

TGDC Announcement

July 13, 2015

The Help America Vote Act of 2002 (HAVA), establishes a 15-member Technical Guidelines Development Committee (TGDC) to assist the Election Assistance Commission (EAC) in the development of voluntary voting system guidelines. HAVA names the Director of the National Institute of Standards and Technology (NIST) to chair the TGDC and requires NIST to provide the TGDC with technical support necessary to carry out its duties. The EAC and NIST are pleased to announce the reconstituted TGDC membership and look forward to the upcoming meeting of the TGDC July 20-21, 2015 at NIST as the first step in moving forward with the development of the next generation of voluntary voting system guidelines.

Designated Federal Official

Matthew V. Masterson, Commissioner, U.S. Election Assistance Commission
