4. Progress and Narrative
10. CARES Grant Specific:

Describe how you used the funds to address the pandemic.

Due to the pandemic, Louisiana's Presidential Preference Primary, originally scheduled for April 4th, was delayed and rescheduled for July 11th. This change allowed our agency the opportunity to put an emergency election plan in place. Measures within this plan provided the voting public a safe environment to cast their ballot as well as providing for the safety of the individuals working the election. Our agency carried many of these same measures into the November and December elections.

The Louisiana Department of State has utilized the CARES Act funding for many of these additional measures, which included the following:
- Purchase of high speed scanners to process increased absentee ballots
- Purchase of mobile voting units to ensure social distancing and CDC protocols at polling locations
- Increased staffing needs
- Hazard duty pay for Election Day commissioners and other staff working with the voting public
- Encouraging early voting by expanding early voting days and hours
- Advertising and media outreach to notify voting public of changes in the election and increased precautions
- Absentee ballots and election supply items
- Establishing additional sites to ensure social distancing and their associated costs
- Purchase, packaging, and transport of PPE across the state of Louisiana

11. Describe the major issues you faced in dealing with the pandemic in the election cycle.

The major challenges faced in responding to the pandemic during an election cycle were logistic in nature. Our agency had to establish an emergency election plan to be approved by the state legislature. For the Presidential Preference Primary, our plan was approved by the legislature, but then faced and survived a legal challenge in the courts. Then, for the November general election, our emergency plan was not approved by the governor and faced another legal challenge. The courts ordered many of the same measures in our Presidential Preference Primary emergency plan, and our agency followed the court order. The training of new protocols to over 15,000 election workers in a short time and the sheer volume of voters during the November general election was challenging. Additionally, our agency had to distribute massive amounts of PPE across the state to over 3,900 precincts.

12. Describe in detail what happened during this reporting period and explain how you implemented the approved grant activities.

All funds were used to address the effects of the coronavirus on the election.

Prior to the 2020 federal election cycle, high-speed scanners were purchased to expedite the processing of the increased number of returned absentee ballots.

During the Presidential Preference Primary (PPP) in July, CARES Act funds were utilized on extending the early voting days from seven to fourteen and contracting with drayman to deliver the PPE to each precinct.

During the Presidential election, funds were utilized for the following activities:
- Extending early voting days from seven to ten
- Increased absentee ballot printing
- Purchasing mobile voting units to ensure social distancing in larger/mega voting sites
- Hazard pay for poll workers on early voting and election day
- Contracting with drayman to deliver the PPE to each precinct
- Purchasing supplies and renting equipment to facilitate social distancing at precincts
- Media communication to notify public of precautions or changes in voting procedures

During the federal election in December, which included a runoff for 5th Congressional district, funds were utilized for hazard pay for poll workers and contracting with drayman to deliver the PPE to each precinct in 20 parishes that make up this Congressional district.
13. Provide a timeline and description of project activities funded to meet HAVA requirements. Provide an analysis of how such activities conform to the submitted State Plan or Program Narrative as applicable.

Prior to the 2020 federal election cycle, high-speed scanners were purchased to expedite the processing of the increased number of returned absentee ballots.

During the Presidential Preference Primary (PPP) in July, CARES Act funds were utilized on extending the early voting days from seven to fourteen and contracting with drayman to deliver the PPE to each precinct.

During the Presidential election, funds were utilized for the following activities:
- Extending early voting days from seven to ten

- Purchasing mobile voting units to ensure social distancing in larger/mega voting sites
- Hazard pay for poll workers on early voting and election day
- Contracting with drayman to deliver the PPE to each precinct
- Purchasing supplies and renting equipment to facilitate social distancing at precincts
- Media communication to notify public of precautions or changes in voting procedures

During the federal election in December, which included a runoff for the 5th Congressional district, funds were utilized for hazard pay for poll workers and contracting with drayman to deliver the PPE to each precinct in the 20 parishes that make up this Congressional district.

14. Describe any significant changes to your program during the course of the project, or if the project was implemented differently than described in your original State Plan or Program Narrative.

Otherwise enter - no significant changes during this period.

No significant changes during this period.

15. Describe any favorable developments which enabled meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

Otherwise enter N/A.

N/A

16. Report on the number and type of articles of voting equipment obtained with the funds. Include the amount expended on the expenditure table.

Otherwise enter - No articles of voting equipment purchased during this period.

110 High Speed Scanners with associated software - $1,275,500
3 Mobile Voting units - $296,865.60

17. Provide a description of any security training conducted and the number of participants.

Otherwise enter - no security training conducted during this period.

No security training conducted during this period.

18. Subgrants (if applicable):

Describe how you made funds available to local jurisdictions.

Provide a description of the major categories of subgrant activities local voting districts will accomplish with the funds.
Otherwise enter N/A.

N/A

19. Match (if applicable):

Describe how you are meeting the matching requirement.

Otherwise enter - match not required.

The LA Department of State met the state match requirement with in-kind donations of PPE utilized during the Presidential Preference Primary election and federal elections in the fall of 2020. These in-kind donations were from the Louisiana Governor's Office of Homeland Security and Emergency Preparedness.

20. Issues Encountered:

Describe all major issues that arose during the implementation of the project and the reasons why established goals were not met, if appropriate. Address each issue separately in its own section, and describe whether and how the issues were resolved. Also, briefly discuss the implications of any unresolved issues or concerns.

Otherwise enter - no issues encountered.

No issues encountered.

21. Upcoming Activities:

Provide a timeline and description of upcoming activities.

All grand funds, interest earned, and the associated match have been expended; therefore, the next step would be to complete the grant closeout process with the EAC.

5. Expenditures

22. Current Period Amount Expended and Unliquidated Obligations
