   - Post Election Auditing
     Risk limited audit software was maintained and used for post election auditing.

   - Voter Registration Systems
Temporary staff finished processing all of the returned mail from the statewide absentee ballot application mailing conducted in 2020. This returned mail was used to ensure the accuracy of the Qualified Voter File.

The Department also continued to maintain, update and enhance the QVF system with IT programming to function more effectively and to better assist the statewide election community which includes working with them to resolve QVF file problems via specialized software.

Cyber Security
We continued to enhance security of our Qualified Voter File with IT programming.

Staffing
We continued to fund a dedicated Election Security Specialist during this period.

Training
We continued to maintain training related software that allows for additional online technical assistance for statewide election officials, including systems that allow for interactive online assistance and training on both an individual and group level.

8. Describe any significant changes to your program during the project, including changes to your original State Plan/Program Narrative or favorable developments that improved program efficiency and/or service delivery.
