Act of 2002 (HAVA). Included are reports for

- Title I, Section 101, for calendar year 2004
- Title I, Section 101, for calendar year 2005
- Title II, Section 251, for fiscal year 2004
- Title II, Section 251, for fiscal year 2005.

We note that, like several other states, we did not interpret HAVA as requiring that the appropriated State match on Section 251 funds be deposited into a separate interest-bearing account from the onset. Given that the EAC's Inspector General has issued audit findings to the contrary in at least one instance, and on your advice, in our amended Section 251 reports we have calculated and reported the interest earnings that would have accrued on the State match had that match been deposited into the same interest-bearing account at the same time as the federal funds were. Those calculations demonstrate that we are on track to complete the spending of our required State match (including interest earned) by the end of fiscal year 2006 and will, in fact, have spent substantially more State dollars than required by fiscal year 2006 year-end.

We are sending electronic copies of the enclosed reports to you via e-mail for your convenience. We believe the reports contain all required information, but if you have questions, please feel free to contact me. Thank you for your assistance in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Daley".

The following information is provided as a supplement to the SF 269 that accompanies this memorandum. This information covers the reporting period January 1 – December 31, 2004.

1. **List of expenditures made with respect to each category of activities described for the use of funds in HAVA section 101:**

2. **The number and type of articles of voting equipment obtained with the funds:**

76 vote tabulating machines, Diebold Accuvote ES 2000  
3 software upgrades for existing Diebold Accuvote ES 2000 machines

The Vermont State Plan adopted in July 2003 explained, at page 3, that Vermont planned to designate one voting system for all municipalities that use a machine. This conversion has been very successful and has shortened the time necessary to have ballots prepared for all of our jurisdictions. We anticipate that a small number of towns may vote to use tabulating machines in the next year and we have early out money still available to make such purchases.

**3. An analysis and description of the activities funded to meet HAVA requirements and how such activities conform to the submitted State plan:**

Vermont has spent a total of \$636,829.88 during this period and a cumulative total of \$648,671.32 of the early out money which Vermont received. During this period the following activities were funded to meet HAVA requirements in conformance with our Vermont State Plan, promulgated July 28, 2003:

- A. Page 3, Vermont State Plan: \$454,434.82 was used to purchase of 76 vote tabulating machines and 3 software upgrades for existing Diebold Accuvote ES 2000 machines so that instead of 4 different types of optic scan tabulating machines, Vermont jurisdictions now all use the same tabulating machine and ballot style. This improves administration of federal elections by allowing our office to shorten the time necessary to prepare and deliver ballots to jurisdictions throughout the state especially for military and overseas voters.
- B. Pages 12 and 13, Vermont State Plan: Improve privacy and independence for disabled voters by providing 2 accessible voting stations to some jurisdictions in Vermont with an expenditure of \$57,500. This is a continuing program and additional accessible voting stations were provided with funds in the next reporting period, and some may be provided in future years as needed.
- C. Pages 8 and 9, Vermont State Plan: A total reporting period expenditure of \$72,079.39 was used to educate voters concerning voting procedures, voting rights and voting technology through the production and distribution of a voter video available on our website and run on local access TV stations throughout Vermont; an updated Voter Rights Poster; radio public service announcements for voting procedures and deadlines; distribution of our candidate information guide in new ways for persons with disabilities; continuation of our voter telephone hotline; and print materials for voter registration campaigns.
- D. Pages 3,10,11,and 14, Vermont State Plan: \$50,696.79 was spent in this reporting period to improve the administration of elections for federal office by purchasing hardware, software, and training for state information technology staff to begin development and testing of the statewide checklist for voters, to provide information to election officials and voters regarding use of provisional ballots; to print provisional ballot envelopes with affidavits; bumper stickers and other printed materials distributed to voters to promote participation in the federal election.
- E. Page 10, Vermont State Plan: \$2,018.88 was spent in this reporting period along with state general election funds to do election official and poll worker education and training. The Vermont Secretary of State and the Director of Elections presented over 25 workshops in various locations throughout the state to detail all of the new HAVA requirements such as provisional voting, ID requirement for first time registrants by mail, overvoting procedures and voter education, and detailed memorandum to local municipal clerks regarding all changes in the law to comply with HAVA.
