

NASS Election Cybersecurity Task Force Members

[| Print |](#)

Established in February 2017, the **NASS Election Cybersecurity Task Force** is a bipartisan body created by the nation's chief state election officials to advance collaboration on the unique priorities and challenges that exist regarding cybersecurity and elections. In addition to helping states share information and combat threats, the body is tasked with providing guidance on NASS efforts and fostering effective partnerships with public/private stakeholders, including DHS and other federal government entities.

Membership is open to Secretaries of State. NASS Corporate Affiliates with expertise in election technology or cybersecurity services for state/local government may serve as private sector advisors.
