

U.S. ELECTION ASSISTANCE COMMISSION

2010 Election Administration & Voting Survey

Rhode Island

Statutory Overview

In order to better understand state laws governing federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help EAC to better understand the quantitative data relating to the 2010 general election that we are collecting from all U.S. states and territories.

EAC understands that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.

SECTION A: GENERAL

A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.

a. Over-vote

| x No Change Since 2008 Changed Since 2008

2008 Response:

[Begin definition (a) below this line.]

State Statute 17-19-24 (c)

- **Overvote:** occurs if the voter connected the head and tail of the arrow beside too many candidates or choices in an office or question. Each office or question has instructions to "Vote for 1" or "Vote for 2" etc. If more candidates or question choices are selected than allowed under the instructions for that office or question, the tabulator will reject the ballot as an overvoted ballot. The voter may request that the Clerk in the polling place void the ballot and issue them a new ballot to mark. Or the voter may instruct the Warden/Moderator to override the error message, however, the office or question in which the error occurred will not be counted since it was marked incorrectly.

[End definition (a) above this line.]

b. Under-vote

| x No Change Since 2008 Changed Since 2008

2008 Response:

[Begin definition (b) below this line.]

| When a voter fails to connect the tail and the head of the arrow to cast a ballot for the maximum number of ~~the~~ candidates in a race it is considered an under-vote.

[End definition (b) above this line.]

c. Blank ballot

2008 Response:

State Statute 17-19-24 (c)

ballot: the voter did not connect any heads and tails of any arrows on the ballot, or did not mark the ballot correctly. The voter may request that the Clerk in the polling place void the ballot and issue a new ballot to mark. Or the voter may instruct the Warden/Moderator to override the error message and cast the ballot as it is, however, no offices or questions may be counted because the ballot was not marked, or was not marked correctly under

[End definition (c) above this line.]

d. Void/Spoiled ballot

| x No Change Since 2008 Changed Since 2008

2008 Response:

[Begin definition (d) below this line.]

The optical scan precinct count unit shall be programmed to return a ballot to the voter if the voter has cast votes for more persons than which he or she is entitled to cast. The warden, by reading the message given on the optical scan precinct count unit, must advise the voter of the fact that the ballot has been over-voted. The voter will be instructed by the warden to remove his or her own ballot from the optical scan precinct count unit ballot slot. The warden will then ask the voter to surrender the ballot as void and receive a new ballot. If the voter agrees, the voter will make additional marks on the ballot so as not to identify the actual votes intended by the voter for the ballot. The ballot will be marked void by the warden and deposited in the receptacle for void ballots provided at the polling place. If the voter insists on casting the over-voted ballot, he or she will be advised that all races, other than the over-voted race, will be counted by the optical scan precinct count unit, and if he or she still insists, the warden will manually override the appropriate control on the unit and allow for the ballot to be entered and counted for all races other than the over-voted race.

(d) In the event a voter incorrectly marks a ballot by indicating his or her choices other than in the spaces provided for them, the ballot will be returned to the voter. The warden, by reading the message given on the optical scan precinct count unit, must advise the voter of the fact that the ballot has been marked incorrectly. The voter will be instructed by the warden to remove his or her own ballot from the optical scan precinct unit ballot slot. The warden will then advise the voter to surrender the ballot as void and receive a new ballot. If the voter agrees, the voter will make additional marks on the ballot so as not to identify the actual votes intended by the voter for the ballot. The ballot will be marked void by the warden and deposited in the receptacle for void ballots provided at the polling place. The warden will then provide for the instruction of the voter on the correct manner of marking his or her vote and the voter will be issued a new ballot. If the voter insists on casting the incorrectly marked ballot, the warden will manually override the appropriate control on the optical scan precinct count unit and allow for the ballot to be accepted.

e. Provisional/Challenged ballot

2008 Response:

[Begin definition (e) below this line.]

State Statute 17-19-24.1 17-19-27

Provisional Voting is a process to insure that all registered voters are allowed to participate in the election process. These qualified voters will be allowed to cast the same ballot as all others however, the disposition (full ballot, federal offices only, or disqualified) of that ballot will be determined by the voter's local board of canvassers. The voter may then determine the disposition of their ballot by clicking on the link below or by calling the Board of Elections at 222-2345.

Who is allowed to vote a provisional ballot?

- A voter whose name is not on the precinct voting list or the master voting list for the Polling Place and the voter does not qualify for the "Affirmation" process.
- The voter's identity has been challenged by an election official.
- The voter has not presented identification as required on the precinct voting list.
- The precinct voting list indicates the voter has applied for a mail or emergency ballot.
- IN A PRIMARY ONLY, the voter claims they are unaffiliated of affiliated with a different party than indicated on the precinct voter list.

Ballot Dispositions

- Full Ballot - All offices and questions on the ballot will be counted.
- Federal Offices Only - Only federal offices on the ballot will be counted.
Congressional race will be counted if the ballot was cast in the correct Congressional District.
- Disqualified Ballot - This ballot will not be counted.

A voter can determine if their provisional ballot was counted by visiting this Web site 48 hours after the election. The voter will need to have their Ballot ID number (printed on Provisional Ballot Receipt) and their Last Name in order to access the information. Or, they can contact their local Board of Canvassers.

SECTION B: VOTER REGISTRATION

B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)

B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?

| ☒ No Change Since 2008 ☐ Changed Since 2008

2008 Response:

[Begin response to above question (B2) below this line.]

If a confirmation notice is mailed to a voter and returned as undeliverable, or if delivered and the voter has not responded within fourteen (14) days from the date of the mailing, the voter shall remain on or be placed on the inactive list and shall not be permitted to vote until the voter has signed an affirmation form at either the approved polling place or at the local board of canvassers as provided in this chapter. If the voter fails to vote by the second general

election following the date of the confirmation mailing, then the voter shall be removed from the voting list. Notwithstanding the foregoing provisions, if the confirmation mailing was based upon the change of address information provided by or through the United States Postal Service National Change of Address Program, and the voter has failed to respond to the confirmation mailing, the voter shall remain on the active list of voters and shall not be required to sign the affirmation form. In these cases, the voter's residence address for voting purposes will be changed by the local board to the new address as indicated by the National Change of Address Program.

This process is automated in our CVRS and all changes to a voter's status are tracked and recorded.

If an inactive voter becomes active, the appropriate local board makes the changes in the CVRS and again the changes are automatically tracked and recorded.

With respect to UOCAVA voters, all UOCAVA voters coming in to CVRS through an FPCA are notated accordingly. When the FPCA expires, they are notified. This process is automated in our CVRS and local boards are prompted when an FPCA expires and a notice needs to be generated. As indicated above, UOCAVA voters in RI are exempt from registration.

B3. Please describe your state's process for removing voters from the voter registration rolls (not merely moving them from active to inactive). Please include information regarding notices and confirmations. Are these procedures the same for UOCAVA voters?

☒ No Change Since 2008 Changed Since 2008

2008 Response:

NCOA requirements are fully integrated with the CVRS. In every odd-numbered year, the active voter file is passed through NCOA and possible address changes are processed through CVRS. In 2009, NCOA reviewed 692,565 active voters and returned possible address changes for 51,108 records. CVRS electronically sent those records to the appropriate city/town for their review and action. All steps in the process are automated and tracked. This return was typical with our usual returns of approximately 10% which has been categorized as average by the NCOA vendor.

Not since they have been implemented.

E2. The Military and Overseas Voter Empowerment Act (MOVE) was signed into law on October 22, 2009. The MOVE Act contains, among other things, provisions regarding States' methods of communication with UOCAVA voters and UOCAVA ballot transmission.

Please describe your State's processes and procedures for implementing MOVE (including any changes in your State's laws or regulations) as they relate to:

- Protecting the security and integrity of the voter registration and ballot application process, the privacy and personal information of the voter, and absentee ballots. (Sect. 577, 578)
- Designating a means of electronic communication for all voting-related materials to UOCAVA voters. (Sect. 577)
- Establishing a ballot tracking mechanism to allow voters to determine whether their ballots were received by the appropriate election official. (Sect. 580(d))

Also, please describe your State's plans to capture data related to the number of registration applications, ballot applications, and blank ballots transmitted to UOCAVA voters via mail and electronic means (Internet, email, fax) and the number of registration applications, ballot applications, and completed ballots returned by UOCAVA voters via mail and electronic means (Internet, email, fax).

This question was not asked in 2008. Please provide your answer below.

Protecting the security and integrity of the voter registration and ballot application process, the privacy and personal information of the voter, and absentee ballots. (Sect. 577, 578)

▲ FPCA forms and mail ballot applications from UOCAVA voters are currently processed using the same secure processes as we use for all other voters through our

state central voter registration system (CVRS), which is HAVA compliant. Additionally UOCAVA voters use the fax transmission program sponsored by the FVAP for the transmittal of their ballot and related ballot materials.

By state law, these processes have been in place for several years.

Designating a means of electronic communication for all voting-related materials to UOCAVA voters. (Sect. 577)

- ▲ RI law currently allows UOCAVA voters to send and receive mail ballot applications, mail ballots and all related materials through fax transmission.

Local boards of canvassers may also communicate through fax transmissions with UOCAVA voters.

State mail ballot applications and FPCA forms provide a space for applicant to indicate the fax number to which their materials should be sent. Rhode Island also provides this information to the Federal Voting Assistance Program (FVAP) for inclusion in their Voting Assistance Guide.

All voter-related material and applications are also available on the Secretary of State's website at www.sos.ri.gov where UOCAVA voters can download, complete and fax applications to the state.

By state law, these processes have been in place for several years.

Establishing a ballot tracking mechanism to allow voters to determine whether their ballots were received by the appropriate election official. (Sect. 580(d))

In Rhode Island, as indicated above, the CVRS is a state-based "top-down" system and all voter registration and mail ballot data entered is stored real-time in the state CVRS database. The Office of the Secretary of State, local canvassing authorities and the State Board of Elections, as the case may be, enter information regarding the dates each step occurred in the delivery and receipt of each absentee ballot application and official ballot. This information is made available with a nightly update on the Secretary of State's website's Voter Information Center (VIC) application. VIC is easily accessible to any UOCAVA voter that has access to the Internet at www.sos.ri.us/VIC. Their record will show the date the mail ballot application was received by the local board of canvassers; the date it was certified to the Secretary of State; the date the Secretary of State mailed the ballot to the voter; and the date the Board of Elections received the voted ballot.

Again, by administrative procedures, this process has been in place for several years.

voters via mail and electronic means (Internet, email, fax) and the number of registration applications, ballot applications, and completed ballots returned by UOCAVA voters via mail and electronic means (Internet, email, fax).

Every voter has a unique ID assigned to them in our CVRS, all registration and mail ballot events and data are captured and stored by those unique ID's. CVRS has the ability to identify all UOCAVA voters and their activities for a given election. We will be able to report the number of UOCAVA registrations for a given period, the number of ballot applications received for a given election, the number of blank ballots transmitted by fax for a given election, the number of returned voted ballots for a given election; and the number of ballots returned by fax. As UOCAVA voters are exempt from the regular registration process in Rhode Island, UOCAVA voters are entered into the system as UOCAVA and are easily tracked.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is OMB Control No. 3265-0006 (expires 5/31/2013). The time required to complete this information collection is estimated to average 59 hours per state response. This estimate includes the time for reviewing the instructions, gathering information, and completing the form.
