

# U. S. Election Assistance Commission

# FY 2015 Summary of Performance and Financial Information

February 2016

## **Purpose of the Report**

The Fiscal Year (FY) 2015 Summary of Performance and Financial Information represents the U.S. Election Assistance Commission's (EAC's) effort to provide a balanced analytical assessment, with both positive and negative information, of key program and financial performance.

#### VISION, MISSION, MANDATES AND ORGANIZATIONAL STRUCTURE

In October 2002, Congress passed the Help America Vote Act (HAVA) of 2002. The law recognized the need for States to invest in their election infrastructure and set out comprehensive programs of funding, voluntary guidance, and research. To foster those programs and to promote and enhance voting for United States citizens, HAVA established the Election Assistance Commission.

The vision for the EAC is to be a service agency and the go-to resource on election information, best practices, data, technology, technical advice and assistance for election administrators, officials, and voters across America. The mission is for the EAC to assist the effective administration of Federal elections.

The EAC is an independent, bipartisan agency. Four full-time Commissioners, appointed by the President and confirmed by the U.S. Senate, and three Federal advisory committees -- the Standards Board, Board of Advisors, and Technical Guidelines Development Committee -- guide the EAC. At the present time, there are three Commissioners leading the agency.

#### The EAC is statutorily required to:

- Create a clearinghouse of information for election officials and the public;
- Distribute and monitor HAVA funds to States for election administration improvements;
- Issue, periodically review and modify, as necessary, Voluntary Voting System Guidelines (VVSG);
- Accredit voting system test laboratories and certify voting equipment;
- Conduct periodic studies of election administration issues as determined by the Commission;
- Establish best practices and guidelines on election administration for State and local election officials;
- Maintain the national voter registration form developed in accordance with the National Voter Registration Act (NVRA) of 1993; and
- Provide Congress with a biennial report to assess the impact of the NVRA.

The goals and organizational structure of the agency are built around these mandates:

- 1. Communicate timely and accurate information on the effective administration of elections for Federal office and on the operations and services offered by the EAC.
- 2. Deliver and manage Federal funds effectively.
- 3. Identify and develop information on areas of pressing concern regarding the administration of elections for Federal office, issue recommended improvements, guidance, translations, and

- best practices as required by HAVA, and carry out responsibilities under the National Voter Registration Act.
- 4. Build public confidence in elections by testing and certifying voting systems to improve system security, operation, and accessibility.

The Standards Board and the Board of Advisors provide advice and guidance to the EAC on Voluntary Voting System Guidelines (VVSG) and other election administration issues. In addition, the Technical Guidelines Development Committee (TGDC) assists the EAC in the preparation of the VVSG. The VVSG sets the standards against which voting systems are tested. The Director of the National Institute of Standards and Technology (NIST) of the U.S. Department of Commerce serves as the Chair of the TGDC and provides technical support to the Committee. Additionally, HAVA specifies that NIST provide recommendations to the EAC regarding voting system test laboratories.

#### **SUMMARY PERFORMANCE INFORMATION**

The following table presents key strategic objectives reflected in the EAC's FY 2015 program performance data. More detailed performance information is presented, and variances discussed, in the FY 2015 Annual Performance Report along with the FY 2017 Congressional Justification.

**EAC FY 2015 Performance Summary**

#### FINANCIAL RESULTS

The following analysis is intended to provide information on the EAC's financial results, position, and condition as portrayed in the financial statements and the notes to the statements. Changes in assets, liabilities, costs, revenues, obligations, and outlays are explained; comparisons are made between amounts in FY 2015 to FY 2014; and the relevance of balances

and amounts in the financial statements and notes are discussed. The changes provide context as to how the year's activities impacted the agency's financial position.

## **Budgetary Resources**

Budgetary resources are the amounts made available and their status at the end of the fiscal year. The majority of the EAC's available budgetary resources are in the no year Election Reform Program appropriation. Budgetary resources include new Budget Authority from annual Salaries and Expenses appropriations, unpaid obligations, recoveries, offsetting collections, and unobligated balances.

For Fiscal Year (FY) 2015, the available budgetary resources were \$21.0 million, up from \$19.9 million in FY 2014. In both FY 2015 and FY 2014, the EAC's appropriations totaled \$10 million for Salaries and Expenses, including a \$1.9 million non-expenditure transfer to NIST.

Obligations Incurred decreased from \$6.5 million in FY 2014 to \$6.3 million in FY 2015. The decrease was due primarily to the disbursement of FYs 2009 to 2011 Requirements Payments. The Unobligated Balance – Apportioned amount increased from \$4.2 million in FY 2014 to \$5.1 million in FY 2015.

#### **Financial Position**

Assets: The EAC had \$22.8 million in total assets (Fund Balance with Treasury; Accounts Receivable; Property, Equipment, and Software; and Other Assets) as of September 30, 2015, down from \$25.9 million in FY 2014. The decrease is primarily the result of collection of an improper Requirements Payment of almost \$2.3 million.

*Liabilities:* The EAC had total liabilities (Accounts Payable, accrued salaries and benefits, and unfunded leave) of \$3.5 million as of September 30, 2014 and \$765,867 as of September 30, 2015.

*Net Position:* Net position (Unexpended Appropriations and Cumulative Results of Operations) decreased in FY 2015 to \$22.0 million from \$22.3 million in FY 2014. Unexpended Appropriations decreased primarily due to disbursement of Requirements Payments.

# **Results of Operations**

The Total Net Cost of Operations (expenses in the Salaries and Expenses, and Election Reform Programs appropriations) for the EAC was \$7.7 million for Fiscal Year 2015, down from \$7.9 million in FY 2014.

#### MANAGEMENT CHALLENGES IDENTIFIED BY THE INSPECTOR GENERAL

The EAC's Inspector General reported on two categories of management challenges in 2015: performance management and accountability, and records management. The former consists of pending recommended Communications and Clearinghouse policy and procedures. A communications plan is underway.

Regarding records management, the EAC expects to submit records retention schedules for the offices of Communications; Research, Policy, and Programs (RPP); and Testing and Certification during FY 2016. The EAC's assigned Archivist from the National Archives and Records Administration determined, based on her review, that the vast majority of the EAC's records are within the General Records Schedule (GRS). As such, Human Resources, Chief Financial Officer, Grants, Commissioners/Executive Office, Chief Information Officer, General Counsel, Inspector General, and National Voter Registration Act records are completed. The EAC concurs with the status of the records for Communications, RPP, and Testing and Certification, and with the statement on the plan for organizing and archiving the EAC's emails.
