10. Describe in detail what happened during this reporting period and explain how you implemented the approved grant activities.

Election security funds were used to assist counties in upgrading the desktop computer system used to connect and transfer data to the statewide voter registration database. Upgrades were completed for 89 of 95 counties in this fiscal year.

Subgrants were provided for seven (7) counties (Greene, Houston, Loudon, Knox, McMinn, White, and Williamson) to assist with the purchase of voting systems with a voter verified paper record.

Subgrants have been authorized for each of Tennessee's 95 counties to receive $25,000 to make security enhancements. Most of these expenditures will be reimbursed to counties in the current fiscal year.

Additionally, the office employed a business intelligence specialist who assisted with cyber hygiene and cybersecurity activities. This employee was paid in part with 101 funds and in part with election security funds during this fiscal year.

11. Provide a timeline and description of project activities funded to meet HAVA requirements. Provide an analysis of how such activities conform to the submitted State Plan or Program Narrative as applicable.

The additional employee to assist with cybersecurity joined the office in August 2019. Subgrants for computer upgrades for the statewide voter registration system and subgrants to county election commissions to assist in the purchase of voting systems were completed in the spring and summer of 2020. These activities were anticipated in our program narrative for the security funds.
