

## U.S. ELECTION ASSISTANCE COMMISSION

### *2010 Election Administration & Voting Survey*

#### **North Dakota**

## *Statutory Overview*

In order to better understand state laws governing federal elections, the U.S. Election Assistance Commission, as part of its biennial Election Administration and Voting Survey, is collecting information on state election laws and procedures. These answers will help EAC to better understand the quantitative data relating to the 2010 general election that we are collecting from all U.S. states and territories.

EAC understands that responding to this Statutory Overview may require significant staff time on the part of your office. Please be assured that we have attempted to minimize the burden, and we appreciate your cooperation in this very important project.

## DIRECTIONS AND EXAMPLE

Please provide your state's legal citation for the responses to these questions (where applicable). Prior to beginning the Statutory Overview, please ensure that "track changes" is turned on; this will provide a record of all changes that are made including insertions, deletions, and formatting changes. To turn on track changes hold down "Control" and "Shift" and "E" at the same time. For additional assistance in working with "track changes" please contact your Technical Assistance point of contact at ICF International.

We have provided you with your answers to the 2008 Statutory Overview. If there has not been a change in your State's laws or legal citation in the response to a question, please mark No Change Since 2008 with an "X" as shown below:

  X   No Change Since 2008

If the response has changed since 2008, please mark Changed Since 2008 with an "X" and modify the answer as needed using track changes. If you need to replace the entire answer, please delete the 2008 response and record your 2010 response between the red bracketed text lines, as described below.

  X   Changed Since 2008

Please answer each question to the best of your ability. If terms are ambiguous or not relevant, please explain why. If a question is not applicable to your state, please explain why. If a definition or term lacks statutory reference but is widely understood in practice, please explain. If election procedures vary at the local level within your state, please explain to the best of your ability.

If state laws are currently enjoined or otherwise blocked from enforcement by a state or federal court, or executive decision, please specify.

Please keep your responses between the red, bracketed text lines. This will help us extract your answers into our central database.

## SECTION A: GENERAL

**A1. How does your state define the following terms related to votes and ballots? Please provide your state's legal citation defining these terms, where applicable.**

**a. Over-vote**

  X   No Change Since 2008          Changed Since 2008

**2008 Response:**

[Begin definition (a) below this line.]

(Beginning note: Please be aware that every voter in North Dakota votes on a paper ballot. The voter is required to darken the oval on the ballot next to the candidate or measure response for which they intend to cast a vote. In the event of a recount, however, voter intent, as far as it can be determined, is taken into account for the final vote tally. Every voter casting their ballot at a polling location does so by inserting their ballot into a polling place optical scan tabulator. Absentee ballots are counted by optical scan tabulators, but the voter is not present when the votes are read by the voting system. Knowing these things from the start should shed significant light on the answers given.)

Over-Vote: This term is not specifically defined in state law, but it is understood as the voter indicating more choices than are allowed for a particular contest on the ballot so that it is impossible to determine the voter's selection. The state's optical scan tabulators are programmed to notify the voter if an over-vote is detected to see if they voter would like a second chance to mark a ballot in a manner that will allow the tabulator to identify the voter's selections.

[End definition (a) above this line.]

**b. Under-vote**

  X   No Change Since 2008          Changed Since 2008

**2008 Response:**

[Begin definition (b) below this line.]

This term is not specifically defined in state law, but it is understood as the voter indicating fewer choices than are allowed for a particular contest on the ballot. The state's optical scan tabulators may be programmed to notify the voter if an under-vote exists, but this is not the general practice since the voter is not required to vote for a certain number of candidates or measure responses. The voter instructions limit the voter to whatever the "Vote For" language is printed on the ballot in connection with a contest.

**16.1-06-04. Form and quality of ballots generally.** All official ballots prepared under this title must:

1. Be printed on uniform quality and color of paper in an ink color suitable to make the ballot clearly legible and compatible with the electronic voting system requirements necessary to tabulate the votes.
2. Be of sufficient length to contain the names of all candidates to be voted for at that election.
3. Have the language "Vote for no more than \_\_\_\_\_ name (or names)" placed immediately under the name of each office.
4. Have printed thereon "To vote for the candidate of your choice, you must darken the oval opposite the name of the candidate. To vote for a person whose name is not printed on the ballot, write that person's name in the blank space provided for that purpose and darken the oval opposite the space provided."
5. Leave sufficient space for each office to write a name, or names, as the case may be, in lieu of those printed on the ballot.
6. Immediately preceding and on the same line as the name of each candidate must be printed an oval in which the voter is to mark the voter's choice by darkening the oval next to the name of the candidate chosen.
7. Provide two text boxes in the bottom right-hand corner of the party ballot. The first text box is to contain the words "All ballots, other than those used to vote absentee, must first be initialed by appropriate election officials in order to be counted." The second text box is to contain the words "Official Ballot", the name of the county, the name or number of the precinct, the date of the election, and the word "initials" preceding a blank line where the judge or inspector shall initial the ballot.

All ballots, other than  
those used to vote absentee,  
must first be initialed by  
appropriate election officials  
in order to be counted

Official Ballot  
County  
Precinct  
(Date of the Election)  
Initials

Any precinct that uses an electronic counting machine may require the use of a particular writing instrument to mark the ballot so the ballots may be properly counted.

The ballot must contain the names of all candidates, the contents of measures as required by section 16.1-06-09, and the statements of questions to be submitted to

the voters. The ballot must be arranged in a manner and form approximating as far as possible the requirements of this section.

[End definition (b) above this line.]

**c. Blank ballot**

  X   No Change Since 2008           Changed Since 2008

**2008 Response:**

[Begin definition (c) below this line.]

This phrase is also not specifically defined in state law, but it is understood as a ballot deposited by a voter into the ballot box without votes marked for any candidate or measure response in every contest on the ballot. The state's optical scan tabulators are programmed to notify the voter if a blank ballot is detected. The voter does have the right to cast a blank ballot, but we have the tabulator question the voter for the slight chance that the voter didn't follow the instructions on the ballot to mark their choices properly.

[End definition (c) above this line.]

**d. Void/Spoiled ballot**

  X   No Change Since 2008           Changed Since 2008  
**(Minor change to law but nothing substantive related to this topic)**

**2008 Response:**

[Begin definition (d) below this line.]

These are two separate terms with different meanings under North Dakota law.

Void Ballot is a ballot from which votes cannot be counted for the following reasons:

1. The ballot was used as a sample ballot for display purposes in the polling location
2. The ballot is missing the initials of an election judge
3. The law does grant us the authority to not count a ballot that is blank or one in which it is impossible to determine any of the voter's choices, but we have elected to count these ballots since they were actually cast by a voter.

**16.1-15-01. Ballots void and not counted – Part of ballot may be counted.**

1. In the canvass of the votes at any election, a ballot is void and may not be counted if:

- a. It is not endorsed with the initials as provided in this title; or
  - b. It is impossible to determine the elector's choice from the ballot or parts of a ballot, and in the case of electronic voting systems, based upon the criteria established by the secretary of state for counting votes on each electronic voting system authorized for procurement and use in the state according to section 16.1-06-26.
2. With the exception that a voter must, for paper ballots, darken the oval next to the preprinted name of a candidate or the name of a write-in candidate written on the ballot, if a ballot is marked so only a part of the voter's intention can be determined, the election judges shall count such part. If an elector votes for more than the number of persons to be elected to any office, the elector's ballot may be invalidated only insofar as the elector's vote for such office is concerned, and the balance of the elector's ballot, if otherwise proper, may not be invalidated. However, at primary elections only, a party ballot is void if the elector votes for candidates of more than one party.

A Spoiled Ballot is referenced in state law, but not specifically defined. In general it is used for the circumstance when a voter makes a mistake on their ballot and would like a new one to mark their selections correctly.

**16.1-13-23. Preparation of ballot by elector – Depositing – Second-chance voting.** Upon receipt of a ballot within the provided secrecy sleeve, the elector, forthwith and without leaving the polling place, shall retire alone to one of the voting booths or compartments to prepare the elector's ballot by darkening the oval opposite the name of each person for whom the elector wishes to vote. In the case of a ballot containing a constitutional amendment, an initiated or referred measure, or any other question to be submitted to a vote of the people, the elector shall darken the oval opposite the word or words expressing the elector's wish. After preparing the ballot, the elector shall place the ballot back in the provided secrecy sleeve so it is concealed and so the endorsement of the inspector or election judge may be seen. The elector then shall deposit the ballot in the optical scanning device and wait to determine if the ballot is deposited into the ballot box or if the optical scanning device has indicated a possibility for a second-chance voting condition. **If a second-chance voting condition is indicated, a voter may spoil and receive up to two additional ballots. The voter's third ballot must be cast as is even if errors exist causing certain votes not to be counted.**

**16.1-13-32. Securing new ballot upon spoiling of others.** If any elector spoils a ballot, the elector may obtain others successively, one at a time, not exceeding three in all, upon returning each spoiled ballot. Each paper ballot returned must be canceled immediately and, together with those not distributed to the electors, must be preserved and secured in sealed packages and returned to the county ~~auditor from whom received~~recorder.

**16.1-15-08. Wrapping and returning of ballots to county recorder.** After generating the reports and poll lists provided for in section 16.1-15-06 for delivery to the county auditor, the election board shall cause the ballots containing lawful write-in votes cast at the election to be placed in a suitable wrapper to form a complete wrapper for the ballots. All ballots without write-in votes shall be wrapped in a similar manner. The ballots and wrappers must then be tightly secured at the outer end to completely envelop and hold the ballots together. Ballots that are void must be secured in a separate wrapper and must be marked "void". Ballots that are spoiled must be separately secured and marked "spoiled". In sealing ballots, the various classes of ballots must be kept separate. Each wrapper must be endorsed with the names or numbers of the precincts and the date on which the election was held. The wrappers must be sealed securely in a manner prescribed by the county auditor so the wrappers cannot be opened without an obvious and permanent breaking of the seal. The ballots, together with those found void or spoiled, and the opened envelopes from voted absentee ballots and the unopened envelopes of absentee ballots rejected as defective, must be returned in person to the county recorder. At the meeting of the county canvassing board, the county recorder shall deliver the ballots containing lawful write-in votes from all the precincts within the county. At the meeting of the county canvassing board, the county recorder shall deliver each ballot that may contain a write-in vote referenced in a demand made under subsection 1 of section 16.1-12-02.2. Ballots used with any electronic voting system or counted by an electronic counting machine must be sealed and returned as provided in this section.

**e. Provisional/Challenged ballot**

  X   No Change Since 2008           Changed Since 2008

**2008 Response:**

[Begin definition (e) below this line.]

These are the only provisional ballots allowed according to state law:

**16.1-13-34. Voters casting ballots after regular poll closings – Provisional ballots.** An individual who votes after the regular poll closing time in an election in which a federal office appears as a result of a federal or state court order or any other order extending the time established for closing the polls under state law in effect ten days before the date of that election may only vote in that election by casting a provisional ballot. The ballot must be marked as a provisional ballot and must be separated and held apart from other ballots cast by those not affected by the order. The secretary of state shall approve the form of any provisional ballot

and may prescribe any procedures the secretary of state determines to be necessary to facilitate the casting, secrecy, and counting of provisional ballots.

[End definition (e) above this line.]

**f. Absentee**

  X   No Change Since 2008           Changed Since 2008  
(Minor change to accommodate 45-day ballot availability date required by the MOVE Act)  
2008 Response:

[Begin definition (f) below this line.]

Any qualified elector of North Dakota may vote an absent voter's ballot prior to any election without need of a reason. A voter may obtain and cast their absent voter's ballot by either of the following ways:

1. Mail their absentee ballot application to the county election official, receive the ballot by mail, vote the ballot, and return it by mail to the county office where it will be accounted for in the Central Voter File and secured until it is processed on Election Day.
2. Whenever the ballots are ready for distribution from the county, which must be at least 40 days prior to the election, a voter may walk-in to the county office, request their ballot, vote, and return the ballot to the county office where it will be accounted for in the Central Voter File and secured until it is processed on Election Day.

UOCAVA voters have additional rights in that their ballot can be sent and returned electronically if they so desire. These ballots for UOCAVA voters are available 45 days prior to the election.

**16.1-07-01. Absent voter – Who may vote.**

1. Any qualified elector of this state, including an individual who is in the armed forces of the United States, is in the merchant marine of the United States, or is a United States citizen living outside the United States who resided in this state immediately prior to the individual's departure from the United States, may vote an absent voter's ballot at any general, special, or primary state election, any county election, or any city or school district election.
2. A citizen of the United States who is eighteen years of age or older, has never lived in the United States, and whose parent is a qualified elector of the state may vote absentee in this state pursuant to this chapter if the individual:
  - a. Does not maintain a domicile;

- b. Is not registered to vote in any other state, territory, or possession of the United States;
- c. Is not voting in any other state, territory, or possession of the United States; and
- d. Possesses a valid passport or card of identity and registration issued under the authority of the secretary of state of the United States.

Such an elector may vote only in federal elections, which means any election held solely or in part for the purpose of electing or nominating any candidate for the office of president, vice president, presidential elector, member of the United States senate, or member of the United States house of representatives.

- 3. An elector who votes by absentee ballot may not vote in person at the same election.

**2008 Response:**

[Begin definition (g) below this line.]

A county may operate ~~one~~ Early Voting ~~Precinct~~ Precincts for the entire county during the 15 days prior to Election Day. ~~This~~ These polling ~~location has~~ locations have the same look and feel as Election Day voting at a polling place.

**16.1-07-15. Early voting precinct – Election board appointment – Closing and canvassing.**

- 1. For any primary, general, or special statewide, district, or county election, the board of county commissioners may, before the sixtieth day before the day of the election, create a special precinct, known as an early voting precinct, to facilitate the conduct of early voting in that county according to chapters 16.1-13 and 16.1-15. At the determination of the county auditor, more than one voting location may be utilized for the purposes of operating the early voting precinct. The election board of the early voting precinct must be known as the early voting precinct election board. The county auditor shall supply the board with all necessary election supplies as provided in chapter 16.1-06.
- 2. If the board of county commissioners establishes an early voting precinct according to this section, the following provisions apply:

- a. Early voting must be authorized during the fifteen days immediately before the day of the election. The county auditor shall designate the business days and times during which the early voting election precinct will be open and publish notice of the early voting center locations, dates and times in the official county newspaper once each week for three consecutive weeks immediately before the day of the election.
- b. The county auditor shall appoint the early voting precinct election board for each voting location that consists of one independent representative to act as the inspector and an equal number of representatives from each political party represented on an election board in the county, as set out in section 16.1-05-01, to act as judges. Each official of the board shall take the oath required by section 16.1-05-02 and must be compensated as provided in section 16.1-05-05.
- c. The county auditor, with the consent of the board of county commissioners, shall designate ~~a space~~ each early voting location in a public facility, accessible to the elderly and the physically disabled as provided in section 16.1-04-02, ~~to locate the early voting precinct.~~ With respect to polling places at early voting precincts, "election day" as used in sections 16.1-10-03 and 16.1-10-06.2 includes any time an early voting precinct polling place is open.
- d. At the close of each day of early voting, the inspector, along with a judge from each political party represented on the board, shall secure all election-related materials, including:
  - (1) The pollbooks and access to any electronically maintained pollbooks.
  - (2) The ballot boxes containing voted ballots.
  - (3) Any void, spoiled, and unvoted ballots.
- e. Ballot boxes containing ballots cast at an early voting precinct location may not be opened until the day of the election except as may be necessary to clear a ballot jam or to move voted ballots to a separate locked ballot box in order to make room for additional ballots.
- f. ~~The Each~~ early voting precinct location may be closed, as provided in chapter 16.1-15, at the end of the last business day designated for early voting in the county. Results from the early voting precinct may be counted, canvassed, or released under chapter 16.1-15 as soon as any precinct within the county, city, or legislative district closes its polls on the day of the election. The county auditor shall designate a location for the closing, counting, and canvassing process under chapter 16.1-15, which location must be open to any person for the purpose of observing.
- g. The early voting precinct election board shall comply with the requirements of chapters 16.1-05, 16.1-13, and 16.1-15, as applicable.

Any qualified elector who voted in an election during the time between and including the last two General Elections.

**16.1-02-03. Secretary of state to establish the central voter file with department of transportation and county auditors.**

1. Not later than the primary election in 2008, the secretary of state shall establish the central voter file in cooperation with the department of transportation and county auditors.
2. The secretary of state shall establish the initial central voter file from records maintained by the department of transportation. Each county auditor shall compare the initial central voter file against all precinct pollbooks used in the auditor's county during and created from the general elections in the two previous election years and any reasonably reliable updates made by the county auditor since the general elections in the two previous election years. Any individual contained in the initial central voter file who voted at either of the general elections in the two previous election years must be designated as "active" in the initial central voter file. Any individual contained in the initial central voter file who did not vote at either of the general elections in the two previous election years must be designated as "inactive" in the initial central voter file.
3. Each individual contained in the initial central voter file must be assigned a unique identifier. An individual's unique identifier must be created from unique information and data obtained from records maintained by the department of transportation and the pollbooks from the general elections in the two previous election years. If it is not possible to assign a unique identifier to an individual contained in the initial central voter file, a unique identifier must be randomly generated and assigned to the individual.
4. The secretary of state shall adopt rules for generating and assigning a unique identifier to each individual contained in the central voter file according to section 16.1-02-11 and subsection 3 of section 16.1-01-01.

5. When establishing the initial central voter file from the records maintained by the department of transportation and the pollbooks from the general elections in the two previous election years, the secretary of state and county auditors shall attempt to correct address errors and misspellings of names.

The election board must consist of an election inspector and at least two election judges. Counties utilizing polling places containing more than one precinct may choose to use one election board to supervise all precincts even if the precincts are within different legislative districts so long as each district chairman of each qualified political party is given the opportunity to have representation on the election board if desired.~~

- ~~1. The election inspector must be selected in the following manner:
  - ~~a. Except as provided in subdivision b, in all precincts established by the governing body of an incorporated city pursuant to chapter 16.1 04, the governing body shall appoint the election inspectors for those precincts and~~~~

~~fill all vacancies occurring in those offices.~~

- ~~b. In all multiprecinct polling locations containing both rural and city precincts, the county auditor, with the approval of the majority of the board of county commissioners, shall appoint the election inspectors and fill all vacancies occurring in those offices. The selection must be made on the basis of the inspector's knowledge of the election procedure.~~
- ~~e. The election inspector shall serve until a successor is named. If an inspector fails to appear for any training session without excuse, the office is deemed vacant and the auditor shall appoint an individual to fill the vacancy.~~

~~All appointments required to be made under this section must be made at least forty days preceding an election.~~

- ~~2. The election judges for each polling place must be appointed in writing by the district chairs representing the two parties that cast the largest number of votes in the state at the last general election. In polling places in which over one thousand votes are cast in any election, the county auditor may request each district party chair to appoint an additional election judge.~~
- ~~3. The district party chair shall notify the county auditor of the counties in which the precincts are located of the appointment of the election judges at least forty days before the primary, general, or special election. If this notice is not received within the time specified in this section, the county auditor shall appoint the judges. If the county auditor has exhausted all practicable means to select judges from within the boundaries of the precincts within the polling place and vacancies still remain, the county auditor may select election judges who reside outside of the voting precinct but who reside within the polling place's legislative districts. If vacancies still remain, the county auditor may select election judges who reside outside of the legislative districts but who reside within the county.~~
- ~~4. If at any time before or during an election, it shall be made to appear to an election inspector, by the affidavit of two or more qualified electors of the precinct, that any election judge is disqualified under this chapter, the inspector shall remove that judge at once and shall fill the vacancy by appointing a qualified person of the same political party as that of the judge removed. If the disqualified judge had taken the oath of office as prescribed in this chapter, the inspector shall place the oath or affidavit before the state's attorney of the county.~~
- ~~5. With the approval of the majority of the board of county commissioners, the county auditor may appoint as many poll clerks as are necessary for the proper administration of a polling place. However, no fewer than two poll clerks must be appointed for each polling place. Poll clerks must be appointed based on their knowledge of election matters, attention to detail, and on any necessary technical knowledge.~~

#### Post Election Testing of Voting Systems

**~~16.1-06-15. Mandatory testing of electronic voting systems before each election and after tabulation of ballots.~~**

- ~~1. All electronic voting systems used in this state must be tested to ascertain whether the automatic tabulating equipment will accurately count the votes cast for all offices and measures. The testing must be conducted prior to each election at which the system will be used. The testing must be done by the county auditor or county auditor's designee, and after each test, the testing materials and any preaudited ballots used during the test must be sealed and retained in the same manner as election materials after an election.~~
- ~~2. The test of an electronic voting system employing paper ballots must be conducted by processing a preaudited group of ballots on which are recorded a predetermined number of valid votes for each candidate and measure and must include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to reject such votes. During the test a different number of valid votes must be assigned to each candidate for an office and for and against each measure. If an error is detected, the cause of it must be ascertained and corrected, and an errorless count must be secured and filed as provided in this section.~~
- ~~3. The test must be conducted at least one week before the election. One week before the test is conducted, the county auditor must send the district chairman of each political party having a candidate on the ballot a notice of the test. The notice must state the time, place, and date of the test or tests and that the district chairman or district chairman's designee may attend.~~
- ~~4. At the conclusion of the test, the programming for each electronic voting device must be sealed within the device with a unique numbered seal that must be verified by the election inspector before the opening of the polls to make sure the programming has not been removed from the device.~~
- ~~5. After each election, the secretary of state shall order a random testing of the voting system programming for one precinct in each county of the state according to logic and accuracy testing procedures detailed in subsection 2 and as may be further defined by the secretary of state in writing. This test is to be conducted before the meeting of the county canvassing board.~~

Added Requirements for Absentee Ballot Application for Matching Purposes Only

**~~16.1-07-06. Application form.~~**

- ~~1. Application for an absent voter's ballot must be made on a form, prescribed by the secretary of state, to be furnished by the proper officer of the county, city, or school district in which the applicant is an elector, on any form, approved by the secretary of state, or any blank containing the following information:~~

- a. ~~The applicant's name.~~
- b. ~~The applicant's current or most recent North Dakota residential address.~~
- c. ~~The applicant's mailing address.~~
- d. ~~The applicant's current home telephone number.~~
- e. ~~The election for which the ballot is being requested.~~
- f. ~~The date of the request.~~
- g. ~~An affirmation that the applicant has resided, or will reside, in the precinct for at least thirty days next preceding the election.~~
- h. ~~The applicant's signature.~~
- i. ~~A space for the voter to include the voter's precinct or voting location, if known.~~
- j. ~~The applicant's birth date and year.~~
- k. ~~The applicant's motor vehicle operator's license or nondriver identification number, if available.~~

~~If the applicant is unable to sign the applicant's name, the applicant shall mark (X) on the application in the presence of a disinterested person. The disinterested person shall print the name of the person marking the X below the X and shall sign the disinterested person's own name following the printed name together with the notation "witness to the mark".~~

- 2. ~~The application for a qualified elector serving on active duty as a uniformed service member or a family member who is a qualified elector and stationed at a location other than that individual's voting residential address must include the following additional information if the voter desires to vote by facsimile or electronic mail:~~

- a. ~~Facsimile telephone number; or~~
- b. ~~Electronic mail address.~~

- 3. ~~The application for a qualified elector living outside the United States must include a facsimile telephone number or electronic mail address if the voter desires to vote by facsimile or electronic mail.~~

#### ~~Electronic Poll Books Authorized~~

~~**16.1-11-32. Poll lists kept by clerks of elections.** The clerks of primary elections shall keep either one paper or one electronic list of the names of all persons voting at each primary election. The clerks must return the list, which must be a part of the records and filed with other election returns. Only one complete list of voters may be kept whether or not a special election is held simultaneously with the primary election.~~

#### ~~Mail Ballot Elections Authorized for All Elections~~

### ~~Chapter 16.1-11.1 — Mail Ballot Elections~~

#### ~~16.1-11.1-01. Counties may conduct mail ballot elections — Polling places —~~

~~**Records.** The board of county commissioners of a county may conduct an election by mail ballot. The mail ballot election must include city elections administered by the county auditor and may include any other election administered by the county auditor pursuant to an agreement with the governing body of a political subdivision within the county. The board shall designate at least one polling place in the county to be open on the day of the election for voting in the usual manner. The county auditor shall place a notice at all polling places in the county used at the last statewide election which states the location of the polling places open for the election. The county auditor shall keep a record of each mail ballot provided to qualified electors and provide to the election board at each polling place open on the day of the election a list of every person who applied for a mail ballot.~~

~~**16.1-11.1-02. Application for mail ballots.** The county auditor shall mail an application form for a mail ballot to each person listed in the central voter file for the county on one date no sooner than the forty fifth day before the election and no later than the thirtieth day before the election. The county auditor, for two consecutive weeks after the date on which the mail ballot applications are mailed, shall publish in the official newspaper of the county an application form for a mail ballot and a notice that additional mail ballot applications may be obtained from the election official. The application form for a mail ballot must be in substantially the following form:~~

~~I, \_\_\_\_\_, am or will be a qualified elector~~

~~(please print name)~~

~~and to my best knowledge and belief am or will be entitled to vote at the election. I apply for an official mail ballot to be voted by me at that election. I understand that it is a criminal offense to knowingly vote when not qualified to do so.~~

~~I have or will have resided at the below address for at least thirty days before the election. My telephone number is \_\_\_\_\_.~~

~~Dated \_\_\_\_\_, \_\_\_\_\_.~~

~~\_\_\_\_\_  
(Signature of Applicant)~~

~~\_\_\_\_\_  
(Mailing Address)~~

~~\_\_\_\_\_, North Dakota \_\_\_\_\_  
(City) (Zip Code)~~

~~**16.1-11.1-03. Mail ballot distribution.** The county auditor shall mail an official mail ballot with a return identification envelope and instructions sufficient to describe the voting process to each qualified elector who returns a properly completed application form to the auditor by five p.m. on the fourth day before the election. The voting instructions must contain a statement informing the elector that the elector is entitled to complete the mail~~

ballot in secrecy. The auditor shall mail the ballot by first class mail, addressed to the address of the elector completing and returning a mail ballot application, and placed in an envelope that is prominently marked "Do Not Forward". The return identification envelope must contain the following form:

I, \_\_\_\_\_, under penalty of possible criminal prosecution  
(please print name)

for making a false statement, certify that I am or will be a qualified elector for the election and have not and will not vote more than one ballot in this election. I also understand that failure to complete the information below will invalidate my ballot.

\_\_\_\_\_  
(Signature of voter)

\_\_\_\_\_  
(Mailing Address)

\_\_\_\_\_, North Dakota \_\_\_\_\_  
(City) (Zip Code)

**16.1-11.1-04. Voting by electors.** Upon receipt of a mail ballot, an elector shall mark it, sign the return identification envelope, and comply with the instructions provided with the ballot. The elector may return the completed ballot to the county auditor by mail or, before five p.m. on the day before the election, to any other place of deposit designated by the auditor. If the elector returns the ballot by mail, the elector shall provide the postage, and the ballot must be postmarked no later than the day before the election.

**16.1-11.1-05. Replacement ballots.** An elector may obtain a replacement ballot if a mail ballot is destroyed, spoiled, lost, or not received by the elector. The elector seeking a replacement ballot shall sign a sworn statement that the ballot was destroyed, spoiled, lost, or not received and shall present the statement to the county auditor no later than four p.m. on the day before the election.

**16.1-11.1-06. Canvass of votes—Special election board.** The county auditor shall appoint a special election board for the purpose of counting mail ballots. The board may begin scanning the ballots after the polls open on the day of the election but may not total the results until the closing time of the polls. A county conducting a mail ballot election constitutes one voting area, and ballots need not be sorted according to precinct or ward unless necessary for the administration of the election.

**16.1-11.1-07. Counting of mail ballots.** A mail ballot may be counted only if:

1. The ballot is returned in the return identification envelope;
2. The envelope is signed by the elector to whom the ballot is issued; and
3. The signature has been verified by the election board with the signature on the elector's mail ballot application form.

**16.1-11.1-08. Election laws applicable.** When applicable, all election procedures provided in this title must be followed.

Removal of Voter Disability Declaration in order to Receive Assistance

~~16.1-13-27. Assistance to elector — Polling place accessibility.~~ Any elector may receive the assistance of any person of the elector's choice, other than the elector's employer, officer or agent of the elector's union, a candidate running in that election, or a relative of a candidate as provided in subsection 2 of section 16.1-05-02, in marking the elector's ballot. If the elector requests the assistance of a member of the election board, however, the elector shall receive the assistance of both election judges in the marking of the elector's ballot. No one assisting any elector in marking a ballot under this chapter may give information regarding the ballot. No elector, other than one who requests assistance, may divulge to anyone within the polling place the name of any candidate for whom the elector intends to vote, nor ask, nor receive the assistance of any person within the polling place to mark the elector's ballot. Parking facilities at polling places must be accessible to the elderly and the physically disabled and must be clearly marked.

**16.1-05-06. Challenging right to vote – Identification or affidavit required – Penalty for false swearing – Optional poll checkers.**

1. Three poll challengers appointed by the district chairman of each political party represented on the election board are entitled to be in attendance at each polling place. Individual poll challengers may be replaced at any time during the hours of voting, but no more than three poll challengers from each political party are entitled to be in attendance at each polling place at any one time.
2. Any member of the election board may challenge the right of an individual to vote if the election board member has knowledge or has reason to believe the individual is not a qualified elector. A poll challenger may request members of the election board to challenge the right of an individual to vote if the poll challenger has knowledge or has reason to believe the individual is not a qualified elector of the precinct. A challenge may be based upon any one of the following:
  - a. The individual offering to vote does not meet the age or citizenship requirements.
  - b. The individual offering to vote has never voted in the precinct before, the name of the individual offering to vote does not appear in the pollbook generated from the central voter file, and the individual fails to provide reasonable evidence of residency in the precinct.
  - c. Except as provided in section 16.1-01-05, the individual offering to vote physically resides outside of the precinct.
  - d. The individual offering to vote does not meet the residency requirements provided in section 16.1-01-04.
  - e. The individual offering to vote fails or refuses to provide an appropriate form of identification as requested under subsection 3.
3. If after an election board member has requested that the individual offering to vote provide an appropriate form of identification to address any of the voting

eligibility concerns listed in subsection 2 and the identification is not provided or does not adequately confirm the eligibility of the challenged individual, the challenged individual may not vote unless the challenged individual executes an affidavit, acknowledged before an election board member, that the challenged individual is a legally qualified elector of the precinct.

4. The affidavit must include:

- a. The name of the affiant.
- b. The address of the affiant.
- c. The birth date of the affiant.
- d. The contact telephone number of the affiant.
- e. The address of the affiant at the time the affiant last voted.
- f. The previous last name of the affiant if it was different when the affiant last voted.
- g. The identification number and state of any state-issued identification regardless of the state in which the identification was issued, if available.
- h. A recitation of the qualifications for voting as set forth in section 16.1-01-04 and the rules for determining residence.
- i. Notice of the penalty for making a false affidavit and that the county auditor is required to verify the affidavit.
- j. A notice indicating that the affidavit is not an open record, but that information identifying who voted after executing an affidavit is an open record as part of the pollbook, except A notice indicating for any individual listed as secured active in the central voter file under section 16.1-02-13.
- k. A place for the affiant to sign and swear to the affiant's qualifications as a voter.

5. Written notice of the penalty for making a false affidavit and that the county auditor shall verify the affidavits must be prominently displayed at the polling place in a form prescribed by the secretary of state. An individual who falsely swears in order to vote is guilty of a class A misdemeanor and must be punished pursuant to chapter 16.1-01.

6. The district chairman of each political party represented on the election board may appoint poll checkers to a polling place, provided the poll checkers do not interfere with the election process or with the members of the election board in the performance of their duties. Poll challengers must be qualified electors of the district in which they are assigned.

7. No poll challenger or checker may be a member of the election board.

8. The district chairman shall notify the county auditor of each county contained in the legislative district one day before the day of the election of the names of individuals whom the district chairman has appointed to serve as poll challengers and poll checkers in the precincts in the legislative district.

**16.1-07-04. When ballots furnished proper officials.** The county auditor, or any other officer required by law to prepare any general, special, or primary state election ballots or any county election ballots, shall prepare, have printed, and deliver to the county auditor at least forty days before the holding of any general, special, or primary state election a sufficient number of absent voter ballots for the use of all voters likely to require such ballots for that election. In city or school elections, the auditor or clerk of the city, the business manager of the school district, or any other officer required by law to prepare city or school election ballots shall prepare and have printed and available for distribution to the public at least forty days before the holding of any city or school election a sufficient number of absent voter ballots for the use of all voters likely to require such ballots for that election. Officers authorized to distribute absent voter's ballots under this chapter shall ensure all ballots used as absent voter's ballots are secure at all times and accessible only to those persons under the officer's supervision for distribution. If an election official personally distributes and collects an absent voter's ballot outside the election official's office, appointed election judges from an election board shall accompany the election official along with the ballot to and from the voter's location and be present while the voter is marking the ballot.

**16.1-07-06. Application form.**

1. Application for an absent voter's ballot must be made on a form, prescribed by the secretary of state, to be furnished by the proper officer of the county, city, or school district in which the applicant is an elector, on any form, approved by the secretary of state, or any blank containing the following information:
  - a. The applicant's name.
  - b. The applicant's current or most recent North Dakota residential address.
  - c. The applicant's mailing address.
  - d. The applicant's current contact telephone number.
  - e. The election for which the ballot is being requested.
  - f. The date of the request.
  - g. An affirmation that the applicant has resided, or will reside, in the precinct for at least thirty days next preceding the election.
  - h. The applicant's signature.
  - i. A space for the voter to indicate the voter's status as a citizen living outside the United States, a uniformed servicemember living away from the voter's North Dakota residence, or a family member of the uniformed servicemember living away from the voter's North Dakota residence.
  - j. The applicant's birth date and year.
  - k. The applicant's motor vehicle operator's license or nondriver identification number, if available.

If the applicant is unable to sign the applicant's name, the applicant shall mark (X) or use the applicant's signature stamp on the application in the presence of a disinterested individual. The disinterested individual shall print the name of the individual marking the X or using the signature stamp below the X or signature stamp and shall sign the disinterested individual's own name following the printed name together with the notation "witness to the mark".

2. The application for a qualified elector serving on active duty as a uniformed service member or a family member who is a qualified elector and stationed at a location other than that individual's voting residential address must include the following additional information if the voter desires to vote by facsimile or electronic mail:

- a. Facsimile telephone number; or
- b. Electronic mail address.

3. The application for a qualified elector living outside the United States must include a facsimile telephone number or electronic mail address if the voter desires to vote by facsimile or electronic mail.

**16.1-07-08. Delivering ballots – Envelopes accompanying – Statement on envelope – Challenging electors voting by absentee ballot – Inability of elector to sign name.**

1. Upon receipt of an application for an official ballot properly filled out and duly signed, or as soon thereafter as the official ballot for the precinct in which the applicant resides has been prepared, the county auditor, city auditor, or business manager of the school district, as the case may be, shall send to the absent voter by mail, at the expense of the political subdivision conducting the election, one official ballot, or personally deliver the ballot to the applicant or the applicant's agent, which agent may not, at that time, be a candidate for any office to be voted upon by the absent voter. The agent shall sign the agent's name before receiving the ballot and deposit with the auditor or business manager of the school district, as the case may be, authorization in writing from the applicant to receive the ballot or according to requirements set forth for signature by mark. The auditor or business manager of the school district, as the case may be, may not provide an absent voter's ballot to a person acting as an agent who cannot provide a signed, written authorization from an applicant. No person may receive compensation, including money, goods, or services, for acting as an agent for an elector, nor may a person act as an agent for more than four electors in any one election. A voter voting by absentee ballot may not require the political subdivision providing the ballot to bear the expense of the return postage for an absentee ballot.

2. If there is more than one ballot to be voted by an elector of the precinct, one of each kind must be included and a secrecy envelope and a return envelope must be enclosed with the ballot or ballots. The front of the return envelope must bear the official title and post-office address of the officer supplying the voter with the ballot and upon the other side a printed voter's affidavit in substantially the following form:

Precinct \_\_\_\_\_

Name \_\_\_\_\_  
Residential Address \_\_\_\_\_  
City \_\_\_\_\_ ND Zip Code \_\_\_\_\_

Under penalty of possible criminal prosecution for making a false statement, I swear that I reside at the residential address provided above, that I have resided in my precinct for at least thirty days next preceding the election, and this is the only ballot I will cast in this election.

Applicant's Signature \_\_\_\_\_  
Date \_\_\_\_\_

If the absent voter is unable to sign the voter's name, the voter shall mark (X) or use the applicant's signature stamp on the statement in the presence of a disinterested individual. The disinterested individual shall print the name of the person marking the X or using the signature stamp below the X or signature stamp and shall sign the disinterested individual's own name following the printed name together with the notation "witness to the mark".

3. Each individual requesting an absent voter's ballot under this chapter must be provided a set of instructions, prescribed by the secretary of state, sufficient to describe the process of voting by absent voter's ballot. The voting instructions must contain a statement informing the individual that the individual is entitled to complete the absent voter's ballot in secrecy.

4. Each individual requesting an absent voter's ballot under this chapter who cannot read the English language or who because of blindness or other disability is unable to mark the voter's ballot, upon request, may receive the assistance of any individual of the voter's choice, other than the voter's employer, an officer or agent of the voter's union, a candidate running in that election, or a relative of a candidate as described in subsection 2 of section 16.1-05-02, in marking the voter's ballot.

**16.1-07-12. Opening ballot – Voting or rejecting – Depositing in ballot box – Preserving.** At any time beginning on the day before election day and the closing of the polls on election day, the election clerks and board members of the relevant precinct first shall open the outer envelope and compare the signature on the application for an absent voter's ballot with the signature on the statement provided for in section 16.1-07-08. If the judges find that the statement is sufficient and that the signatures correspond, and that the applicant is then a duly qualified elector of the precinct and has not voted at the election, they shall open the absent voter's envelope in a manner as not to destroy the statement thereon. They shall take out the ballot or ballots contained therein without unfolding the same, or permitting the same to be opened or examined, and after initialing the same as other ballots are initialed, they shall deposit the ballot in the proper ballot box and show in the pollbook of the election that the elector has voted. The votes from these cast ballots may not be tallied and the tabulation reports may not be generated until the polls have closed on election day. If the statement is found to be insufficient, or that the signatures do not correspond, or that the applicant is not then a duly qualified elector of the precinct, the vote

may not be allowed, but without opening the absent voter's envelope, the election inspector or election judge shall mark across the face thereof "rejected as defective" or "rejected as not an elector", as the case may be. These rejected ballots are then turned over to the county canvassing board for final determination of eligibility. The subsequent death of an absentee voter after having voted by absentee ballot does not constitute grounds for rejecting such ballot.

**16.1-12-02. Certificates of nomination by petition – Form and contents.**

Certificates of nomination for nominees for an office to be filled at a general or special election, except for an office appearing on the no-party ballot, may be made as provided by this section. Except for nominees for president of the United States, names of nominees so nominated must appear on the ballot as independent nominations. The names of nominees for president of the United States may appear on the ballot with a designation, not to exceed five words, that names the organization or political party to which the presidential candidate affiliates. The designation may not falsely indicate an affiliation with or the support of any political party organized in accordance with this title or include any substantive word or phrase that is profane or that is already included in or resembles the name of a political party entitled to a separate column under section 16.1-11-30. Except for candidates for the office of president of the United States, each certificate of nomination by petition must meet the specifications for nominating petitions set forth in section 16.1-11-16. A candidate for the office of the president of the United States may begin gathering the signatures for the certificate of nomination on the first day of January of a presidential election year and shall submit the petition to the secretary of state before four p.m. on the sixtieth day before the general election. The signatures on the petition must be in the following number:

1. Except as provided in subsection 3, if the nomination is for an office to be filled by the qualified electors of the entire state, there must be no fewer than one thousand signatures.
2. If the nomination is for an office to be filled by the qualified electors of a district less than the entire state, the number of signatures must be at least two percent of the resident population of the district as determined by the most recent federal decennial census, but in no case may more than three hundred signatures be required.
3. If the nomination is for the office of president, there must be no fewer than four thousand signatures.
4. If the petition is for the office of governor or lieutenant governor, it must contain the names and other required information of candidates for both those offices.

**16.1-12-02.3. Nominating petition for an independent candidate not to be circulated more than one hundred fifty days before filing time.** A petition provided for in this chapter may not be circulated or signed more than one hundred fifty days before the date when any petition must be filed under this chapter. Any signatures to a petition obtained more than one hundred fifty days before that date may not be counted.

**16.1-13-08.1. Special election to fill a vacancy in the United States House of Representatives due to a catastrophic circumstance.** If a vacancy occurs in the office of representative in Congress due to a catastrophic circumstance in which one hundred or more

representatives across the United States are no longer able to serve and the next regular or special election is more than seventy-five days in the future, the governor shall immediately issue a writ of election calling a special election to fill the vacancy. The date of the election shall be forty-nine days from the date of the proclamation and the following deadlines shall apply:

1. Certificate of endorsement as described in section 16.1-11-09, affidavits of candidacy described in section 16.1-11-10, and statements of interest described in section 16.1-09-03 for those candidates nominated by political parties currently established in the state shall be filed with the secretary of state by four p.m. on the fortieth day before the election.
2. If the election occurs in an election year, the precincts previously established by the county shall be utilized.
3. If the election occurs in a year without a scheduled election, the board of county commissioners must establish the precinct boundaries by the fortieth day before the election.
4. The secretary of state shall certify to the county auditors the names of the candidates for the election on the thirty-ninth day before the election.
5. Absentee ballots shall be made available to qualified electors by the thirtieth day before the election.

## SECTION B: VOTER REGISTRATION

**B1. Is your state's voter registration database system best described as a bottom-up, a top-down, or a hybrid? (Note: A bottom-up system generally uploads information retained at the local level and compiled at regular intervals to form the statewide voter registration list. A top-down system is hosted on a single, central platform/mainframe and is generally maintained by the state with information supplied by local jurisdictions. A hybrid is some combination of both systems described above.)**

|   X   No Change Since 2008      \_\_\_\_\_ Changed Since 2008

### 2008 Response:

[Begin response to above question (B1) below this line.]

North Dakota is the only state without any form of voter registration. I will answer these questions, but it must be remembered that my answers must be seen in light of the fact that we do not register voters!

We do, however, maintain a statewide list of everyone who has voted. This list has nothing to do with who can vote at an election, it is simply for the purposes of election administration efficiency, to help the electors of the state discover their precincts and polling places, to track voting history and other important statistical information, to determine if any voter is trying to commit voter fraud, and the means by which candidates, political parties, and political committees can obtain lists of voters in order to stay in touch with constituents and encourage people to get out and vote.

This list of voters would be considered a "top-down" system. The chapter of North Dakota law governing the Central Voter File is 16.1-02.

**If your state uses a bottom-up or hybrid system, how often do local jurisdictions transmit registration information to the state list?**

Not Applicable in North Dakota.

**B2. Please describe the process used in your state to move voters from the active list to the inactive list, and from the inactive list to the active list. Is a different process used for UOCAVA voters?**

|   X   No Change Since 2008             Changed Since 2008

**2008 Response:**

[Begin response to above question (B2) below this line.]

When a voter votes, they are considered an “active” voter within the Central Voter File. If a voter does not vote in an election for two General Elections, they are considered “inactive,” but this “inactive” status does not keep a resident of the state from voting if they so desire.

The process is the same for UOCAVA voters.

Voters may be placed in a removable status for reasons that they have deceased or upon receipt of a notice that the voter has registered to vote in another state or US territory.

State law does not require us to send any notices or confirmations since even a status of removable for reason of deceased doesn’t keep a living resident of this state from casting a ballot. Mistakes can happen, but a mistake in processing the record of a voter doesn’t get in the way of that voter’s ability to vote.

**2008 Response:**

[Begin response to above question (B4) below this line.]

The North Dakota Central Voter File has a system connection with the software systems of the Department of Transportation, Vital Records, North Dakota Association of Counties, and the State Courts.

Every voter with a driver's license has that license number attached to their record in the Central Voter File as well. This allows us to match any changes the DOT might receive from a driver with the correct voter record. Since we do not have voter registration, we are allowed to make changes to a voter's record without the voter's specific request to do so. Our systems communicate once each week.

Vital Records software system communicates with the Central Voter File once each month to transfer the names and other matching information of the people of ND who have died in the previous month. Our system uses name, birth date, and address for matching criteria to associate the death record to the correct voter maintained in the Central Voter File. When an automatic match doesn't exist, the death record is processed either by the state Central Voter File Manager or by the county local election official.

North Dakota Association of Counties created a program for the counties to use to maintain marriage records within the state through which we receive monthly updates regarding name changes. Similar matching criteria are for this as with Vital Records.

The State Court system has a monthly connection to the Central Voter File to inform us of name changes that take place through action of the courts and to inform us of those voters who have protection orders so that they can be designated as "secured active" voters. Anyone who is designated as secured active in the Central Voter File will not have their information transferred to anyone, even to those eligible to buy voter lists.

The Central Voter File system is not currently connected to any federal agency databases and there are no plans to create any connections at this time.

1. A person sentenced for a felony to a term of imprisonment, during the term of actual incarceration under such sentence, may not:

|      X   No Change Since 2008               Changed Since 2008

**2008 Response:**

[Begin response to above question (a) below this line.]

Absentee ballots may be counted centrally or at the precincts. It is a county decision to make.

Any ballot cast where an election board is in place (Election Day polling locations, early voting precincts, or vote centers) is counted at that polling location. The only time this would not be true is in the circumstance where an extended length power outage or machine malfunction would require voters to place their ballots in the emergency ballot boxes.

North Dakota has never had a provisional ballot cast.

**2008 Response:**

[Begin response to above question (c) below this line.]

North Dakota counties have all been given the authority to separate the votes from the ballots cast into their appropriate groups. They have also been given the tools in the voting system to do this. Whether they do this or not has been granted as a county decision. The reason is that some counties could easily have only one ballot cast from a voter in a sub-group of the election totals and reporting the results by group would reveal how that voter voted. If the counties wish to separate the votes into groups, the state recommends the following groups for ballots cast in:

- Absentee
- Early Voting
- Election Day
- Canvassing

Early voting is a precinct that may be open to the public in the fifteen days prior to an election. It is run just like an Election Day precinct in that there is an election board present and the votes are tabulated as the ballots are cast.

### **16.1-07-15. Early voting precinct – Election board appointment – Closing and canvassing.**

1. For any primary, general, or special statewide, district, or county election, the board of county commissioners may, before the sixtieth day before the day of the election, create a special precinct, known as an early voting precinct, to facilitate the conduct of early voting in that county according to chapters 16.1-13 and 16.1-15. At the determination of the county auditor, more than one voting location may be utilized for the purposes of operating the early voting precinct. The election board of the early voting precinct must be known as the early voting precinct election board. The county auditor shall supply the board with all necessary election supplies as provided in chapter 16.1-06.
2. If the board of county commissioners establishes an early voting precinct according to this section, the following provisions apply:
  - a. Early voting must be authorized during the fifteen days immediately before the day of the election. The county auditor shall designate the business days and times during which the early voting election precinct will be open and publish notice of the early voting center locations dates and times in the official county newspaper once each week for three consecutive weeks immediately before the day of the election.
  - b. The county auditor shall appoint the early voting precinct election board for each voting location that consists of one independent representative to act as the inspector and an equal number of representatives from each political party represented on an election board in the county, as set out in section 16.1-05-01, to act as judges. Each official of the board shall take the oath required by section 16.1-05-02 and must be compensated as provided in section 16.1-05-05.
  - c. The county auditor, with the consent of the board of county commissioners, shall designate each early voting location a space in a public facility, accessible to the elderly and the physically disabled as provided in section 16.1-04-02, to locate the early voting precinct. With respect to polling places at early voting precincts, "election day" as used in sections 16.1-10-03 and 16.1-10-06.2 includes any time an early voting precinct polling place is open.
  - d. At the close of each day of early voting, the inspector, along with a judge from each political party represented on the board, shall secure all election-related materials, including:

- a. The pollbooks and access to any electronically maintained pollbooks.
- b. The ballot boxes containing voted ballots.
- c. Any void, spoiled, and unvoted ballots.
- e. Ballot boxes containing ballots cast at an early voting precinct may not be opened until the day of the election except as may be necessary to clear a ballot jam or to move voted ballots to a separate locked ballot box in order to make room for additional ballots.
- f. ~~The Each~~ early voting ~~precinct location~~ may be closed, as provided in chapter 16.1-15, at the end of the last business day designated for early voting in the county. Results from the early voting precinct may be counted, canvassed, or released under chapter 16.1-15 as soon as any precinct within the county, city, or legislative district closes its polls on the day of the election. The county auditor shall designate a location for the closing, counting, and canvassing process under chapter 16.1-15, which location must be open to any person for the purpose of observing.
- g. The early voting precinct election board shall comply with the requirements of chapters 16.1-05, 16.1-13, and 16.1-15, as applicable.

  X   No Change Since 2008             Changed Since 2008

**2008 Response:**

[Begin response to above question (C4) below this line.]

Twenty-three counties are running their elections as vote by mail. I included the entire chapter on vote by mail elections earlier in this document since it is a new initiative allowed by law this year. But I also included it because vote by mail in North Dakota is different from how it is run in every other jurisdiction.

In North Dakota, vote by mail is simply a modification of the absentee voting process. Forty-five days prior to the election, every elector of a county is sent an absentee ballot application. The individual then needs to take the initiative to complete the application and return it to the county auditor's office. Upon receipt of the completed and signed application, the county will send a ballot to the voter who then can vote the ballot and return it along with the voter's affidavit to the county auditor. When the voted ballot is received by the county auditor, the receipt of the ballot is marked in the voter's record in the Central Voter File and it is securely stored until it is processed on Election Day.

Every county running vote by mail elections is required to have at least one polling place open on Election Day for those voters desiring to cast their ballot at a polling place.

This is different from other vote by mail elections because no person is automatically sent a ballot. Every voter must request a ballot in North Dakota.

**16.1-13-34. Voters casting ballots after regular poll closings – Provisional ballots.**

An individual who votes after the regular poll closing time in an election in which a federal office appears as a result of a federal or state court order or any other order extending the time established for closing the polls under state law in effect ten days before the date of that election may only vote in that election by casting a provisional ballot. The ballot must be marked as a provisional ballot and must be separated and held apart from other ballots cast by those not affected by the order. The secretary of state shall approve the form of any provisional ballot and may prescribe any procedures the secretary of state determines to be necessary to facilitate the casting, secrecy, and counting of provisional ballots.

**16.1-06-15. Mandatory testing of electronic voting systems before each election and after tabulation of ballots.**

1. All electronic voting systems used in this state must be tested to ascertain whether the automatic tabulating equipment will accurately count the votes cast for all offices and measures. The testing must be conducted prior to each election at which the system will be used. The testing must be done by the county auditor or county auditor's designee, and after each test, the testing materials and any preaudited ballots used during the test must be sealed and retained in the same manner as election materials after an election.
2. The test of an electronic voting system employing paper ballots must be conducted by processing a preaudited group of ballots on which are recorded a predetermined number of valid votes for each candidate and measure and must include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to reject such votes. During the test a different number of valid votes must be assigned to each candidate for an office and for and against each measure. If an error is detected, the cause of it must be ascertained and corrected, and an errorless count must be secured and filed as provided in this section.
3. The test must be conducted at least one week before the election. One week before the test is conducted, the county auditor must send the district chairman of each political party having a candidate on the ballot a notice of the test. The notice must state the time, place, and date of the test or tests and that the district chairman or district chairman's designee may attend.
4. At the conclusion of the test, the programming for each electronic voting device must be sealed within the device with a unique numbered seal that must be verified by the election inspector before the opening of the polls to make sure the programming has not been removed from the device.
5. After each election, the secretary of state shall order a random testing of the voting system programming for one precinct in each county of the state according to logic and accuracy testing procedures detailed in subsection 2 and as may be further defined by the secretary of state in writing. This test is to be conducted before the meeting of the county canvassing board.

~~1-2~~ Not less than thirty days before any primary, general, or special election, the secretary of state shall provide an instruction manual approved by the attorney general, which in layman's terms presents in detail the responsibilities of each election official. The secretary of state shall forward sufficient copies of this manual to each county auditor who shall distribute the manuals to each member of all the election boards in the county.

~~2-3~~ Before each primary and general election, each county auditor or the auditor's designated representative shall conduct training sessions on election laws and election procedures for election officials in the county and may conduct training sessions before any special statewide or legislative district election. The session or sessions must be conducted at such place or places throughout the county as the county auditor determines to be necessary. Attendance at the session is mandatory for members of the election board and for poll clerks. The county auditor shall notify the members of the election boards, poll clerks, and the state's attorney of the time and place of the session. The state's attorney shall attend all sessions to give advice on election laws. The county auditor shall invite the district chairman in that county representing any political party casting at least five percent of the total votes cast for governor at the last election to attend the session at the chairman's own expense. On the date of the course or courses, the county auditor may deliver to all election inspectors at the meeting the official ballots and all other materials as provided in chapter 16.1-06. Except as otherwise provided in this section, each person attending the course or courses must be compensated as provided in section 16.1-05-05.

~~3-4~~ An election official, at the option of the county auditor, may be excused from attending a third training session on election laws within a twelve-month period. If an election official has attended a training session within the six months preceding a special election, the election official must be compensated at the pay appropriate for those having attended a training session, as provided in section 16.1-05-05, for that election.

## SECTION E: OTHER

**E1. Under HAVA, Section 402, states are required to establish and maintain administrative complaint procedures to remedy grievances. Has your state revised its administrative complaint procedures since they were first implemented? If so, how?**

☒ **No Change Since 2008**      ☐ **Changed Since 2008**

### 2008 Response:

[Begin response to above question (E1) below this line.]

No changes.

[End response to above question (E1) above this line.]

**E2. The Military and Overseas Voter Empowerment Act (MOVE) was signed into law on October 22, 2009. The MOVE Act contains, among other things, provisions regarding States' methods of communication with UOCAVA voters and UOCAVA ballot transmission.**

**Please describe your State's processes and procedures for implementing MOVE (including any changes in your State's laws or regulations) as they relate to:**

- **Protecting the security and integrity of the voter registration and ballot application process, the privacy and personal information of the voter, and absentee ballots. (Sect. 577, 578)**
- **Designating a means of electronic communication for all voting-related materials to UOCAVA voters. (Sect. 577)**
- **Establishing a ballot tracking mechanism to allow voters to determine whether their ballots were received by the appropriate election official. (Sect. 580(d))**

**Also, please describe your State's plans to capture data related to the number of registration applications, ballot applications, and blank ballots transmitted to UOCAVA voters via mail and electronic means (Internet, email, fax) *and* the number of registration applications, ballot applications, and completed ballots returned by UOCAVA voters via mail and electronic means (Internet, email, fax).**

**This question was not asked in 2008. Please provide your answer below.**

- **Protecting the security and integrity of the voter registration and ballot application process, the privacy and personal information of the voter, and absentee ballots. (Sect. 577, 578)**

**Voter Registration – North Dakota does not have any form of voter registration so this does not apply to us.**

Ballot Application – Only certain information from submitted applications is available to candidates, political parties, and political committees for political purposes and the information made available does not include personal information that would be of value to anyone attempting identity theft. For those voters with court protection orders, even the general information provided is not available to anyone.

- Designating a means of electronic communication for all voting-related materials to UOCAVA voters. (Sect. 577)

As part of our improvement of federal elections, our election databases have been united through our election management system called ND VOICES, which stands for VOTing Information & Central Election System. Through this unification, each time a UOCAVA voter applies for an absentee ballot and requests it to be delivered to them electronically; the information from the application is attached to the voter's record in the Central Voter File. During the late night hours, the Central Voter File delivers a file containing information regarding those voters desiring to vote absentee to an FTP site. ND VOICES then grabs this file for processing for two different applications.

The first application is an electronic absentee ballot delivery system. For all absentee ballot records in which the voter has requested electronic delivery, the system generates a test email that is sent to the voter's email address.

- If the address is an acceptable address, ND VOICES sends a message to the voter that includes the complete ballot the voter would have received if they were able to go to the polls on Election Day along with the other required information and forms. The delivery of these materials is sent by attachment and also a web application link to the same information within the body of the email in the event the attachment is stripped by security settings on the recipients email account.
- If the message is returned as undeliverable, ND VOICES sends a message to the local election official's inbox concerning the delivery failure and asks them to check the entered address with the address provided on the application. If the address was improperly entered, the correction is made and the process begins again. If the address was properly entered, then the local election official is instructed to send the voter a ballot through the US Mail.

The second application is an absentee ballot tracking system for all voters desiring to vote absentee. The Voter Information Portal, which is available at <https://vip.sos.nd.gov/> allows a voter the ability to check on the status of their absentee ballot at <https://vip.sos.nd.gov/AbsenteeTracker.aspx>. Through this tool, the voter is able to see when their absentee ballot application was received, when their blank ballot was sent from the local election official, when the voted ballot was received by the local election official, and its acceptance or rejection. According to law, any rejected ballot from a UOCAVA voter requires the local election official to send a notice to the voter stating the reason for the rejection.

- Establishing a ballot tracking mechanism to allow voters to determine whether their ballots were received by the appropriate election official. (Sect. 580(d))

Ending notes: Please be aware that every voter in North Dakota votes on a paper ballot. The voter is required to darken the oval on the ballot next to the candidate or measure response for which they intend to cast a vote. In the event of a recount, however, voter intent, as far as it can be determined, is taken into account for the final vote tally. Every voter casting their ballot at a polling location does so by inserting their ballot into a polling place optical scan tabulator. Absentee ballots are counted by optical scan tabulators, but the voter is not present when the votes are read by the voting system. Knowing these things should shed significant light on the answers given.

North Dakota is the only state without any form of voter registration. I answered the questions in the voter registration section as best I could based our method of election administration, but it must be remembered that my answers must be seen in light of the fact that we do not register voters!

\* The information collection associated with the Election Administration and Voting Survey is required for the EAC to meet its statutory requirements under the Help America Vote Act (HAVA) of 2002 (42 U.S.C. 15301), the National Voter Registration Act (NVRA) (42 U.S.C. 1973gg-1 et seq.), and the Uniformed and Overseas Citizens Absentee Voters Act (UOCAVA) (42 U.S.C. 1973ff-1). Respondent's obligation to reply to this information collection is mandatory as required under NVRA (42 U.S.C. 1973gg-1 et seq.) and UOCAVA (42 U.S.C. 1973ff-1). This part of the information collection is being requested to help the EAC to better understand state laws governing federal elections. Respondents include the fifty states, the District of Columbia, and the U.S. Territories. This information will be made publicly available on the EAC website ([www.eac.gov](http://www.eac.gov)). According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is OMB Control No. 3265-0006 (expires 5/31/2013). The time required to complete this information collection is estimated to average 59 hours per state response. This estimate includes the time for reviewing the instructions, gathering information, and completing the form. Comments regarding this burden estimate should be sent the U.S. Election Assistance Commission – 2010 Election Administration and Voting Survey, 1201 New York Avenue, Suite 300, Washington, DC 20005.
