- purchasing voting equipment that meets voting system standards;
- complying with provisional voting and voting information requirements;
- implementing a computerized statewide voter registration list;
- implementing requirements for voters who register by mail; and
- other activities to improve the administration of federal elections.

In accordance with HAVA and our State plan, the following activities have been funded:

1. **Purchasing voting equipment that meets voting system standards** – In accordance with section 4(a) of the State plan, \$142,173 was spent on new voting equipment that meets the voting system standards of HAVA, section 301.

Additionally, \$1,270,182 was paid as grants to counties for salaries and benefits, good and services, travel, equipment and software to install or upgrade county voter registrations systems. - purchasing voting equipment that meets voting system standards;
- complying with provisional voting and voting information requirements;
- implementing a computerized statewide voter registration list;
- implementing requirements for voters who register by mail; and
- other activities to improve the administration of federal elections.

In a letter dated May 3, 2006, pursuant to HAVA 251(b)(2), Washington State, Secretary Reed, certified to the Election Assistance Commission that Washington State intends to use HAVA Title II requirements payment to carry out other activities to improve the administration of elections for Federal office in an amount less than the minimum amount applicable to Washington under 251 (c), which is \$11,596,803.

Complying with provisional voting and voting information requirements – In accordance with Section 254 of HAVA, \$10,613 was spent producing a HAVA Poster for distribution to all polling places in the state. - **Training Election Officials, Poll Workers and Election Volunteers** – In accordance with Section 4(c) of the State Plan, \$17,578 was spent on training election officials at the state level.
