   Election officials worked with the statewide voter registration system vendor and our Office of Enterprise Technology Services that hosts the statewide voter registration system in the Hawaii State Government Private Cloud to continue to support the statewide voter registration system during this reporting
period. Matters primarily focused on the maintenance of the GIS addressing locator used by the statewide voter registration system, along with upgrades to the system for security purposes. As it relates to voter education/communications, we had marketing expenditures related to the direction, design, and production of voter registration materials, such as the Voter Registration Application and the Absentee Ballot Application. As a point of clarification, the Absentee Ballot serves not only to request an absentee ballot but also to update a voter's registration. Additionally, we had marketing expenditures related to the direction, design, and production of voter education resources, such as a vote-by-mail brochure and a vote-by-mail video to explain the process.
