9. Issues Encountered:

Describe all major issues that arose during the implementation of the project and the reasons why established goals were not met, if applicable. Address each issue separately and describe whether and how the issues were resolved. Also, briefly discuss the implications of any unresolved issues or concerns.

In Florida, state agencies must first receive state authorization (legislative appropriation and executive budgetary approval) for use of federal and state funds. The delay in release of these funds compounded with the continuing supply chain disruptions, shortages, and increasing costs mean that grantees must be ever resourceful and ready to act once funds are available or judicious in deciding whether to apply for reimbursement or advance or not applying. We are working to consolidate future sub-grants so that will streamline the process.

The State has continued security training through its in-house cyber navigator team.
