EXECUTIVE SUMMARY

McBride, Lock & Associates was engaged by the United States Election Assistance Commission (EAC) Office of the Inspector General to conduct a performance audit of award 08-EDC-800165, Election Data Collection Grant (Grant), made to the Office of the Secretary of the Commonwealth (Office), for the period from inception on May 27, 2008 through the award conclusion date of June 30, 2011 to determine whether the Office was in compliance with EAC’s and Federal regulations concerning award administration and management.

We conducted this performance audit in accordance with Generally Accepted Government Auditing Standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on the audit objectives.

Based on the audit procedures performed, we concluded that the Office accounted for and expended the Grant funds in accordance with the requirements mentioned above for the period from May 27, 2008 through June 30, 2011.

BACKGROUND

In December 2007 Congress authorized the fiscal year 2008 Omnibus Appropriations Act (Public Law 110-161, Title V), which directed the EAC to award grants of $2 million to each of five eligible states to improve the collection of precinct level data relating to the November 2008 Federal elections. The act provided for the creation of the Election Data Collection Grant Program, the purpose of which was to:

- Develop and document a series of administrative and procedural best practices in election data collection that can be replicated by other States;
- Improve data collection processes;
- Enhance the capacity of States and their jurisdictions to collect accurate and complete election data; and
- Document and describe particular administrative and management data collection practices, as well as particular data collection policies and procedures.

The States were to use the Grant funds to implement programs to improve the collection of data relative to the November 2008 Federal general election and to improve the reporting of election
data at the precinct level. The Grants were awarded in May 2008 and were for a period of 13 months.

The States were to provide their report on the data collected from the November 2008 election to the EAC by March 2009. In turn, the EAC was required to submit, by June 30, 2009, a report to Congress on the impact of the Election Data Collection Grant Program on States’ abilities to effectively collect Federal Election data. The EAC granted the Office a no-cost extension on the grant beyond June 30, 2009, until June 30, 2011.

In its Performance Reports the Office noted that Phases 1 and 2 were completed prior to June 1, 2009. Phase 3 involved the development and testing of enhancements to the SURE Portal which were to allow full integration of the elections management system. While these efforts began in February 2009, they continued throughout the life of the project. The Office requested an extension of the grant period for the purpose of completing additional precinct-level survey data enhancements.
