Voting Processes - IT programming was completed to maintain and improve the statewide Election Night Reporting System. Emergency radios were purchased to allow for communication between the Bureau of Elections and local jurisdictions to continue on election day if regular phone communication was not available. We continued to maintain training related software that allows for additional online technical assistance for statewide election officials, including systems that allow for interactive online assistance and training on both an individual and group level. Voter Registration Systems - Temporary staff finished processing all of the returned mail from the statewide absentee ballot application mailing conducted in 2020. This returned mail was used to ensure the accuracy of the Qualified Voter File. A mailing was sent to all eligible but unregistered voters in our driver license and identification card file as required per our agreement with the Electronic Registration Information Center to which we paid annual membership dues. The Department also continued to maintain, update and enhance the QVF system with IT programming to function more effectively and to better assist the statewide election community which includes working with them to resolve QVF file problems via specialized software. Post-Election Auditing - Risk limited audit software was maintained and used for post-election auditing. Cyber Security - We continued to enhance security of our Qualified Voter File with IT programming. We also continued to fund a dedicated Election Security Specialist during this period and added a student to assist with reviewing HAVA Security Grant reimbursement requests from local jurisdictions. A new version of Election Systems & Software (ES&S) voting system software was certified by the Board of State Canvassers without the use of modems to transmit unofficial results. As an extra precaution, the Bureau of Elections paid ES&S to remove physical modem devices from local jurisdiction tabulators when installing the new software version.
