

Request For Proposal (RFP) Voting Equipment, Software and Services

1 Introduction

Linn County invites your company (Vendor) to submit a proposal for vote tabulation equipment along with associated software and services to support elections administered by the Office of Linn County Auditor.

This Request for Proposal (RFP) should not be construed as an order, offer, request to contract, or commitment by Linn County for this equipment or these services. Vendor shall submit its proposal according to instructions in this RFP.

2 Schedule

The following schedule has been designated for this RFP. The schedule is subject to change at Linn County's discretion.

RFP Release	March 6, 2015
Written Questions Due	March 27, 2015
Proposals due at Linn County	April 22, 2015 (2:00 PM CENTRAL TIME)
Demonstrations & Interviews	May 2015 (schedule to be arranged with RFP respondents)
Proposal Selected	June 15, 2015

Any questions about the meaning, the intent or the specifications must be inquired into by the Vendor in writing no later than March 27, 2015. Direct questions to:

Britt Hutchins - Purchasing Director
Britt.hutchins@linncounty.org
Phone: 319-892-5110

3. Proposal Submission

Proposals must be received by 2:00 PM CENTRAL TIME on April 22, 2015. Proposals shall be submitted in sealed envelopes. Proposals may be hand-delivered in person or mailed to:

Linn County Auditor
935 2nd St SW
Cedar Rapids, IA 52404

The sealed proposals shall not be opened prior to 2:00 PM CENTRAL TIME on April 22, 2015, and will be opened by an authorized Linn County representative only.

The envelope(s) should clearly identify the Vendor submitting the proposal, and should be marked "**Proposal for Voting Equipment, Software and Services.**" Late proposals will not be opened or considered and returned to Vendor. Linn County is not responsible for delays occasioned by the U.S. Postal Service, the internal mail delivery system of the County, or any other means of delivery employed by Vendor. All terms of the proposal shall be held firm for a period of 60 days. Submitted proposals become property of Linn County.

Linn County reserves the right to withdraw or amend this RFP at any time when, in the sole discretion of the Linn County, such action is considered to be in the best interests of Linn County. Linn County further reserves the right to waive irregularities and informalities in a proposal received or in the bidding process, to accept other than the lowest cost proposal(s) and to reject any or all proposals.

The ONLY official position of the County is that which is stated in writing and issued by the Purchasing Division. No other means of communication, whether written or oral, shall be construed as a formal or official response statement. It is the Vendor's responsibility to seek clarification of any ambiguities or other issues regarding this RFP that are not fully understood.

Proposers must submit five (5) copies of its proposal. Proposals shall remain the property of Linn County and will not be returned. Linn County reserves the right to distribute, use, copy, or issue the proposals as necessary based on its criteria and/or need. By submitting its proposal to Linn County, Vendor agrees to accept Linn County's determination of confidentiality and acknowledges that material for which confidential treatment is not granted may be disclosed after the award has been announced.

Vendors will be required to sign a Non Collusion agreement form.

4. Overview of Linn County

The following statistics are presented to give the Vendor a general understanding of the size and complexity of managing elections in Linn County.

Population Data (2010 Census)

County: 211,226 (Cedar Rapids: 126,326)

Voter Registration Data (Active & Inactive) January 3, 2015

County Total: 154,480 (Cedar Rapids: 90,746)

General Election Stats

Year	# Voters	# Reg	Turnout
2008 (Pres)	113,721	146,283	77.74%
2010 (Gov)	80,632	147,969	54.49%
2012 (Pres)	118,711	154,380	76.90%
2014 (Gov)	86,950	153,745	56.55%

Voter Distribution – General Elections

Election	Total Voters	Voters at Polls	Polls % of total	Abst Voters	Abst % of Total
2008 (Pres)	113,721	75,010	66%	38,711	34%
2010 (Gov)	80,632	57,745	72%	22,887	28%
2012 (Pres)	118,711	70,445	59%	48,266	41%
2014 (Gov)	86,950	53,636	62%	33,314	38%

Misc Data

Number of Precincts = 86

Number of PEOs used in 2014 General (Gov) = 587

Number of PEOs used in 2012 General (Pres) = 609

Number of US Congressional Districts = 1 (US Rep District #1)

Number of State Senate Districts = 4 (33, 34, 35 & 48)

Number of State House Districts = 7 (65, 66, 67, 68, 69, 70 & 95)

Number of State Judicial Districts = 1 (6th District)

Number of County Supervisor Districts = 5

Number of School Districts = 11

Number of Community College Director Districts = 6 (Kirkwood)

Number of Cities = 17

Number of Townships That Elect Officers = 9

5. Overview of Linn County Election Services

The staff of Linn County Election Services has extensive experience in creating election databases and ballot layouts. This division of the Office of Linn County Auditor maintains two Election Systems Administrator positions. Current position holders have Bachelor's Degrees in GIS and Computer Science among other degrees and certifications. Linn County intends to continue using internal staff to operate all aspects of the proposed software with minimal Vendor support.

System and software currently owned and operated by Linn County Election Services:

Precinct Optical Scan: AccuVote-OSX

ADA Marking Device: AutoMark

Software: Global Election Management System (GEMS) version 1.20.2.101

6. Vendor Requirements

Vendor must be the proprietary owner or authorized dealer/reseller of all equipment and software presented in this proposal. Vendor must have and maintain staff qualified to provide technical support for all hardware and software presented in this proposal.

Any Vendor who is an authorized dealer, but not the proprietary owner of said equipment and software shall, to the best extent possible, explain their relationship to the proprietary owner as it relates to the Vendor's ability to do the following:

- Acquire and distribute updates to hardware and software.
- Acquire parts for equipment maintenance.
- Effect changes to system software based on customer needs.
- Acquire additional equipment on short notice to support unforeseen needs.

Vendor must provide a minimum of three references, consisting of current clients that purchase similar products or services from Vendor. Provide name, address and phone number of each contact person.

7. Equipment Requirements

All voting equipment must be certified for use in the state of Iowa. Vendors are encouraged to elaborate on the functionality and benefits of the equipment they are proposing.

At a minimum, the proposal shall include the following:

- 86 precinct scanner systems and associated equipment (ballot boxes, memory devices, equipment cases).
- 90 ADA voting devices (86 precincts, 1 office absentee, 3 satellite absentee)
- Central Scan system for tabulating absentee ballots.
 - The Vendor should consider the amount of absentee ballots that Linn County receives during General Elections in determining number of absentee scanners needed.
 - The ownership or custody of additional absentee scanners, along with proposed costs or service fees shall be part of the Vendor's recommendation.
- Backup equipment necessary for possible equipment failures.
 - The number of backups needed shall be part of the proposal as a recommendation from the Vendor.
 - The ownership or custody of any backup equipment, along with proposed costs or service fees shall be part of the Vendor's recommendation.

Linn County is seeking creative solutions to additional equipment needs generated every two years for General Elections. Vendors are encouraged to provide more than one solution to choose from.

In addition, the Vendor is encouraged to provide answers to the following questions

- What is the life expectancy of the proposed equipment?
- Based on the real-world use of the proposed equipment in other jurisdictions, what component has failed the most?
- Based on the real-world use of the proposed equipment in other jurisdictions, out of the 86 Linn County precincts, how many precincts could expect to experience an equipment failure on Election Day?
- How are write-in ballots stored and retrieved from the ballot box?
- Are the proposed precinct scanners optimally designed for 11" or 14" ballots?
- Out of the jurisdictions currently using the proposed equipment, what ballot length is most commonly used?
- What measures are used to avoid equipment tampering?
- If equipment carts are an option for transporting the proposed precinct scanners, can the scanners handle the increased vibration caused by this means of transport?

Finally, the proposal may include value-added equipment of the Vendor's choosing. One example may be a cart for storing and transporting equipment.

8. Software Requirements

All election management software must be certified for use in the state of Iowa. Vendors are encouraged to elaborate on the functionality and benefits of the software they are proposing.

Due to the numerous districts and associated ballot styles that Linn County must manage, the Vendor should include in the proposal a description of all administrative reports and other tools or procedures available to ensure proper setup of an election database.

The Vendor should explain how the software will meet the needs of the media, political campaigns and the public by providing election results quickly and in multiple formats. If the software has the ability to export data for import and analysis in MS Excel, this ability should be highlighted.

At a minimum, the proposal shall include the following:

- Operating system required to support the software.
- Recommended computer specifications.
- Sample of administrative reports/exports.
- Sample of elections results reports/exports.

In addition, the Vendor is encouraged to provide answers to the following questions:

- What are the security requirements for multi-user access to the proposed election management software?
- Can the system be programmed to manage a 2 sheet (4 side) ballot?
- What measures have been taken to avoid system tampering (encryption, etc.)?
- Is there another company's software incorporated into the end product?
- Does the precinct scanner software track and report the number of ballots with write-ins cast?

9. Ballot Printing

The Vendor shall indicate in the proposal their ability to print ballots and identify the location of their ballot printing operation. In addition, it shall be specified whether the Vendor must be the sole printer of ballots.

Linn County has used the printing services of multiple vendors and would prefer to continue to have that option. If the Vendor requires an exclusive printer relationship with the county, the need for this requirement shall be explained in the proposal.

10. Removal and Crediting of Old Equipment

Removal of old equipment shall take place during the 1st Quarter of calendar 2016. Exact dates will be established during contract negotiations. The Vendor shall propose a Removal Plan which specifies the following:

- Equipment that will be purchased by the Vendor for credit towards Linn County's purchase of new equipment.
 - Vendor to specify a credit amount for this equipment
- Equipment that the Vendor is not willing/able to purchase for credit.
 - Vendor to specify a cost, if any, to remove this equipment

The following equipment shall be removed by the Vendor before new equipment can be received:

- OSX Optical Scan: 97 units
- Ballot Boxes: 97 boxes
- AutoMark: 87 units
- Memory Cards: 193 cards

The following equipment shall be retained by Linn County:

- Dell PowerEdge 840 Server

Linn County seeks creative suggestions for the reuse or removal of the equipment carts currently used to store/transport precinct OSX scanners and AutoMarks.

11. Delivery of New Equipment

Delivery of new equipment shall take place during the 1st Quarter of calendar 2016. Exact dates will be established during contract negotiations and shall be coordinated with the removal of old equipment.

12. Training

Training for Linn County Elections Staff shall take place no later than March of 2016. A Training Plan shall be included with this proposal.

13. Equipment Ownership/Custody Options

Due to rapidly changing technology and a political climate that can be unpredictable, it may no longer be in a county's best interest to purchase and own its own equipment. Therefore, Linn County is seeking proposals where equipment ownership is maintained by the Vendor and equipment is leased to the county. Options of a 3-year lease and a 5-year lease shall be included in the proposal.

Leasing options shall be accompanied by proposals of which party, county or Vendor, shall have custody of the equipment when it is not needed for a pending election.

In addition to the leasing options a full purchase option shall also be included in the proposal.

Linn County is not liable for taxes or for amounts representing taxes from which Linn County is exempt as a local government entity. Linn County's Federal Tax ID# 42-6004338.

14. Software Ownership/Custody Options

The Vendor shall propose options for software licensing that will meet the following requirements:

- Allows year-round access to full version of election management software.
- Allows for ownership of computer equipment necessary to run the software.

15. Financing

When proposing leasing options, please specify if financing will be handled in-house or through a third-party.

16. Monetary Penalties

Vendors are hereby notified that Linn County, after selecting a Vendor, will seek to include monetary penalties into the contract during the negotiations. These penalties will be designed to keep deliverables on-time, including any software changes or upgrades agreed upon during negotiations.

17. Service and Support

At a minimum, the proposal shall include the following:

- Physical location of service stations/repair depots.
- Physical location of warehouses/storage facilities where backup equipment is stored.
- Organizational chart of the service and technical support division.
- Experience levels and qualifications of key technical support staff.
- Service plan for annual preventative maintenance and software and firmware updates.

The cost of a service plan shall be included in the proposal, but separate from the cost of equipment and software. The cost of annual software licensing may be included as part of the service plan.

In addition, the Vendor should indicate which parts/components, if any, can be serviced in-house by Linn County (cleaned and/or replaced).

18. Product Demonstrations

Linn County requests a hands-on demonstration of the Vendor's equipment and software. Demonstration dates and times will be established with vendors submitting proposals soon after the proposal deadline. Linn County may choose to not request a full demonstration from all vendors if more than one vendor is presenting similar equipment or software.

The intent of the demonstration is for Linn County Elections Staff, with instruction and supervision from the Vendor, to recreate the 2014 General Election. This will include creating a new database, designing ballots, examining administrative reports, printing ballots, downloading election data to memory devices, casting ballots, uploading election results and examining final reports.

Each demonstration will last 1 day. Vendors shall prepare and bring to the demonstration an alternative database and pre-printed ballots to be used in the event that original demonstration plans cannot be carried out in the time allowed.

An estimated timeline of events and other details about the demonstration will be worked out with each vendor while scheduling their demonstration date.

19. Vendor Interviews

Linn County may request an additional interview with a vendor if questions remain after proposal reviews and product demonstrations. Vendors are also welcome to request an interview to provide additional information or to clarify an answer.

20. Short-Term Plans

The Vendor is encouraged to share company, product or services changes expected in the short term that may impact Linn County's decision in selecting a proposal, such as an upgrade that has not yet been certified in Iowa.

21. Company Vision

Because technology changes rapidly, Linn County would like to give the Vendor an opportunity to share its vision for the future of elections. In particular, the Vendor is welcome to highlight industry innovations that they are leading or participating in.

22. Selection Criteria

Proposals will be evaluated on the basis of the most competitive offer considering quality of products and services offered, cost, responsiveness to the RFP requirements and the Vendors' ability to understand and meet the needs of Linn County. The major criteria that will be used to evaluate proposals will include, but are not limited to, the following:

- Overall suitability of the equipment, software and services to the needs of Linn County.
- Ease of software to create election databases and design ballots.
- Current ability of software. Emphasis will be placed on the software's ability to generate reports sufficient to confirm correct database setup. Also important is the software's ability to report election results in multiple formats.
- Future ability to customize software.
- Creativity shown for payment and financing options (lease with Vendor retaining ownership, lease-to-own, purchase with payment plan, etc.).
- Overall cost of proposal.
- Product service plan and cost.
- Creativity shown for the disposal or continued use of carts that Linn County owns and uses to transport current voting equipment (removal at cost, removal at no cost, credit toward purchase, retrofit for reuse, etc.).
- Vendor's commitment and experience in successfully supporting election operations for other jurisdictions.
- Value-added proposals.

These factors will be weighed in any manner deemed appropriate to select a proposal that is in the best interest of Linn County.

Linn County may interview some or all of the Vendors to determine each Vendor's commitment to the proposed relationship and the quality of services offered. However, Linn County reserves the right to enter into a contract without further evaluation. Therefore, it is important that proposals be as complete as possible.

Linn County reserves the right to accept a proposal other than the lowest priced proposal or to reject, in whole or in part, any or all proposals for any reason.

23 Limitation of Linn County's Liability for this RFP

Issuance of this RFP and any actions taken hereunder shall not create a duty on the part of Linn County to pay any costs incurred by Vendor in connection with, or resulting from, this RFP. This includes, but is not limited to, the preparation or submission of proposals, or responses to inquiries from Linn County related to this RFP or Vendor's proposal; or anticipation of a contract or otherwise with respect to this RFP or Vendor's proposal.

24 Agreement Terms and Conditions

The terms of the final written agreement executed between Linn County and the successful Vendor will be drawn principally from this RFP, the terms and conditions set forth in the Vendor's proposal and accepted by Linn County, and any other conditions, responsibilities, and specifications provided by Linn County. The acceptance of any proposal is conditioned upon the negotiation of a mutually acceptable agreement. If an acceptable agreement is not reached within **thirty (30) days** of vendor selection, Linn County reserves the right to disqualify the Vendor and reevaluate the remaining proposals.

25 Additional Materials Included in this RFP

Vendors are encouraged to review the enclosed packet of Administrative Reports generated from GEMS for the 2014 General Election in Linn County. The reports are those most used by Linn County to verify proper setup of an election database. Vendors should be prepared to demonstrate the tools available in their system to validate proper database setup.

Linn County does not wish to hold up GEMS as the "gold-standard" and is open to and appreciative of different software designs, interfaces and reports. However, since GEMS is the software we currently use, references to it are inevitable and it is wise to use it as a basis for comparison.

**NON-COLLUSION AFFIDAVIT
VOTING EQUIPMENT, SOFTWARE AND SERVICES (15)**

LINN COUNTY, IOWA

Each VENDOR submitting an RFP on this Project shall complete the Non-Collusion Affidavit and submit it with the proposal.

STATE OF IOWA)
COUNTY OF LINN)

I, _____, representing _____, upon oath depose and state that neither (I/we) nor anyone in (my/our) employment has employed any person to solicit or procure this Contract nor will (I/we) nor they make any payment or agreement for payment of any compensation in connection with the procurement of this Contract.

I further depose and state that there is no Contract, Agreement or arrangement, either oral or written, express or implied, contemplating any division of compensation for services rendered under this Contract, or participation therein, directly or indirectly, by any other person, firm or corporation, except if shown by the Contract another VENDOR jointly serving with (me/us) in the same capacity.

I further depose and state that neither (I/we) nor anyone in (my/our) employment has either directly or indirectly entered into any Agreement, participated in any collusion or otherwise taken any action in restraint of free competitive bidding in connection with this Contract.
