4. Progress and Narrative

Final Progress Report:

The final report is your opportunity to share the significant features of your project and present information about the results your project achieved. It should be written as if the reader has no previous knowledge of your project's activities. The report should cover the entire period of performance.

Review and Self-Assessment:
Review and highlight all activities that occurred during the implementation of the project, including an assessment of your performance.

During this period, the state of NM oversaw the 2020 Primary Election, the 2020 General Election and 2021 Special CD1 Election. The performance of the Agency considering the challenging circumstances that the Pandemic brought about was exemplary. Although most staff were remotely working, the Agency still oversaw 3 successful elections, educated voters on safe voting practices, managed the increase of mail-in ballots effectively, provided PPE to all of the counties during the early voting and voting periods.

7. CARES Grant Specific:

Describe in detail how you used the funds to address the pandemic.

The NMSOS utilized the CARES funding to promote safe-voting practices using statewide advertising through local radio, tv, billboard and social media campaigns which described and outlined the procedures to vote safely in person at the polls. Secondly, the Agency used the funds for printing and postage for the mailing of additional absentee ballots used in the Primary, General and CD1 elections due to the massive increase in absentee and mail-in ballot volume. This is classified as "Voter Registration Systems". Thirdly, the agency purchased personal protective equipment in vast quantity for in person voters and county election staff at the polls; such equipment included liquid sanitizer, disinfectant wipes, sanitizing spray, disposable gloves, personal face masks, and face shields.

8. Describe the major issues you faced in dealing with the pandemic and how you addressed or resolved those issues.

N/A - no significant challenges. The fund accounting of CARES and HAVA were combined to reallocate funds to CARES; although a significant procedural change, this did not hinder reporting ability.

9. Provide a description of any training conducted, including security training.

N/A

10. Subgrants:

Did your office provide subawards to local jurisdictions during this reporting period?

No

11. Match:

Describe how you are meeting or have met the matching requirement.

The full 20% State match was met using a grant from the non-profit Center of Election Innovation & Research which was expended during the reporting period. In addition to CEIR grant, the agency also obligated operating funds for COVID-safe voting advertisements.

12. Report on the number and type of articles of voting equipment obtained with the funds. Include the amount expended on the expenditure table.

N/A

13. Impact:

Write an assessment of how your project has impacted the problems you were trying to solve. Were there unexpected benefits? Shortfalls?

This project has positively impacted the problems the Agency faced during the pandemic. Without the disbursement of the CARES funds, the Agency would be faced with the daunting task of finding supplementary funding sources through grants or other emergency funding requests. The funds allowed the agency to quickly and effectively purchase and provide the New Mexico counties with the equipment necessary to conduct multiple elections during the pandemic.
14. Lessons Learned:

Provide a review of your successes and suggest ways that your experience may be helpful to others. Did you make permanent changes to your processes? What are some areas of potential improvement?

During the overall duration of this project, the Agency faced multiple hurdles and challenges to overcome. The CARES funding award was critical in the ability of the Agency to conduct multiple successful and efficient elections. As an Agency and a team, we have used the opportunities provided by the CARES grant as a learning experience in the continued federal/state relationship as well as in the reporting efficiency. One area to improve as an Agency would be such reporting; our tracking system at time renders reporting difficult as it doesn’t provide the data exactly correlated to what a certain narrative report requires. Through the regular CARES reporting opportunities, we have made improvements to our internal processes and look forward for more opportunities to showcase in the future.
